## ATTACHMENT 1

- In March 2025, the City requested TRC to coordinate with the contractor United Pavement Maintenance, Inc. ("UPM") to reconstruct three additional curb ramps to Americans with Disabilities Act ("ADA") standards located on the southeast and southwest corner of Main & Alameda and northwest corner of Main and Northgate.
- In June 2025, during the concrete median construction activities, UPM discovered a concrete layer underneath the existing Main Street roadway that were not shown on the plans. TRC coordinated with UPM, the design engineer Mark Thomas & Company, and the City for an alternative to install the concrete median and median fencing footing without removing the existing concrete layer. The selected resolution was to proceed with installing the concrete median curbs on top of the existing concrete pavement, additional expansion joint requirements, and pedestrian fence footing change to base plate connection.
- In July 2025, the City requested TRC to coordinate with UPM to reconstruct four additional curb ramps to ADA standards at the Golden West School driveways, as well as provide a left turn lane to the Parkwest Casino driveway to allow for better traffic circulation.; and

WHEREAS, implementing these changes required additional time for TRC to perform CM&IS for the Project; and

WHEREAS, the City Council has considered all information related to this matter, as presented at the public meetings of the City Council identified herein, including any supporting reports by City Staff, and any information provided during public meetings.
