This document is designed to be viewed digitally as an interactive budget website. When converted to PDF for printing or other uses, the formatting may cause excess white space and/or misalign section headings from their corresponding content. Additionally, the page count may increase. For the best experience, we encourage you to view the budget in its digital format to take full advantage of its interactive features.

Mission Statement

"The Manteca City Council embodies the values of community, neighborly compassion, and unwavering commitment to integrity, leadership and optimism."

The City of Manteca's FY 2025-26 Budget reflects the City Council's mission of community, integrity, and leadership. It is a comprehensive financial plan aligning resources with City priorities, ensuring the delivery of essential services while promoting sustainable growth.

The document serves as both a fiscal roadmap and a policy guide, supporting transparency, accountability, and strategic decision-making. Developed through a rigorous process, the budget balances immediate needs with long-term planning, focusing on public safety, infrastructure, economic development, and service quality.

It sets annual spending based on projected revenues, with any mid-year funding increases requiring Council approval. The City remains committed to adapting to changing conditions and maintaining responsible, forward-looking financial management.

Financial Plan and Budget Organization

The City of Manteca's Financial Plan and Budget is organized into key sections to provide clarity, transparency, and context for a wide range of audiences, including the public, businesses, and government entities. The document includes:

- **Budget Message:** Includes the City Manager's overview of the fiscal condition and key budget highlights, along with the City's history, demographics, fiscal policies, and the budget development timeline.
- **Executive Summary:** Provides a citywide overview of revenues and expenditures by department, includes an interactive "Where Your Tax Dollars Go" graphic, and highlights the City's strategic plan and recent personnel changes.
- **Department Summaries:** Details each department's structure, functions, accomplishments, goals, and expenses.
- **Fund Summaries:** Offers data on revenues, expenditures, and fund balances with supporting graphics.
- **5-Year Forecasts:** Presents financial projections for some funds, helping guide long-term planning and ensuring ongoing fiscal sustainability.
- **Debt Services and Inter-Fund Transfers:** Details the City's debt obligations and fund transfers.
- **Capital Improvement Plan:** Outlines a one-year and multi-year strategy to guide infrastructure and facility investments across the City, along with a view by project type.
- **Projects by Department:** Provides a detailed list of ongoing and planned projects organized by each department.
- **Supplemental Information:** Contains additional materials to support understanding of the budget process, including a position control listing and glossary of terms.

Operating programs are organized by departmental functions, providing a comprehensive view of how resources are allocated and managed:

- **Administration:** City Manager, City Attorney, Legislative Services/City Clerk, Human Resources, Finance, and Information Technology
- **Public Safety:** Police and Fire
- **Cultural Services:** Recreation & Community Services
- **Development and Infrastructure:** Development Services, Public Works, and Engineering

Budget Message

Toni Lundgren, City Manager

June 17, 2025

Honorable Mayor, Members of the City Council, and Residents of Manteca:

I am pleased to present the City of Manteca Annual Budget for Fiscal Year 2025–26. This budget reflects months of strategic planning, collaboration, and community engagement, with a focus on building a resilient city while managing financial challenges responsibly.

Developed through a transparent and inclusive process, the budget incorporates input from departments, residents, and community partners, aligning with the City Council's adopted goals and priorities. We've taken a conservative approach to revenues and worked closely with departments to make thoughtful adjustments to keep spending within available resources.

While some funds continue to face pressure, the City is making progress—on-time audits will help unlock withheld grant funding, and fee and rate updates are underway. A potential sales tax measure is also being explored to help address deferred infrastructure needs, enhance public safety, and improve overall quality of life for Manteca residents. This budget balances immediate needs with long-term investment to ensure a stronger future for our community.

Employee costs in the City of Manteca continue to rise, posing significant budgetary pressure. Current labor contracts are in their final year, expiring at the end of Fiscal Year 2024–25. The need to remain competitive in wages and benefits to attract and retain a qualified workforce represents the City's most immediate financial risk outside broader economic downturns.

Pension obligations are also increasing, driven by the full implementation of CalPERS' lowered long-term rate assumptions and continued investment returns falling below those benchmarks. Additionally, the global insurance market remains highly unstable due to recent catastrophic events and major payouts, resulting in skyrocketing premiums and reduced coverage availability across all risk pools. While Manteca is partially self-insured, it is still impacted by these broader insurance market disruptions.

Despite ongoing economic pressures, the City of Manteca is well-positioned to manage short-term challenges in Fiscal Year 2025–26 without major service disruptions. Strategic investments made during recent growth years have strengthened the City's financial foundation. Progress has also been made in addressing capital needs, while reserves for technology, vehicle, and equipment replacement have been established or enhanced.

Looking ahead, sustained focus on long-term liabilities is essential. Aging infrastructure, evolving regulations, and technology demands require continued investment to maintain service quality. Strengthening pension funding remains a priority to retain and attract a skilled workforce in a competitive labor market. Continued commitment and financial planning will be critical to meeting these needs in the years to come.

Despite economic uncertainty, the City of Manteca continues to meet its financial commitments by fully funding General Fund reserves as outlined in Council-adopted policies. This includes 25% of expenditures for potential economic downturns, 5% for pensions, and additional allocations for economic development, capital, and technology needs.

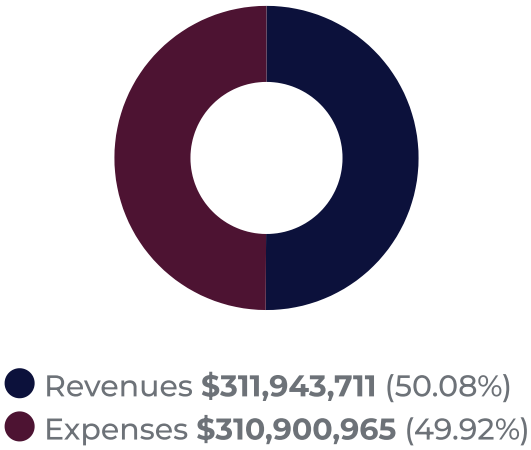
Each year, the City Council sets new strategic goals and priorities that shape the City's budget, operations, and initiatives, ensuring alignment with both community values and Council objectives.

With the recent passage of Measure Q—a ¾-cent general sales tax—and the implementation of updated water and wastewater rates, the City is well-positioned to address long-standing infrastructure and maintenance needs. For Fiscal Year 2025-26, the City plans to invest approximately $65.1 million in capital improvements. Major projects include $13 million to close a critical gap in the South Manteca trunk sewer main, $4.9 million for storm drain design work, and over $14 million in upgrades to the City's wastewater treatment facilities. Additionally, $7.3 million has been allocated for public safety equipment and facilities, and $8.4 million for street and transportation projects, including $3.9 million to advance two diverging diamond interchange upgrades. The budget also supports fleet replacements across departments, community enhancement projects, and continued investment in technology and infrastructure resiliency.

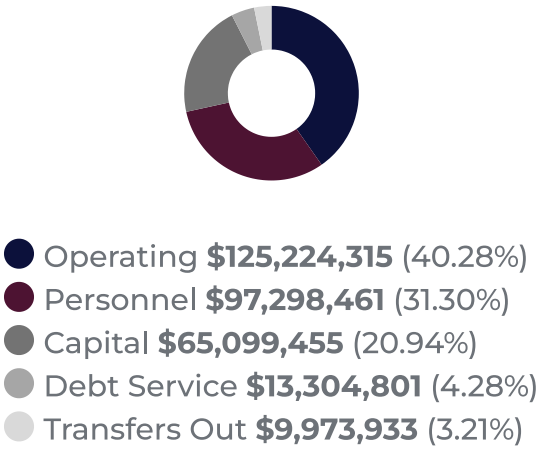
Budget Overview

The **proposed** Fiscal Year 2025-26 budget projected a $1.4 million surplus, with revenues of $312.6 million and expenses totaling $311.2 million. The focus was on maintaining essential services, supporting key initiatives, and ensuring the City's financial health. The **final** adopted budget reflects adjustments, resulting in a slightly lower surplus of $1 million, with revenues of $311.9 million and expenses of $310.9 million. These changes continue to uphold the City's priorities while maintaining fiscal stability.

Fiscal Year 2025-26 Citywide Revenues vs. Expenses



Citywide Expenses by Category ($310.9 million)



Department/Fund Relationship

The City's budget is structured by fund type and department to promote transparency, fiscal accountability, and alignment with service delivery goals. Each department—such as Police, Fire, Public Works, and Parks & Recreation—may receive funding from multiple fund types depending on the nature of its services and the revenue sources available.

Major funds—including the General Fund, Enterprise Funds (e.g., Water and Sewer), and Capital Project Funds—serve as the primary funding sources for core departmental operations and capital improvements.

Nonmajor funds, such as special revenue and internal service funds, provide additional support for specific programs, regulatory requirements, or internal City services.

The following table illustrates how departmental functions are funded across both major and nonmajor fund types, providing an aggregated view of how City resources are allocated to support public services.

Department	Capital Improvements	Enterprise	General Fund	Internal Service	Other Funds
City Attorney	-	175,000	1,522,675	11,000	-

111,324,974	**622,844,676**

Key Factors & Strategies

Key Factors Contributing to the Surplus

The City's $1.4 million surplus is primarily the result of strong local economic activity, which led to higher-than-expected revenues from sales tax, property tax, and transient occupancy tax. In addition, conservative budgeting helped keep spending below projected levels, with contingency funds and reserves largely unused. Operational efficiencies—such as delayed hiring, vacant positions, and cost savings through improved procurement—also played a significant role in reducing overall expenditures.

Strategies for Addressing Solvency

To ensure long-term fiscal health, the City is taking a comprehensive approach to solvency. Expense management remains a priority, with ongoing efforts to control costs by limiting discretionary spending, renegotiating contracts, and deferring non-essential, unfunded capital

projects. On the revenue side, the City is actively identifying new funding sources, adjusting fees as needed, and pursuing grants to enhance financial capacity.

Building and maintaining strong General Fund reserves is a key focus, providing a financial cushion against economic uncertainty. The City is also strengthening its long-term financial planning through the development of a multi-year forecast and by accounting for pension and retiree health obligations.

To support major initiatives, the City continues to explore public-private partnerships that help fund important projects while reducing pressure on public resources. Lastly, community engagement remains central to the City's approach, ensuring that financial decisions reflect residents' priorities and values.

General Fund Overview

General Fund Revenue

The Fiscal Year 2025–26 budget is funded through property and sales taxes, grants, and other revenue sources, with a focus on maximizing available resources for city improvements. The projected General Fund revenue is $80.5 million, an increase of about $4.9 million (6%) over the Fiscal Year 2024–25 amended budget. This growth is driven by steady consumer spending, new business activity, population growth, inflation-driven prices, and stable employment.

Revenue Type	FY22 Actuals	FY23 Actuals	FY24 Actuals	FY25 Amended Budget	FY26 Budget
Property Taxes	21,443,545	25,660,665	27,637,304	28,325,686	31,500,000

General Fund Expenses

The Fiscal Year 2025–26 General Fund expenditure budget is $80.6 million, an increase of $186,988 (0.02%) from the Fiscal Year 2024–25 amended budget. The increase is mainly attributed to new personnel and the continuation of a Class & Compensation Study from the previous fiscal year.

Category	FY22 Actuals	FY23 Actuals	FY24 Actuals	FY25 Amended Budget	FY26 Budget
Personnel	41,466,035	41,292,174	44,148,400	47,050,537	48,609,328
Operating	18,058,439	20,495,791	23,559,740	27,841,864	28,958,225

Transfers Out	1,272,327	1,581,870	2,521,766	1,281,500	2,473,933
Grand Total	**62,394,109**	**66,150,979**	**73,522,178**	**80,365,425**	**80,552,413**

All Other Funds Overview

For Fiscal Year 2025-26, the City projects a 10% increase in revenue and a 28% decrease in expenses for All Other Funds, driven by staffing additions, inflationary pressures, and capital investments.

All Other Funds Revenues

The City's Revenue Budget for All Other Funds is $231.9 million for Fiscal Year 2025-26, which is $23 million more (10%) than the Fiscal Year 2024-25 Amended Budget of nearly $209 million.

Revenue	FY22 Actuals	FY23 Actuals	FY24 Actuals	FY25 Amended Budget	FY26 Budget
Revenue	160,545,470	147,323,717	192,630,365	205,913,454	221,427,196
Transfers In	4,362,318	5,237,542	256,380	2,876,798	10,425,101
Grand Total	**164,907,788**	**152,561,259**	**192,886,745**	**208,790,252**	**231,852,297**

All Other Funds Expenses

The City's Expense Budget for All Other Funds is $230.3 million for Fiscal Year 2025-26, which is $91 million less (28%) than the Fiscal Year 2024-25 Amended Budget of $321.2 million. The decrease from Fiscal Year 2024-25 to Fiscal Year 2025-26 is mainly due to capital funds that will roll into future years as projects continue.

Expenses	FY22 Actuals	FY23 Actuals	FY24 Actuals	FY25 Amended Budget	FY26 Budget
Personnel	40,067,271	41,598,698	37,347,901	46,727,671	48,689,133

Grant Total	**114,741,584**	**123,769,107**	**139,095,709**	**321,246,369**	**230,348,552**

Fund Balance

The audit for Fiscal Year 2023-24 has been completed, returning the City to a regular audit cycle. Fund balances for Fiscal Year 2025-26 were projected using audited data from Fiscal Year 2022-23 and best estimates for Fiscal Year 2024-25, with fund summaries including commentary to provide additional context.

Pension Liability

For Fiscal Year 2024-25, the City of Manteca's annual pension-related costs total approximately $16.4 million. This includes $11.1 million in Unfunded Accrued Liability (UAL) payments, $5.3 million in normal cost contributions, and contributions to a 115 Trust for pensions and Other Post-Employment Benefits (OPEB). These costs have increased 22.5% from the prior year due to CalPERS assumption changes. OPEB obligations continue to be addressed through the 115 Trust, with ongoing contributions annually.

Staffing

The Fiscal Year 2025-26 budget includes scheduled pay increases outlined in current labor agreements, with one employee group still in active negotiations. Several contracts also contain re-opener clauses that allow for wage discussions if sales tax revenue increases by 5% or more during the fiscal year. To support operational needs—particularly in public safety, fleet maintenance, and parks—the budget adds eight (8) new full-time positions and includes three (3) position reclassifications to better align staffing with current responsibilities.

Capital Projects

The Fiscal Year 2025-26 budget includes new capital projects and a comprehensive five-year Capital Improvement Program covering current, approved, and future projects. However, due to funding gaps in water, sewer, and solid waste, non-emergency projects in these areas are on hold, with new requests deferred until additional revenue or bond funding becomes available later in the fiscal year.

Cost Distributions

The Fiscal Year 2025-26 budget reflects updated staffing cost distributions across multiple funds to accurately allocate shared services, such as customer support for utilities. It also includes revised internal cost allocation charges to fully capture the cost of internal services like Information Technology. A comprehensive cost allocation study was completed with consultant support to ensure transparency and accurate accounting.

Community Engagement

Community involvement has been a vital part of this year's budget process. Through public hearings and town halls, residents shared thoughtful feedback that helped shape a budget focused on meeting the needs and priorities of our community. We sincerely appreciate your engagement and support.

Looking Ahead

The Fiscal Year 2025-26 budget reflects not only our commitment to fiscal responsibility but also our focus on long-term community growth and vibrancy. Major projects include the planned Ten Pin Fun Center on Atherton Drive (between Union Road and Airport Way), the Family Entertainment Zone (a 150-acre city-owned master-planned development expected to have a significant regional draw), and Manteca Crossing, a mixed-use development at Atherton and Airport featuring a hotel, retail, and gas station anchored by a grocery store, to serve the city's growing south side. Our first Downtown Property & Business Improvement District continues to enhance the downtown experience for businesses and residents alike.

In addition, new businesses such as Crumbl Cookies, Bao Bao, Waba Grill, and others are choosing Manteca, boosting local commerce, and expanding amenities for our community. With this momentum, the Fiscal Year 2025-26 budget lays the foundation for a thriving, sustainable future while allowing flexibility to respond to evolving needs and opportunities.

Conclusion

I want to extend my sincere appreciation to the City Council, our dedicated staff, and especially Budget Manager Lana McBroom and her team for their tireless work in preparing the Fiscal Year 2025-26 budget. Their commitment and collaboration made this balanced budget possible. We're confident it positions Manteca to meet upcoming challenges and continue building a strong, vibrant community. I look forward to working together to achieve our shared goals and ensure Manteca remains a great place to live, work, and thrive!

Sincerely,

Toni Lundgren, City Manager

History of the City

Overview

Manteca is located in California's Central Valley, between Stockton and Modesto, with a 2024 population of 90,917, reflecting a 2.7% annual growth. The city spans 17.8 square miles and experiences hot, dry summers and mild, rainy winters.

History

Originally inhabited by the Yokuts, Manteca evolved from an agricultural community. Joshua Cowell, the city's founder, arrived in 1861. The Central Pacific Railroad misspelled the intended name "Monteca" as "Manteca" (Spanish for lard), which stuck. Major development began in 1909 with the formation of the South San Joaquin Irrigation District.

Modern Growth

Manteca's strategic location at the intersection of Interstate 5, Highway 99, and SR-120 has made it a popular spot for Bay Area commuters. It now hosts key facilities like the ACE Train, Manteca Transit Center, and a growing list of attractions.

Attractions & Highlights

- **Great Wolf Lodge**: a 500-room resort with an indoor water park drawing over 638,000 annual visitors.
- **Big League Dreams Sports Park**: Replica Major League Baseball fields, indoor pavilion, restaurant – 760,000 visitors annually.
- **Bass Pro Shops**: Features themed environments, archery range, and tribute displays.
- **Pumpkin Fair**: Celebrates Manteca's nickname as the "Pumpkin Capital of the World," drawing 20,000+ each October.
- **Watermelon Street Fair**: Regional event attracting 40,000+ attendees.
- **Manteca Mural Society**: 32 murals downtown celebrating local culture and history.
- **East Union Cemetery**: Historic landmark from 1872.
- **Manteca Golf Course**: Public 18-hole course with a country club feel.
- **Deaf Puppy Comedy Club** & **Brethren Brewing Company**: Add cultural and social vibrancy to downtown.

Transit & Accessibility

The Manteca Transit Center offers modern, accessible public transit, including tools for the visually impaired. It also serves as a venue for community events.

Manteca has transformed from a small farming town into a full-service city, balancing growth, tourism, history, and community charm.

** Data Source: U.S. Census Bureau American Community Survey 5-year Data and the 2020, 2010, 2000, and 1990 Decennial Censuses*

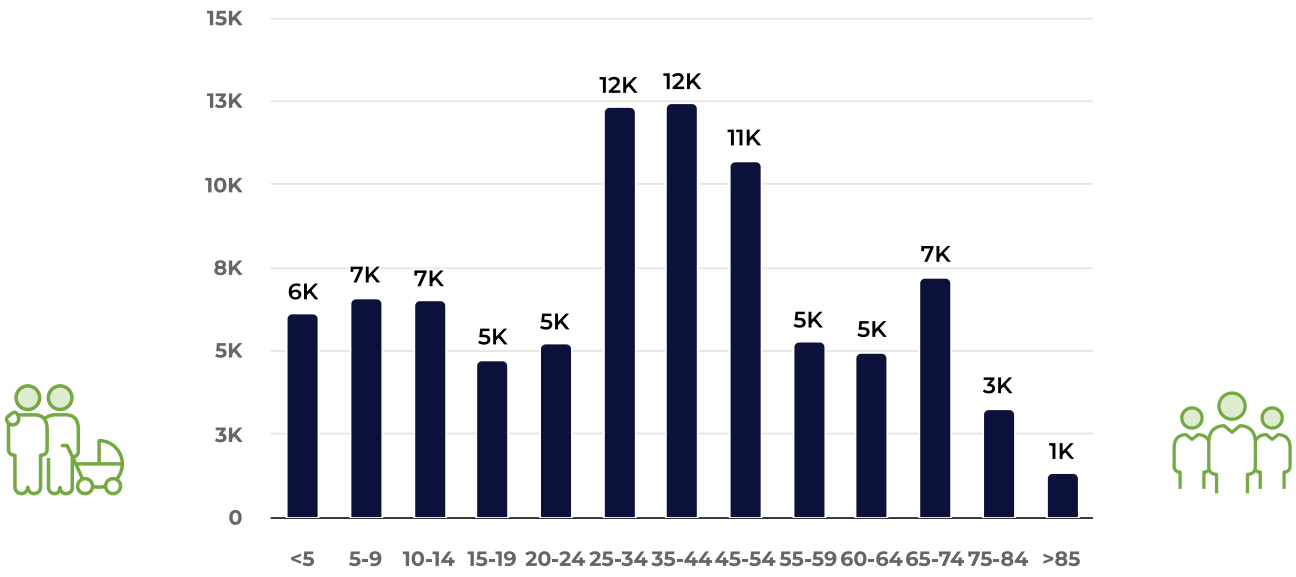
DAYTIME POPULATION

73,260

Daytime population represents the effect of persons coming into or leaving a community for work, entertainment, shopping, etc. during the typical workday. An increased daytime population puts greater demand on host community services which directly impacts operational costs.

** Data Source: American Community Survey 5-year estimates*

POPULATION BY AGE GROUP



Aging affects the needs and lifestyle choices of residents. Municipalities must adjust and plan services accordingly.

** Data Source: American Community Survey 5-year estimates*

Household

TOTAL HOUSEHOLDS

26,926

Municipalities must consider the dynamics of household types to plan for and provide services effectively. Household type also has a general correlation to income levels which affect the municipal tax base.

Budget and Fiscal Policy

The annual budget and financial plan aim to align the City's financial resources with the City Council's goals and community priorities. This is supported by formal fiscal policies and procedures that guide budget preparation and management. Key policy areas include financial reporting, budget development, capital improvement planning, reserve management, revenue and fee strategies, debt and investment practices, personnel, and service contracting.

Financial Plan Purpose and Organization

The City's annual financial plan is designed to identify community service needs, set service goals, organize activities, and allocate resources accordingly. It also establishes objectives to improve service delivery and sets standards to evaluate performance, goal achievement, and budget use.

Financial Reporting

The City will produce annual audited financial statements using generally accepted accounting principles and aims to meet GFOA standards. Financial activity is reported across various funds to ensure transparency and legal compliance. Interim reports will keep the Council and staff informed of fiscal status, and a Mid-Year Budget Review will assess progress, allowing for adjustments to meet goals and complete priority projects.

Budget Development and Administration

A balanced budget occurs when revenues and one-time reserve use meet or exceed expenditures, ensuring financial stability. The City of Manteca manages two primary fund types: **General Funds**, which are flexible and support essential services like public safety, and **Restricted Funds**, which are legally earmarked for specific services or projects, such as utilities or infrastructure. The City prioritizes using restricted funds where eligible, reserving General Fund dollars for needs without dedicated funding sources.

To support the Council's mission and goals, the City uses key budget strategies: maintaining a strategic focus aligned with community priorities, ensuring strong fiscal control and accountability, promoting clarity in financial planning, incorporating long-term resource allocation, and delivering flexible, cost-effective services that adapt to changing needs.

The City Manager presents an annual budget and financial plan to the City Council, detailing past, current, and projected revenues, expenditures, and fund balances. The plan outlines service priorities, a five-year financial forecast, and a five-year Capital Improvement Program, serving as both the City's official financial plan and strategic guide for delivering services to the community.

The City's budget is developed by staff under the direction of the City Manager. Each winter, departments receive financial guidance and submit budget requests, which are reviewed and compiled into a Proposed Budget. After review by the Finance Director and City Manager, the Proposed Budget is presented to the City Council in June for public input and adoption. If not adopted by July 1, interim spending measures may be enacted. Both Proposed and Adopted Budgets are published online for public access.

The City Council may amend the budget at any time with a majority vote, but any changes to total appropriations require formal Council approval, unless specifically authority to increase appropriations has been delegated by Council. Council action is also needed for inter-fund transfers, reserve appropriations, and large loan commitments. The City Manager (*"City Manager" means the City Manager or, if so designated, the Finance Director, Assistance Finance Director, or the Budget Manager*) is authorized to make certain budget adjustments, such as transfers within a fund or department, and reserve appropriations, as permitted by policy or Council resolution.

Appropriation Control

The City Manager has broad authority to manage and amend the Adopted Budget, within parameters set by the City Council. Key areas include:

- **General**
  - **Expenditure Limits:** Expenditures must not exceed appropriations at the fund level.

- **Council Authorization**
    - **Budget Amendments:** Any changes that increase or decrease the City's total budget must be approved by the City Council unless specifically authorized otherwise.
- **City Manager Authorization**
    - **Implementation of Council-Adopted Budget:** Authorization to adjust appropriations and staffing per Council direction during budget adoption.
    - **Transfers Within Funds:** Authorized to transfer appropriations and revenues within the same fund and between "like funds" (e.g., funds combined for financial reporting in Solid Waste, Sewer, and Water enterprise funds). Includes transferring funds between Council-approved Capital Improvement Projects and among Capital Outlay projects within the same fund without further City Council approval.
    - **Fund Special Authority**: Authorized to amend budgets for Asset Seizure, Mutual Aid, Planning/Building Divisions, Risk Management, and grant-related funds as needed during the year.
    - **Grants & Special Revenue**: Authorized to adjust grant-related funds (e.g., TDA, LTF, SLESF, Measure K) to match actual grant awards and amend budgets to return unspent grants if required.
    - **Other Adjustments**: Authorized to adjust budgets due to legal settlements, judgments, fines, or interest earnings. Authorized to amend ARPA-funded budgets (including increasing or decreasing appropriations) until all funds are spent and recorded.
    - **Corrections & Loans**: Authorized to correct inconsistencies in the adopted budget and adjust inter-fund loan repayments based on available funds.

Unspent Appropriations and Encumbrances

At the end of each fiscal year (June 30), the City follows these guidelines for managing unspent or committed funds:

- **Purchase Orders:** All outstanding purchase orders and their appropriations remain valid until the fiscal year is officially closed.
- **Unspent Appropriations:** Any unencumbered or unspent funds generally revert to their respective fund balances unless they qualify for re-appropriation under the following exceptions:

Eligible for Re-appropriation:

1. **Capital Projects:** Unspent capital outlay funds from Capital Improvement Projects, Minor Public Works Projects, or Studies may be re-appropriated into the next fiscal year.
2. **Asset Seizure Funds:** Any remaining appropriations can be carried forward.
3. **Necessary Purchase Orders:** Encumbered funds for equipment, goods, or services essential for ongoing operations may be rolled over with City Manager's approval.
4. **Housing & Homelessness Grants:** Any unspent funds can be re-appropriated in future years.
5. **Grant Funds:** Per grant resolution authority, any unspent or unearned non-capital grant funds and associated revenues may be re-budgeted in future years.

Basis of Budgeting

The City's budget and Annual Comprehensive Financial Report (ACFR) are prepared using the modified accrual basis of accounting, consistent with Generally Accepted Accounting Principles (GAAP). Under this method, revenues are recognized when they are both measurable and available—meaning they can be determined and are collectible within the fiscal year or within 60 days after year-end. Expenditures are recorded when the related liability is incurred. An exception applies to enterprise funds such as Solid Waste and Water, which follow the full accrual basis of accounting, recognizing revenues when earned and expenses when incurred.

Gann Appropriations Limitation

The City of Manteca annually adopts a resolution to establish its Gann Appropriations Limit, in accordance with California's Constitution and applicable state laws. This limit restricts the amount of tax revenue the City can spend and is reviewed alongside the final budget approval. Supporting documentation is made available for public and Council review. To manage this limit, the City prioritizes developing non-tax revenue sources, regularly reviews user fees and subsidies, and supports legislative efforts to provide more flexibility under the limit. If tax revenues exceed the allowable limit, the City will seek voter approval to adjust the cap.

Capital Improvement Management

Definitions

- **Capital Outlay:** Budgeted expenditures for capital assets like infrastructure (roads, parks, water/sewer systems, lighting, drainage, flood control), buildings, land, and equipment (vehicles, computers, etc.). Only items costing $5,000 or more qualify as capital outlay.
- **Capital Improvement:** Permanent additions or major renovations to the City's infrastructure, including land, buildings, or facilities.
- **Capital Improvement Program (CIP):** A multi-year financial plan (usually five years) outlining proposed capital projects and their expenditures, updated annually.

Capital Improvement Program (CIP) Purpose

The core purpose of the Capital Improvement Program (CIP) is to systematically plan, schedule, and fund capital projects following established policies. It includes a five-year plan aligned with operating program categories, balancing projects that maintain or improve existing assets with those that expand the City's capital facilities.

Capital Projects: $250,000 or More

Only capital improvement projects costing $250,000 or more and involving construction or land acquisition must be included in the Capital Improvement Program; all other capital outlays are included in the operating program budgets.

Project Manager

Each CIP project is assigned a project manager responsible for preparing the proposal, overseeing timely completion of project phases, authorizing expenditures, ensuring compliance with laws and regulations, and providing regular status reports.

CIP Project Approval

Capital Improvement projects must be approved by the City Council. City Manager is authorized to close out completed projects and reopen previously closed projects as needed.

CIP Phases

The CIP focuses on thorough project planning, with each project advancing through a minimum of two and up to ten defined phases:

- **Designate:** Appropriates funds for projects approved by the Council through the Financial Plan.
- **Study:** Includes concept design, site selection, feasibility analysis, schematic design, environmental review, property appraisals, scheduling, grant applications and approvals, and equipment specification preparation.
- **Environmental Review:** Preparation of Environmental Impact Reports (EIR) and other environmental studies.
- **Real Property Acquisitions:** Acquisition of property needed for projects.
- **Site Preparation:** Demolition, hazardous materials removal, and other pre-construction activities.
- **Design:** Finalizing design, preparing plans and specifications, and estimating construction costs.
- **Construction:** Managing construction contracts.
- **Construction Management:** Overseeing project management, inspections, soil/material testing, and other support during construction.
- **Equipment Acquisitions:** Purchasing and installing vehicles, heavy machinery, computers, office furnishings, and other equipment separately from construction contracts.
- **Debt Service:** Making principal and interest payments on debt used to fund completed projects.

CIP Appropriation

The City's annual CIP funding for study, design, acquisition, and construction is based on projects approved by the Council through the budget adoption process. Appropriations are generally made when contracts are awarded. If project costs come in lower than budgeted, the remaining funds return to the fund balance. If costs exceed the budget, the City has several options:

- Eliminate the project

- Defer the project to the next Financial Plan period
- Re-scope or phase the project to fit the existing budget
- Transfer funding from a lower priority project
- Approve additional appropriations from the fund balance

CIP Budget Carryover

Appropriations for CIP projects may remain unused and lapse for years after budget adoption if there are no expenditures, appropriations, or approved contracts for those projects.

Fund Balance and Reserves

The City aims to maintain adequate General Fund balances to preserve creditworthiness and support economic uncertainties, unforeseen needs, and cash flow requirements. Fund balances will cover ongoing projects from prior budgets, debt service reserves, encumbrances, and other reserves required by contracts, laws, or accounting standards. For more details, refer to the City's Reserve Policy.

General Revenue Management

Diversified and Stable Base

The City aims to maintain a diversified and stable revenue base to protect against short-term fluctuations in any single revenue source.

Long-Range Focus

The City maintains current projections of major revenues for the next five years to support long-term financial planning.

Current Revenues for Current Uses

The City finances all current expenditures with current revenues, avoiding budget balancing through postponing expenses, accruing future revenues, or rolling over short-term debt.

Inter-fund Transfers and Loans

The City manages various funds (special revenue, capital project, debt service, enterprise) as separate entities with dedicated revenues and expenditures. Operating transfers between funds are clearly defined in the Financial Plan and authorized by City Council. Inter-fund borrowings are temporary cash flow loans intended for repayment within the fiscal year and do not change fund equity, unlike transfers which do.

- The Finance Director can approve temporary inter-fund borrowings for cash flow needs expected to be repaid within 12 months.
- Long-term borrowings require City Council approval.

User Fee Cost Recovery Goals

Ongoing Fee Review

- Fees are regularly reviewed and updated to keep pace with cost-of-living changes and service delivery adjustments.
- A comprehensive cost and fee analysis occurs at least every five years.
- Annual fee adjustments reflect changes in the Consumer Price Index and personnel costs.
- Fees may be revised sooner if significant service cost or delivery changes occur.

User Fee Cost Recovery Principles

- **Community-wide vs. Special Benefit:** General revenues fund community-wide services; user fees target specific beneficiaries.
- **Service Recipient vs. Service Driver:** Fees are charged to those driving costs, even if the broader community benefits.

- **Pricing Impact:** Full cost recovery ensures service demand matches genuine need but may limit access for low-income groups, especially for targeted services.
- **Feasibility:** Cost recovery is balanced with the practicality and expense of fee collection.

When Low Cost Recovery is Appropriate

- No direct link between fee paid and benefit received.
- Fee collection is inefficient or disrupts service delivery.
- Services are intended to be widely accessible (e.g., emergency services, public parks).
- Services are non-recurring, emergency, or peak demand-based.
- Fee collection might discourage regulatory compliance.

When High Cost Recovery is Appropriate

- Services similar to private sector offerings.
- Alternatives exist in the private/public sectors.
- Service use is discouraged (e.g., false alarm police responses).
- Regulatory services where voluntary compliance is low (e.g., building permits).

General Service Charge Guidelines

- Revenues should not exceed reasonable service costs.
- Cost recovery should cover all direct and indirect costs, including administrative overhead.
- Fee assessment and collection should be simple to minimize administrative costs.
- Rates should consider market conditions, infrequent users, and economic development impact.
- A unified approach is used to determine cost recovery across programs.

Services with Low-Cost Recovery Goals

- Public safety emergency responses (police, fire).
- Public facilities maintained for community-wide use (streets, parks, buildings).

Development Review Program Fees

- Includes planning, building safety, engineering, and fire plan check services.
- Cost recovery goals are generally very high, often aiming for 100%.
- The City must ensure timely, quality service to justify these fees.

Fee Comparability with Other Communities

- Comparing fees with other agencies helps assess market reasonableness and efficiency.
- However, fee surveys should not be the sole basis for setting fees due to differing objectives, cost structures, service levels, and rate structures across communities.

Enterprise Fund Fees and Rates

Water, Sewer, and Solid Waste

The City will set fees and rates for water, sewer, and solid waste services at levels that fully cover all direct and indirect costs. This includes operations, capital outlay, and debt service for each of these enterprise programs.

Golf

Golf program fees should cover direct operating costs. However, due to the course's emphasis on youth and senior access, the City Council may consider subsidies from the General Fund to help with indirect costs, capital improvements, and potentially direct costs during the Financial Plan process.

Transit

The City aims to cover at least 20% of transit operating costs through fare revenues, in line with targets set by the Transportation Development Act.

Ongoing Rate Review

The City will regularly review and adjust enterprise fees and rates to ensure they remain fair and appropriate.

Capital Financing and Debt Management

Capital Financing

The City will use debt financing only for one-time capital improvement projects, and only when:

- There are sufficient revenues or resources to cover long-term debt service
- The project's useful life equals or exceeds the financing term

Debt will be aligned with the Capital Improvement Program Plan and integrated into the City's Financial Plan. It will not be used for recurring costs like operations or maintenance, though short-term instruments (e.g., revenue or tax anticipation notes) are excluded from this restriction.

Capital improvements will mainly be funded through user fees, service charges, assessments, special taxes, or developer agreements, ensuring costs are covered by those benefiting from the facilities. Development impact fees will be set at levels that require new development to pay its fair share of community facility costs.

Capital Improvement Financing Evaluation

The City will assess whether to use **pay-as-you-go** or **long-term financing** for capital improvements based on the following criteria:

Factors Favoring Pay-As-You-Go Financing

- Sufficient current revenues or fund balances are available
- Projects can be phased out over time
- High existing debt levels may negatively impact the City's credit rating
- Unstable or unfavorable market conditions make borrowing difficult

Factors Favoring Long-Term Financing:

- Reliable revenues are available to support debt service and ensure investment-grade credit ratings
- The project qualifies for and supports an investment-grade rating
- Market conditions offer favorable interest rates and investor demand
- The project is mandated by state or federal requirements, and resources are lacking
- Immediate capacity needs must be addressed but current resources are insufficient
- The project's useful life is 10 years or more

Debt Management Policy

Long-Term Financing Policies

- **General Fund Limitation:** The City will avoid using the General Fund to back long-term debt unless doing so significantly improves marketability.

- **Feasibility Analysis:** For every long-term financing, the City will conduct an internal analysis evaluating budget impacts, operational costs, and the reliability of revenue sources for debt service.
- **Financing Method:** The City prefers competitive financing but may use negotiated financing for complex or volatile market conditions.
- **Credit Rating and Enhancements:** The City will aim for an investment-grade rating (Baa/BBB or higher) and seek credit enhancements like insurance or letters of credit when needed.
- **Debt Monitoring and Reporting:** All debt will be monitored regularly, with annual reports to the Council. Compliance with bond covenants and federal tax rules for tax-exempt debt will be ensured.
- **Transparency and Disclosure:** The City will maintain open communication with bond rating agencies and practice full financial disclosure in reports and official statements.
- **Regulatory Compliance:** The City will comply with SEC Rule 15c2-12 and regularly review its continuing disclosure responsibilities.
- **Use of Proceeds:** The City will track and document the use of debt proceeds, ensuring they align with original purposes. Records will be retained for the life of the debt and three years after final maturity. Legal counsel will be consulted if there's a change in use.
- **Reporting Requirements:** The City will file all required reports with the California Debt and Investment Advisory Commission (CDIAC), including proposed issuance and final sale reports, and will retain copies of these filings.

Debt Capacity

General Purpose Debt Capacity

The City will carefully monitor general-purpose debt levels, recognizing the limited capacity. Such debt should be reserved for high-priority projects when no other funding options are feasible.

Enterprise Fund Debt Capacity

Enterprise fund rates must fully support operations, maintenance, administration, capital improvements, and debt service. Affordability of new debt will be evaluated during the rate-setting process.

Independent Disclosure Counsel

For public offerings, the City will retain independent disclosure counsel to assist with official statements and ongoing disclosure. In some cases, bond and disclosure counsel may be the same firm.

Land-Based Financings

- **Public Purpose:** Assessment or special tax districts will only be formed when there is a clear public purpose and Council determination that this method is preferable to alternatives like impact fees or developer funding.
- **Eligible Improvements:** Preference will be given to financing projects aligned with City plans (e.g., General Plan, CIP), including public safety, water, sewer, transportation, flood protection, parks, open space, and civic facilities.
- **Active City Role:** The City will manage district formation and select the financing team. Related costs are typically covered by developers or property owners through deposits or bond proceeds.
- **Credit Quality:** The City will review a developer's financial capacity and project feasibility, potentially requiring letters of credit if a single owner is responsible for more than 25% of annual debt service.
- **Reserve Fund:** A reserve fund will be created, generally equal to the lesser of: maximum annual debt service, 125% of average annual debt service, or 10% of bond principal/proceeds.
- **Maximum Burden:** Annual assessments should not exceed 1% of the property sale price, and total property-related taxes and assessments should not exceed 2%.
- **Benefit Apportionment:** Assessments must be clear, fair, and related to the benefits received. Annual escalation factors should generally not exceed 2%.
- **Special Tax District Administration:** The maximum annual tax should not exceed 110% of debt service. Back-up taxes and prepayment procedures should be included.
- **Disclosure to Bondholders and Buyers:** Owners with more than 10% of the annual debt burden must provide annual disclosures. Full cost disclosure must be provided to buyers before purchase decisions are made.

- **General Guidelines and Refinancing:** The City will periodically review outstanding debt for refinancing opportunities under the following conditions:
    - Net economic benefit
    - Modernizing restrictive covenants
    - Reducing principal for future savings
- **Economic Savings Standards:** Refinancing is generally pursued if it yields at least 5% net present value savings. Savings between 3–5% will be considered case-by-case. Refinancing below 3% savings requires a compelling public policy reason.
- **Successor Agency Bonds:** Refinancing these bonds follows the Health and Safety Code Section 34177.5.

Types of Debt That May Be Issued

- **Revenue Bonds:** Secured by enterprise or special fund revenues.
- **Special Assessment/Special Tax Bonds:** Backed by assessments or special taxes (e.g., Mello-Roos).
- **General Fund Supported Lease Revenue Bonds/Certificates of Participation:** Typically involve lease arrangements backed by City payments.
- **General Obligation Bonds:** Require voter approval and are secured by property tax overrides.
- **Tax Increment Bonds:** Issued by successor or other special-purpose entities.
- **Conduit Financing Bonds:** The City serves only as issuer; repayment is the applicant's responsibility.
- **Other Forms:** The City may explore other debt instruments as needed.

SB 1029 Compliance

To comply with Senate Bill 1029, the City's debt policies cover:

- **Purpose of Debt Proceeds:** Defined under capital and land-based financing policies.
- **Permissible Debt Types:** Listed under "Types of Debt That May Be Issued."
- **Integration with Capital Plan:** Covered in capital financing and debt capacity sections.
- **Planning and Policy Goals:** Referenced in budget transmittals.
- **Internal Controls:** Addressed in the debt management policy to ensure proper use of proceeds.

Investments

Responsibility

The Finance Director/City Treasurer (or designee) is responsible for all investments and cash management. The Finance Director also acts as Treasurer for the City and the Successor Agency to the Manteca Redevelopment Agency.

Investment Objective

The City aims to earn a reasonable return while prioritizing:

1. Safety
2. Liquidity
3. Yield

Tax and Revenue Anticipation Notes (TRANS)

TRANS may be used to address legitimate short-term cash needs, but will not be issued solely for investment gain. The City will only issue short-term debt when necessary for demonstrated cash flow purposes.

Selecting Maturity Dates

Investment maturities will be selected based on projected cash flow to avoid forced liquidations and lost earnings.

Diversification

The City will maintain a balanced mix of investment types and maturities to manage risk and adapt to market changes.

Authorized Investments

Investments will follow California Government Code Section 53601 and the City's more restrictive Investment Policy. The City prohibits investing in stocks, futures, or options, and will thoroughly vet any new investment products.

Consolidated Portfolio

Cash from all funds will be pooled for investment to maximize returns. Earnings will be allocated according to generally accepted accounting principles (GAAP).

Safekeeping

All securities will be held by a third-party custodian to ensure protection of ownership.

Reporting

A comprehensive investment reporting system will be maintained in compliance with Government Code Section 53607 and will provide the City Council with performance updates.

Investment Policy

The City will maintain a formal Investment Policy outlining strategies, practices, and procedures for managing its investment portfolio.

Personnel Management

Regular Staffing

- **Budget and Authorization**: Funding will be fully allocated for authorized regular positions only. Programs are limited to the staffing approved in the budget.
- **Core Workforce**: Regular employees are the primary workforce for ongoing, year-round services—not contractors. The City will maintain competitive compensation and benefits aligned with labor agreements.
- **Position Management**:
  - All regular positions must be Council-authorized
  - The City Manager may underfill positions at a lower cost but cannot exceed Council-approved levels
  - Human Resources must coordinate all hiring
- **New Position Requests** must evaluate:
  - Purpose and duration of the work
  - Total staffing and material costs
  - Related revenue or cost savings
- **Cost Controls**: Ceilings will apply to total staffing and contract service expenditures.

Temporary Staffing

- **Role**: Temporary staff cannot be used to grow the permanent workforce. They supplement regular staff with:
  - Peak demands
  - Seasonal work
  - Interim vacancies
  - Part-time, short-term tasks
- **Limits**: Temporary hours are generally capped at 1,000 annually (50% of a full-time position). Exceptions require City Manager's approval based on HR recommendation.
- **Contract Employees**: These are temporary staff under written contracts for medium-term, specialized tasks. They are not used for ongoing services and are released when the assignment ends.

Independent Contractors

- **Not Employees**: Contractors are not City employees. They may be used for:
  - Short-term assignments via outside employment agencies (OEA), with HR coordination and minimal supervision.
  - Construction, operations, maintenance, or professional services not routinely handled by City staff. Contractor expertise, equipment, and methods are self-directed and contractually defined.
- **Contract Awards** follow City purchasing policies and the Contracting for Services Policy.

Overtime Management

- **Use and Control**:
  - Overtime is allowed only when necessary and is more cost-effective than alternatives.
  - Must be pre-authorized unless automatically approved due to the nature of the task (e.g., emergency response).
  - Departments must include expected overtime in budgets and monitor use closely.
- **Alternatives to Overtime**: When evaluating new staffing, departments must weigh:
  - Duration of staffing needs
  - Cost comparisons
  - Staff capabilities
  - Training costs for new hires

Contracting for Services

General Policy Guidelines

- **Private Sector Use**: The City supports using private sector providers to enhance cost-efficiency and productivity in delivering municipal services.
- **Cost Evaluation**: When comparing private contracts to in-house service delivery, the City will consider all direct, indirect, and contract administration costs.
- **Service Alternatives**: Private providers that meet service standards will be seriously considered as alternatives. If City employees currently perform the work, transitions to contractors will typically occur through attrition, reassignment, or contractor absorption.

Evaluation Criteria for Contracting

The decision to contract services will be based on whether:

- A competitive private market exists with multiple qualified providers
- The contract can be efficiently managed by the City
- Risks of contractor non-performance are manageable and compensable
- Contractors can better adapt to service level changes or special needs
- The service scope is clearly defined for fair bidding and performance evaluation
- Contracting enables the City the opportunity to redefine service levels
- The contract impacts the City’s ability to handle emergencies or high-priority services
- The City can delegate service delivery while maintaining accountability and oversight

Productivity

The City will continuously review its operations to ensure cost-effective service delivery by:

- Streamlining systems and procedures to remove unnecessary steps
- Exploring new technologies and capital investments to boost productivity

- Enhancing employee skills and rewarding exceptional performance
- Considering private sector alternatives for cost savings
- Conducting regular formal operational reviews
- Maintaining a mostly decentralized management approach to encourage accountability, innovation, reduce administrative costs, and improve responsiveness to changing needs

Budget Timeline

Budget development is a year-long, thorough process involving strategy, analysis, and evaluation to address immediate challenges while ensuring long-term stability and prosperity.

Budget Calendar

- **July 2025**
  The new fiscal year begins, and year-end close and adjustments from the previous year are completed.
- **September 2025**
  Review the prior year's audit, reconcile project accounts, carryforward eligible unspent funds, and start budget development.
- **December 2025**
  Consider and analyze mid-year adjustments for March 2026, monitor funds, and continue budget development.
- **April 2026**
  Continue budget development and long-range financial planning.
- **June 2026**
  A public hearing is held for community input, followed by council review of the proposed budget. After incorporating feedback and adjustments, the final fiscal year budget is adopted.

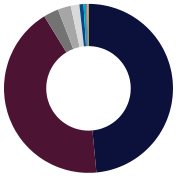
Executive Summary

The City's Fiscal Year 2025-26 Budget, totaling approximately $311.9 million in revenues and $310.9 million in expenditures across all funds, which includes $65 million for capital improvements, reflects the City Council's strategic goals and priorities. The budget outlines funding for existing and new capital projects and emphasizes growth, innovation, and fiscal sustainability to benefit residents and the community.

Key focuses include enhancing core services such as public safety and road maintenance. Additionally, the federal American Rescue Plan Act (ARPA) funds support critical assistance programs, including the Unsheltered Emergency Center. Overall, the budget aims to strengthen Manteca as a vibrant place to live, work, and thrive.

Citywide Revenues & Expenditures by Department

Citywide Revenues by Department ($311.9 million)



- Non Departmental **(Budgeted) $151,306,699** (48.50%)
- Public Works **(Budgeted) $133,330,319** (42.74%)
- Human Resources **(Budgeted) $8,973,008** (2.88%)
- Community Development **(Budgeted) $7,812,500** (2.50%)
- Engineering **(Budgeted) $5,123,000** (1.64%)
- Police Department **(Budgeted) $2,448,800** (0.79%)
- Fire Department **(Budgeted) $1,647,000** (0.53%)
- Recreation & Community Services **(Budgeted) $670,330** (0.21%)
- City Manager **(Budgeted) $632,055** (0.20%)

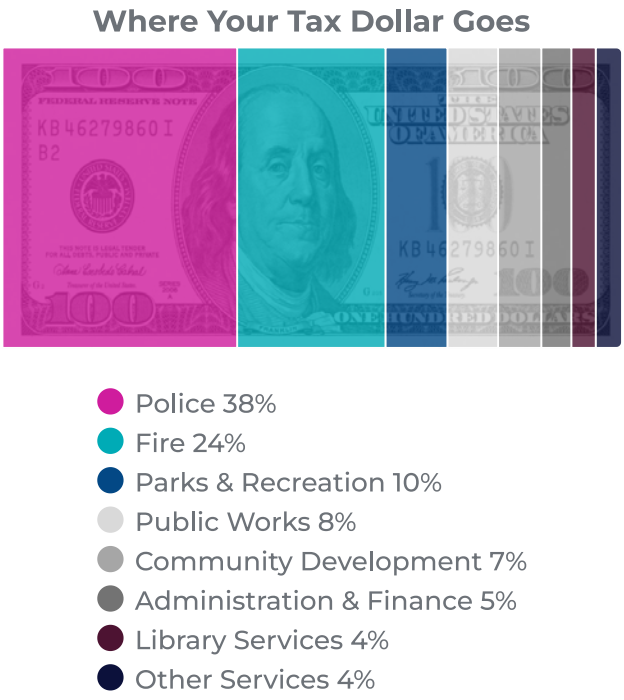
Citywide Expenses by Department ($310.9 million)

- Public Works **(Budgeted) $114,344,659** (36.79%)
- Non Departmental **(Budgeted) $81,339,802** (26.17%)
- Police Department **(Budgeted) $36,308,180** (11.68%)
- Fire Department **(Budgeted) $25,838,453** (8.31%)
- Community Development **(Budgeted) $10,889,745** (3.50%)
- Human Resources **(Budgeted) $10,748,193** (3.46%)
- Information Technology **(Budgeted) $7,556,688** (2.43%)
- Engineering **(Budgeted) $6,604,775** (2.13%)
- City Manager **(Budgeted) $5,684,205** (1.83%)
- Finance **(Budgeted) $5,586,243** (1.80%)
- Recreation & Community Services **(Budgeted) $2,800,840** (0.90%)
- City Attorney **(Budgeted) $1,883,675** (0.61%)
- City Clerk **(Budgeted) $1,184,604** (0.38%)

Where Your Tax Dollar Goes

Your tax dollar supports a wide range of vital community services:

- 38¢ goes to Police
- 24¢ to Fire
- 10¢ to Parks and Recreation
- 8¢ to Public Works
- 7¢ to Community Development
- 5¢ to Administration and Finance
- 4¢ to Library Services
- 4¢ to Other Services



Strategic Plan

Each year, the City Council sets strategic goals and priorities that guide the City's budget and operations. In 2025, the Council kept the existing mission, vision, and values, while updating the ranking order of its five strategic priorities for Fiscal Year 2025-26:

1. Public Safety
2. Economic Development & Vitality
3. Updating City Infrastructure and Facilities
4. Ensuring Long-Term Fiscal Sustainability
5. Expanding Homelessness & Housing Options

On May 6, 2025, the City Council adopted its Fiscal Year 2025-26 Goals & Priorities Work Plan. The plan includes broad, achievable goals with specific actions to be completed over the next 12–18 months, assigned to departments. The plan is used during budget development to prioritize projects and fund allocations. Regular updates will be provided to the Council and community on progress. Past and current work plans are available for review by clicking here.

Personnel Changes

As part of our Fiscal Year 2025-26 budget proposal, we are requesting the addition of eight (8) new positions and three (3) reclassifications to better support operational demands, enhance service delivery, and align with strategic priorities. These new roles address critical needs across departments, including public safety, administration, and community services. The proposed reclassifications reflect expanded responsibilities and ensure equitable compensation. These staffing adjustments are essential for maintaining service quality, meeting increased workload demands, and advancing organizational goals.

Department Summaries

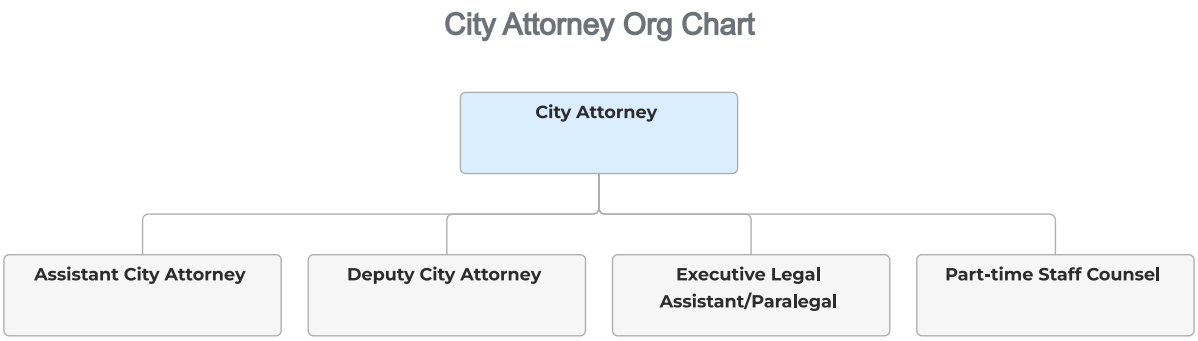
The following sections provide departmental summaries, outlining each department's purpose, authorized staffing levels, and associated expenses.

City Attorney's Office

Department Description

The City Attorney's Office reviews, monitors, and evaluates the conduct of the City activities for conformance with laws, regulations, policies, and rules; represents the City in state and federal civil litigation; provides legal advice to the City Council and the City's departments; and ensures that violators of City laws are prosecuted.

Organizational Structure



Department Position Listing

Department	Approved FY 2024-25 FTE's	Proposed FY 2025-26 FTE's	Increase (Decrease)
City Attorney			
Assistant City Attorney	1	1	0
City Attorney	1	1	0
Deputy City Attorney	1	1	0
Executive Legal Assistant/Paralegal	1	1	0
City Attorney Total	**4**	**4**	**0**

Department Functions

- Provide timely, cost-effective, and complete legal advice, risk analysis, and legal services to the City Council and City departments and divisions.
- Reduce the City's liability exposure.
- Draft ordinances as set out by the Government Code.
- Prosecute Municipal Code violations.

2024-2025 Accomplishments

- Revised staffing by looking at Deputy City Attorney and Legal Assistant positions.
- Continue municipal code review and revisions.
- Continue to bring more work into office and defend the City in-house.
- Drafted Anti-Loitering Ordinance.
    - A new Chapter was added to the Manteca Municipal Code.
    - Property owners and businesses can now post signs prohibiting trespassing and loitering.
    - Individuals who violate these provisions may face a misdemeanor.
- Legal Assistant was reclassified to Executive Legal Assistant/Paralegal.
- Rescinded the Cruising Ban while simultaneously bolstering the sideshow ordinance.
- Led the effort to revise the boards and commission ordinances, as well as drafting new sections with the passage of Measure Q.
- For the second year in a row the City Attorney presented at the annual CALPELRA conference.
- Led the effort for the City to draft a new lease for BLD, working with the Unrivaled Sports team all throughout the month of December 2024.
- Drafted the Disposition and Development Agreement for Loma Brewery.
- Drafted update to Fireworks Ordinance:
    - The initial fine for Chapter 8.08 violations is now $1,000 (previously $750).
    - Fireworks discharge is prohibited in specified locations like streets, sidewalks, and shopping centers.
    - The definition of “responsible party” includes those whose agents or contractors violate the chapter and extends to property owners for violations on their property.
- Getting involved in the community:
    - City Attorney organized community events like UOP basketball, Stockton Ports, Del Webbsoftball, March Madness, and Second Harvest food drives, highlighting local engagement. He is also on the Board of Directors of both Second Harvest of the Greater Valley and Manteca Museum & Historical Society.
    - Assistant City Attorney is a member of the Inns of Court, volunteers to organize the “The Three Little Pigs” mock trial with MUSD, volunteered at St. Mary’s High School for career day, and serves as a member of Kiwanis.

2025-2026 New Goals & Priorities

- Track staff reports from nearby jurisdictions that may impact the City Attorney's Office (CAO) or the City as a whole.
- Continue citywide Municipal Code update.
- Look into other matters the CAO may prosecute through our prosecutorial powers (i.e., tobacco, dog cases, etc.).
- Look into in-house discovery software that can also be used for high-volume PRA requests and litigation.

Department Functions

Elections Administration

Administer municipal elections in accordance with all applicable city, state, and federal laws and regulations. The City Clerk is the Election Official and administers the City's elections, including: 1) the nomination process for candidates; 2) processing of petitions and ballot measures; 3) coordination with the San Joaquin County Registrars of Voters for regular elections; 4) conducting special elections.

Records Management

Ensures transparency in local government by recording and preserving the City's legislative history; official custodian of city records; maintains a citywide record retention schedule; oversees the citywide records management program; ensures legal compliance related to policies, procedures, and standards for the preservation of official records, and the destruction of obsolete records.

Compliance Officer

Ministerial role fulfilling compliance officer obligations related to the Brown Act, Political Reform Act, Public Records Act, the Maddy Act, and other local and state Statutes; process AB 1234 ethics training and AB 1661 sexual harassment training, publishing notices, bids, administering oaths of office, and providing attestation.

Local Legislative Official

Manage and maintain the legislative records by recording the proceedings of the City Council and Successor Agency; prepare and distribute the City Council and Agency agendas and minutes, provide publication of public hearing notices, maintain the Municipal Code, and administer the appeals process.

Boards and Commissions

Manage the recruitment and section process of City board, commission, and committee appointments; process Statements of Economic Interests, ethics training, onboarding training, oath of office, and maintain rosters and upcoming scheduled vacancies list.

Contract and Bid Process

Administer the citywide contracts and agreements process; routing, executing, and archiving. Conduct bid openings and process notice of completions.

Event and Recognition Coordination

Process special event permits; preparation and distribution of proclamations and certificates of recognition; coordinate and arrange ceremonial and official functions on behalf of the City Council.

2024-2025 Accomplishments

- Hosted Youth in Government Day for the third year in a row.
- Swearing in of Council members Charlie Halford and Regina Lackey.
- Community Outreach:
    - The City Clerk's Office created educational videos about the 2024 Election and the recruitment process, promoting community engagement.
- Conducted the 2024 General Municipal Elections for Council Districts 1 & 2 Council members and completed the multi-year Districting Process.
- Hosted Board and Commissions Mixer for the second year in a row.
- Coordinated and organized City of Manteca Department Spirit Weeks for the third year.
- Coordinated and prepared 14 Read Across America events with over 300+ students.
- Processed and published 88 Public Notices.
- Processed and finalized 235 Resolutions.
- Processed and finalized 28 Ordinances.
- Processed and published 17 Regular Meeting Agendas and 26 Special Meeting Agendas.
- Processed and closed 463 Public Records Requests.
- Processed 28 Proclamations.
- Prepared 200+ Community Certificates for a variety of recognized accomplishments.
- Assisted with documenting, routing, and archiving 354 contracts with multiple departments.
- Facilitated and approved 21 Special Event Permits.

2025-2026 New Goals & Priorities

- Youth in Government - enhancements for 2025 - school board meeting.
- Freedom (Honor) Flight - VFW.
- Explore AV upgrades for Council Chambers with IT.
- Finish Laserfiche implementation and integrate departments with training.
- Finish all contract templates for electronic routing.
- Research and Implement electronic special event routing, reviewing, and approval software.

2024-2025 Accomplishments

- Brought three Cannabis Community Benefit Agreements to Council for adoption.
- Completed sales tax measure education.
- Measure Q was placed on the November 2024 ballot.
- Executed a new lease agreement for Big League Dreams.
- Facilitated the negotiation and sale of Loma Brewery property.
- Held first Level Up Leadership Academy.
- Issued over 100 social media posts to educate and engage the public on City services, initiatives, and events.
- Hosted the 2024 State of the City Address in partnership with the Manteca Chamber of Commerce.
- Established 555 Industrial Park Dr. as a fully mobile/operational site with dormitories and services.
- Two modular dormitory units, providing 25 shelter beds for men and 25 for women, began offering overnight services in April 2024.
- The City received a donation of eight (8) refurbished 8x20 ft. containers from Fresh Starts Charities, which will be used for transitional housing.
- Completed a successful Point-in-Time (PIT) Count in conjunction with Community Resource Officers.
- The City secured $167,575 in federal pass-through funds to support navigation center development for the construction of the navigation center.
- The Housing & Homeless Service Manager was appointed as an Executive Board member of the San Joaquin Continuum of Care (CoC).

2025-2026 New Goals & Priorities

- Conduct Level Up Leadership Academy Spring 2025 Cohort.
- Co-host State of the City 2025.
- Continue advocacy efforts to secure state and federal grants.
- Complete Woodward Park Splash Pad project.
- Develop Measure Q funding plan in collaboration with Citizens' Oversight Committee and City Council.
- Issue RFP for Citywide Facility Plan Master Plan.
- Develop Affordable Housing Fee Nexus & Policy.
- Secure funding for American Legion Project.
- Develop Phase I Conceptual Plan for Navigation Center.
- Develop Measure Q Education, Outreach, and Marketing Plan.

Engineering

Department Description

The Engineering Department oversees the planning, design, and construction of infrastructure projects related to traffic and transportation, water treatment and distribution, wastewater collection, treatment and disposal, and storm water drainage, control and conveyance. It also administers the subdivision review process, participates in site plan review, manages Capital Improvement Projects, and coordinates with other agencies on regional efforts and projects. The Department's vision is to work collaboratively with the community, other City Departments, City Council, and City Management to engineer a better future for the City of Manteca.

Departmental goals focus on managing infrastructure to support quality development and public safety, delivering excellent customer service, and responsibly managing expenditures to safeguard City resources.

Department Functions

City's Infrastructure

Engineering oversees planning, design, and construction of improvements for traffic and transportation, water treatment and distribution, wastewater collection and treatment, storm drainage control, as well as other infrastructure projects. As a part of this process, Engineering oversees infrastructure master plans and rate studies and pursues grant funding opportunities for use on City projects.

Public Infrastructure Installed by Developers

Engineering coordinates development projects with both Development Services and Public Works. As a part of this process, the department oversees development fees and funding programs, manages encroachment permits, traffic control and transportation permits, reviews development entitlements and conditions of approval, tentative and final maps, improvement plans, and development improvement agreements, and performs construction inspection of development projects.

Traffic Engineering

Engineering assesses and designs solutions for traffic, transportation, and transit issues; administers the City's Traffic Calming program; leads the City's Traffic Solutions Committee and serves on other regional traffic committees; and coordinates with Caltrans for an integrated approach to City streets and freeway systems.

General Engineering Support

The Engineering Department provides public information, responds to public inquiries, assists with questions regarding the City's engineering standards, coordinates with utility companies, and provides engineering assistance upon request.

2024-2025 Accomplishments

- Finalized McKinley Interchange Project and opened to the public.
- Completed Water and Sewer Master Plans and rate studies.
- Completed design and started construction for the WQCF Interim Improvement Projects (2-7).
- Federally-funded Highway Safety Improvement Program Projects (HSIP)-Design completed (Main Street and Yosemite Ped and Bike Imp.).
- Completed Lathrop Road Pavement Improvement Project.
- Completed Louise Avenue Pavement Improvement Project.
- Broke ground on SR 99-120 Connector Project.
- Completed HSIP funded Retroactive Traffic Sign Project.
- Completed 2024 Pavement Maintenance Project (Manteca High area).
- Completed Suess and Corwin Water and Sewer Improvement Project.
- Completed design and started construction for Well 30 Nile Garden.
- Completed design and started construction for Well 29 TCP Treatment.
- Completed Project Study Report for SR 120/Airport & Main DDIs.
- $75.5 Million in infrastructure invested through development.
- Awarded $13 million in new grant funding.

2025-2026 New Goals & Priorities

- Complete Water and Sewer Rate update.
- Complete Water and Sewer Capacity Fee update.
- Airport Way Widening Project (ROW negotiations and utilize PG&E Credits).
- Complete 2025 Public Facility Implementation Plan (PFIP) updates.
- Design and construct the 2025 Pavement Maintenance Project.
- Design and construct Road Improvements around Shasta School.
- Design and construct Road Improvements (Wawona & Locust).
- Submit Measure K request for Roth Road and Interchange project.
- Zone 36/39 Storm Drain Project - Complete Design/Initiate Construction.
- Complete Well 29 TCP Treatment.
- Issue RFP for Stormwater Master Plan.
- Continue ongoing WQCF Projects.

Finance

Department Description

The Finance Department provides strategic financial leadership and fiscal support to the City. This department is responsible for the City's annual budget process, financial planning (including debt management, long-term financial planning, special tax and fee administration), the annual financial audit and Annual Comprehensive Financial Report (ACFR), other financial reporting, general ledger accounting, accounts payable, accounts receivable/miscellaneous billing, revenue management (including business licensing and utility billing), cash receipts and deposits, and treasury management. General and ongoing departmental goals include:

- Develop and implement effective and efficient financial planning, reporting, and accounting systems.
- Provide quality customer service to internal and external customers.
- Safeguard the City's fiscal resources.
- Foster a sense of trust and transparency with the community, the Council, and City Management.

Department Functions

Budget and Financial Planning

Coordinates the preparation of the annual budget, and is responsible for ongoing budget administration, reporting, and fiscal management. Calculates the annual appropriations limit and provides budgetary support to City leadership. Assists with the financial management of grants, reporting, and projections. Coordinates with Accounting staff on the establishment and administration of purchasing policies and procedures. Leads and participates in long-term financial planning initiatives such as financial forecasts, the multi-year Capital Improvement Program, debt/bond issuances, fee studies and updates, and establishing new taxes and fees. This division also assists in the administration of special taxes and fees.

Accounting

Prepares the annual comprehensive financial report (ACFR); leads and coordinates annual and special audits; reviews the preparation of the annual State Controller's Reports; issues interim financial reports, maintains the general ledger system and chart of accounts, performs bank reconciliations and reports; establishes and administers accounting, cash management, and purchasing policies, systems and practices; coordinates cooperative purchasing opportunities and reviews contract documents for compliance with City purchasing policies. Receives and processes the City's accounts payables and issues timely vendor payments, files annual reports required by regulatory agencies, and adheres to established payables procedures; maintains vendor files; produces and files year-end reports and maintains vendor relationships. Coordinates and prepares daily deposits, cash reconciliations, and reports.

Revenue

Records the receipt of all revenues received by the City, including utility billing, delinquencies, business licenses, and miscellaneous accounts receivable. Monitors and pursues delinquent accounts. Provides customer service for utility services, which includes starting and stopping services, updates to utility accounts, and complying with legislative bills and municipal code regarding utilities. Leads and participates in updates to the City’s Municipal Code referencing financial rules and regulations.

Treasury

Manages and oversees the City's investment portfolio in accordance with adopted policies and plans, including preparing cash flow projections, identifying appropriate investment vehicles and timeframes, and allocating interest earnings among funds in accordance with generally accepted accounting principles; administers the City's banking services contracts; coordinates project financing and administers debt service obligations in accordance with bond covenants.

2024-2025 Accomplishments

- The Finance Department was fully staffed for the first time in years, with newer additions including Finance Director, Assistant Finance Director, and Accounting Manager.
- Completed backlog of audits, including FY 2023 and FY 2024 Audits.
- Overhaul of Fiscal Year 2024-25 Annual Budget process and document.
- Fund balances are now being monitored on a regular and normal basis.
- The ClearGov fiscal transparency application has been updated for FY 2025.
- ClearGov Capital Improvement Program and Capital Outlay modules were launched.
- Two debt issuances against the City's first bonded CFD, 2023-1 Villa Ticino West.
- Caught up on backlog of AB 1600 (Mitigation Fee Act) annual reports.
- Measure Q was passed by the voters.
- Filled vacancies in key positions.
- Evaluated current fee structures and rates.
- Continued to pursue revenue-enhancement efforts.
- Participated in various training opportunities.
- Updated Senior Discount Program for Utilities.
- Updated the City's Reserve Policy.
- Implemented new Water & Waste Water Rates.
- Implemented new General Cost Allocation Plan.
- Adopted FY 26 Annual Budget.
- The City of Manteca's Finance Department has expanded outreach through Facebook Live sessions with Police, Fire, Engineering, and Public Works, providing real-time updates and fostering direct community engagement to enhance transparency.

2025-2026 New Goals & Priorities

- Implement the FY 2026 Annual Budget.
- Implement and administer the new Measure Q Budget and Long-Range Plan.
- Implement new Vehicle Replacement and Internal Service Fund Plan.
- Update Citywide Master Fee Schedule.
- Administer a new Senior Discount Program for Utility customers.
- Launch 5-Year CIP through ClearGov.
- Continue implementation of Badger Smart Water Meters for residents.
- Continue updating key Financial Policies and Procedures.
- Continue evaluating and participating in various fee studies.
- Finish implementing ClearGov: full launch including staff training and public outreach.
- Complete and issue FY 2025 Audit.
- Refunding (Refinancing) of current Water and Wastewater Debt.
- Continuing to pursue revenue-enhancement efforts.
- Address pension and OPEB (analysis and solutions).
- Participate in various training opportunities.
- Bond Issuance for new Police Department Building.

Fire Department

Department Description

The Fire Department is responsible for protecting the lives and property of the citizens of Manteca. As a full-service fire department, it provides fire protection, emergency medical care, hazardous materials' response, community risk reduction, water rescue, and emergency operations preparations and oversight. The three primary department functions are Administration, Operations and Prevention.

Fire Total	**55**	**56**	**1**

Department Functions

- Administration is responsible for the day-to-day administration of the activities and regulations of the Manteca Fire Department. The responsibilities include budget preparation and control, purchasing, personnel management, employee health and safety, record keeping, facilities management, information and press releases, and clerical management. Administration provides for and manages several important functions of the Department, including department-wide training, cost-recovery, grant writing, and maximizing the department's volunteer programs.
- Prevention actively reduces the likelihood of fire, burns, and environmental emergencies, and mitigates the potential severity of events that do occur. Safety and prevention is accomplished through plan review, inspection of buildings and premises, monitoring and regulating the storage, handling and use of hazardous materials, preparing and revising laws and codes, public education, fire investigation, and the enforcement of all fire and life safety-related regulations.
    - Operations is responsible for the most traditional elements of the Department's mission by managing the emergency response component and associated resources of the Fire Department. This Division provides for a constant state of readiness and provides 24-hour emergency response to a variety of emergencies including, but not limited to, fires, medical, vehicle accidents, hazardous materials, and public assistance. Personnel resources include 45 full-time firefighters (including Fire Captains) as well as a cadre of Reserve Firefighters. Other vital resources essential to the emergency response component of the department include vehicles and equipment, communications and dispatch, and many other support functions. For example, the Operations Division's functions also include the implementation of fire prevention practices such as hazard abatement, pre-fire planning, and public education. Similarly, when not engaged in emergency response, operational personnel provide logistical support in the areas of facility preservation, communication equipment maintenance, and apparatus upkeep and repair.

2024-2025 Accomplishments

- Filled all Fire Suppression full-time positions.
    - 15 Captains
    - 15 Engineers
    - 15 Firefighters 5 new hires started online in 2024
- Replacement hires for retirees and terminations.
- Held two one-month academies for new full-time firefighters.
- Hired 14 reserves and held an academy for the new reserves.
- Promoted one position to Fire Engineer.
- Collaborated with HR to schedule and design a Captain's promotion for 2025.
- Trained all Fire personnel to drive Tiller Apparatus.
- Certified personnel in Autism Awareness and treatment.
- Conducted Voluntary Comprehensive Wellness Exams for employees:
    - EKG Stress Tests
    - VO2 Max
    - Sonogram of vital organs for tumors or plaque
    - Cancer Screening
    - Fit for Duty Exams
- Brought the Public Safety Annex to full operability.
- Certified individuals as drone pilots as a start-up to our drone program.
- Placed OES 4306 in service a Type III engine provided by Cal-OES.
- Placed OES 4114 in service a Type I engine provided by Cal-OES.
- Placed fully equipped Tiller Truck 241 in service.
- Replaced aged out rescue ropes and equipment.
- Upgraded all companies to electric / battery-operated "Jaws of Life".
- Replaced out of service Trench and Confined Space Rescue Equipment.
- Shoring equipment for updated standards.
- Approved funding and purchase of a new Type I Fire Engine to arrive Q1-2025.
- Awarded contract for Radio Infrastructure.
- Multiple demo engines have recently been made available to us for purchase at a greatly reduced price. Staff is working with Finance to secure funding for an immediate purchase.
- Launched our Autism Decal program in partnership with the Police Department. These decals can be placed in windows at home or on a vehicle to advise first responders that someone inside has Autism.
- Several firefighters helped with the annual Thanksgiving Dinner at Golden West School.
- 2024 Incident Data:
    - Total Incidents - 11,295 (470 Fire Calls; 7,412 EMS Calls, and 3,413 Other Calls)
- 2024 Temporary Resident Data:
    - Total Incidents - 909 (173 Fire Calls, 502 EMS Calls, and 234 Other Calls)

2025-2026 New Goals & Priorities

- Complete Fire Fee Update.
- Implement Fire Station No. 6 site design.
- Continue work on the Fire Communications System.
- Continue mutual aid assistance with City of Ripon.

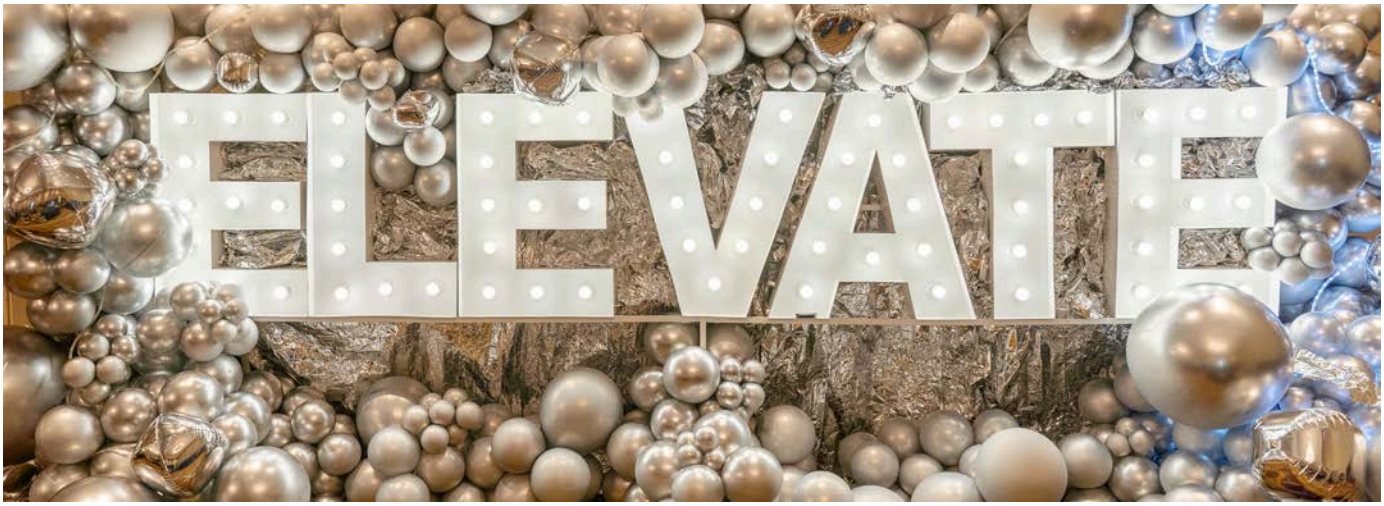
Human Resources



Department Description

The Human Resources Department (HR) houses the Human Resources, Payroll, and Risk Management Divisions.

The Human Resources Division ensures qualified individuals are recruited to fill vacant positions, trained to successfully perform the functions of the job, and retained by providing a healthy work/life balance while offering development opportunities for future growth. These functions are important to assisting the community and providing critical services to the residents of Manteca. In support of this program, the HR team is responsible for administering the City's personnel information system, salary and compensation programs, employee benefits administration, recruitment and selection, employee and labor relations, training and development, policy development, classification, and compensation, as well as equal employment opportunities. The Division provides consultation and advice to leaders, supervisors and front-line employees regarding human resources issues including performance management, corrective actions, workforce planning, as well as interpretation of policies and collective bargaining agreements (MOUs).

The Payroll Division is responsible for the salary and benefits administration throughout the City in support of all employees (full-time and part-time), council members, and commissioners.

The Risk Management Division is responsible for supporting a safe work environment for employees and a safe city for community members and visitors. The Division administers safety training and OSHA-mandated programs, workers' compensation, and liability insurance programs, as well as responds to community and employee safety concerns. Our goal is to minimize accidents and the adverse effects of unpredictable events.

Department Functions

Employee and Labor Relations

Provide employees and leaders with work-related issue resolution through consultation, advice, performance management and training. Work to resolve issues regarding changes in labor laws, collective bargaining, and grievance processes. It also encompasses oversight of performance evaluations and ongoing review and maintenance of personnel rules, regulations, policies and procedures.

Recruitment and Selection

Creation and management of job advertisements, administration of the online recruitment system, coordination with all departments for recruitment, testing and candidate selection.

Benefits Administration

Oversight of medical, dental, vision and retirement benefits, including supplemental retirement, deferred compensation and 401(a) programs. Adherence to and the appropriate application of the Family Medical Leave Act (FMLA), California Family Rights Act (CFRA) and disability policies and program administration.

Payroll Administration

The Payroll Division administers salaries and benefits for all City employees, including full-time and part-time staff, council members, and commissioners. Its key responsibilities encompass processing paychecks, withholding taxes, ensuring legal compliance, managing reimbursements, handling garnishments and child support, processing payroll adjustments, and overseeing the withholding and remitting of deductions.

Training and Development

Direct Citywide employee training to meet recommended, statutory, and regulatory requirements through the use of the Employment Risk Management Authority (ERMA) and training via the inter-agency consortium.

Workers Compensation

Process and advise on employee injury claims and recommend adjustment or other action. Promote opportunities that encourage employees to return to work while minimizing time lost.

Liability Claims Administration

Review and process general liability claims against the City and recommend action. Actively participate in the Municipal Pooling Authority to ensure that insurance provisions provide adequate resources to cover losses without unduly burdening the City's finances.

Safety Training

Maintain a city-wide safety program inclusive of all OSHA and state-required training. Training is recommended and/or mandated by program and discipline and may be required on an annual, bi-annual, or other periodic basis.

Classification and Compensation

Oversee and maintain the City's compensation plan and job classification system.

Americans with Disabilities Act (ADA) Compliance and Review

Provide accessibility options for all of our services to all of our community members and visitors citywide. Oversight of the Citywide ADA transition plan compliance and administration.

2024-2025 Accomplishments

- Completed 53 Neogov requisitions/recruitments for full-time positions.
- 71 new hires were processed, including part-time positions.
- 32 promotions processed.
- 33 reclassifications processed.
- Hosted Annual Health & Safety Fair and On-Site Flu Shots.
- Met and Conferred with bargaining units on proposed updates to personnel policies (55 policies); in progress/nearing finish line.
- Offered employee development training opportunities, including supervisory training and safety training.
- Participated in the University of the Pacific (UOP) Engineering school job fair and Manteca High School Career Fair.
- Payroll Completed Projects: Fire FLSA 2-year audit; W-2 Corrections 2023; Tyler New World Logos Patch Update; Executime Timekeeping System workflow creation; CalPERS Audit; responded to a multitude of financial audit requests;Salary Schedule updates.
- The HR Department made several staff changes, including promotions and new hires; most notably, the HR Director and HR Manager positions.

2025-2026 New Goals & Priorities

- Finalize policies with unions; roll-out and publish city-wide.
- Implement a California law requiring workplace violence training.
- Citywide Classification and Compensation Study - RFP submissions were received in February 2025.
- Negotiations, in preparation for expiring labor contracts.
- OPEB cost analysis and solutions; and update unions during negotiations.
- ADA Transition Plan - continuous work and policy updates required; extend contract with consultant to ensure compliance and continued receipt of Caltrans and Department of Transportation (DOT) funding.
- Continue to evaluate and/or enhance the City's benefits package.

Information Technology

Department Description

The Department of Information Technology & Innovation drives the City forward with secure, reliable, and forward-thinking technology solutions that enhance operations and public services. As we strengthen our foundation, we strategically embrace innovation—modernizing systems, optimizing processes, and improving service delivery where it matters most. With a holistic approach, we focus on future-proofing technology and implementing sustainable, adaptable solutions that support long-term success.

Our Operations and Applications teams provide a resilient and adaptable technology environment, safeguarding City assets while strategically exploring advancements that enhance efficiency and service delivery.

Our Commitment to Service & Progress

- Customer-Driven Solutions: Delivering responsive, high-quality support to City staff and departments.
- Strengthening City Operations: Ensuring a secure, reliable, and scalable technology infrastructure.
- Optimizing Efficiency: Continuously refining processes to improve workflows and service delivery.
- Innovating with Purpose: Adopting new technologies to add value and long-term benefits.
- Future-Proofing Systems: Implementing adaptable solutions that evolve with the City's needs.
- Enhancing Transparency & Accessibility: Leveraging technology to improve communication and public engagement.
- Prioritizing Security & Resilience: Strengthening cybersecurity measures, protecting City assets, and ensuring data integrity.

By balancing stability with forward-thinking solutions, we are building a technology ecosystem that supports the City today while preparing for the opportunities of tomorrow.

Department Functions

Operations

- Provide reliable networking infrastructure and support for City staff.
- Manage and optimize the City's telecommunications systems.
- Provide responsive IT support and drive technology initiatives.
- Provide high-level data security, confidentiality, and integrity.
- Maximize system uptime and implement proactive disaster recovery solutions.
- Provide appropriate hardware, software, networking, and communications infrastructure.
- Provide hardware, software, and connectivity support for Public Safety.

Applications

- Manage Geographic Information Systems (GIS).
- Develop, manage, and maintain enterprise applications.
- Manage internal/external City websites.
- Manage and support citywide databases.
- Assess and manage citywide implementation of new software applications.
- Manage software/system upgrades and migrations.
- Assist with Public Safety software support.

2024-2025 Accomplishments

- MISAC Quality Award: received MISAC Quality Awards, recognizing excellence in IT practices, innovation, and service delivery.
- Office 365 Upgrade: upgraded to the latest Office 365 version to enhance collaboration tools, promoting teamwork and efficient workflows across all departments.
- Fiber Installation at Remote Sites/ Fiber Connection Upgrades: fiber was installed at all remote sites, significantly improving network speed, reliability, and data transfer efficiency; enhanced fiber connections at City Hall and remote sites, boosting network reliability and supporting increased data demands.
- FY 2024 State and Local Cybersecurity Grant Program (SLCGP): secured a competitive $250,000 CALOES cybersecurity grant, supporting critical initiatives such as a Cybersecurity and Disaster Recovery Plan, 24/7 Managed Services, Penetration Testing, and sustainable staffing.
- AI Policy Development: submitted the City’s Artificial Intelligence (AI) Policy to Human Resources for review by bargaining units.
- Data Center Upgrades: upgraded three data centers to the latest stable code, enhancing performance, security, and reducing downtime risks.
- Network Switch Upgrade: upgraded network switches with redundant power supplies to ensure continuous operation and improved network uptime.
- Police Dispatch UPS Battery System Upgrade: enhanced the UPS system for police dispatch to maintain continuous power during outages, ensuring operational readiness.
- Fire Department Upgrades: replaced end-of-life wireless modems, improved connectivity, reliability, and compatibility for firefighters in emergencies; implemented network redundancy at Fire Station 4 and between Manteca Fire and Stockton Fire to ensure uninterrupted communication during outages.
- Accela Project Support: provided implementation and integration support for Development Services and the Accela project, ensuring seamless transaction imports into New World for Finance.
- Badger Project Support: supported the implementation of the Badger project with Public Works to ensure accurate readings for Finance's billing processes.

2025-2026 New Goals and Priorities

- Implement IT Strategic Plan for Optimization and Innovation.
- Explore AI Integration for Enhanced City Services.
- Strengthen Cybersecurity & Data Protection Measures.
- Enhance Disaster Recovery & Business Continuity.
- Modernize Outdated IT Systems for Reliability & Performance.

Police Department

Department Description

The Police Department serves the community while protecting the rights of all people. The Police Department is responsible for maintaining public order and safety, enforcing the law, and preventing, detecting, and investigating criminal activities. Officers patrol assigned areas and monitor activities to protect people and property. The Police Department has a variety of specialized units designed to support the overall operations and mission of the Department in serving our community. The Department aims to enhance crime suppression, leverage technology for operational efficiency, strengthen community outreach and input, promote beat/sector policing ownership, and collaborate with other City of Manteca departments and the community on shared initiatives.

Department Functions

Patrol

Patrol consists of officers assigned to work-specific areas in the city to handle calls for service, deterring and detecting criminal activity, proactive patrol and enforcement, and focusing on addressing crime trends. The Community Resource Officers, School Resource Officers, and Community Service Officers assist Patrol operations.

Investigations

In-depth investigations are conducted by Detectives and the Street Crimes Unit (SCU) who comprise the Investigations Unit. The Detectives Unit investigates general crimes, which range from property crimes to crimes against persons. SCU comprises of both narcotics investigators and gang investigators. SCU investigates quality of life issues that impact Manteca, and they work special events along with supporting Detectives in their work as needed. The Organized Retail Crime Detective, Delta Regional Auto Theft Taskforce Detective, and AB109 Taskforce Detective are also part of the Investigations Unit.

Specialized Units

The police department has a variety of specialized units that are utilized for specific functions and needs. These specialty units include SWAT, Traffic Unit, Hostage Negotiations Team, Bomb Squad (EOD), UAS (Unmanned Aerial Systems) Unit, Mobile Field Force, Bicycle Patrol Unit, and Canine Unit. Code Enforcement, Animal Services, Records, Property/Evidence, and volunteers (SHARPs, Chaplains, and Explorers) all do work that is essential to the successful operation of the police department.

Communications Center

The police communications center is staffed by Public Safety Dispatchers who are responsible for answering all 9-1-1 calls, non-emergency calls, outside agency transfers, and all Manteca police radio traffic 24/7. The Dispatchers perform a variety of tasks which include records checks, confirming warrants, and are a resource for officers in the field.

Community Outreach

Building an effective partnership between the police department and those in our community is essential to the success of public safety. Various outreach programs and events assist in the goal of public safety and law enforcement being a shared responsibility between our department and the community.

2024-2025 Accomplishments

2024 Patrol Stats

- Total Incidents - 41,552 (30,429 Calls for Service; 11,123 Officer-Initiated Incidents)
- Police Reports Written – 6,022 and 356 Crash Reports
- Total Arrests – 2,230 (2,162 adults; 68 juveniles)
- Citations issued – 4,487

2024 Dispatch Stats

- Total 911 calls- 27,260
- Non-Emergency- 109,983 (84,097 inbound; 25,886 outbound)
- 99.66% of 911 calls are answered within 15 seconds.
- Reduced Priority One response times from 5:07 minutes to 4:11 minutes from dispatched time to arrival on scene.
- Provided threat-based response training for MUSD, City personnel, & others.
- Promoted staff after competitive testing process, showcasing leadership
- Officer Matt Smith received the Rotary Officer of the Year Award for his dedication to addressing the unhoused population and his role in passing the“No Loitering” City ordinance.
- MPD is now a Certified Autism Response Center and conducts training in recognition of Autism Awareness Month.
- Completed Strategic Plan for the Police Department.
- Participated in National Night Out and National Coffee with a Cop.
- Assisted 37 children with new rooms through the Healthy Rooms Project.
- Maintained a proactive zero-tolerance approach to gang and drug enforcement.
- Ensured timely responses to all service requests.
- Strengthened community ties through community-oriented policing, involvement, and outreach programs.
- Actively participated in the “Every 15 Minutes” campaign, educating high school students on the dangers of DUI.

2025-2026 New Goals and Priorities

- Animal Shelter Project utilizing federal funds.
- Implement new Police Department Headquarters design/infrastructure.
- Real-Time Crime Center utilizing federal funds.
- Re-implement the Citizen’s Academy and continue with Jr. CSI Academy and Chief’s Academy.
- Complete Patrol Staffing Analysis.
- Continue Flock ALPR and Red Light Cameras Program.
- Continue to maintain appropriate fleet levels, both marked and unmarked units.
- Multi-Agency Command Vehicle (Potential Federal Appropriation).
- AI-Assisted Body Worn Cameras (Axon Draft One & Axon M90).
- Speed analysis for traffic complaints & deployment of resources for community safety through Urban SDK.
- Continue seeking grant opportunities to augment City general fund expenditures.
- Continue to reduce response times from Priority One calls to 3:00 minutes. Currently, 4:11 minutes from call dispatched to arrival time.

Public Works

Department Description

The Public Works Department is a full-service department comprised of five different divisions: Administration, Operations & Maintenance, Transit, Solid Waste, and Water Resources.

The Public Works Department is committed to the continuance of extensive operational efforts, employee development, and the innovative use of technology. The department remains devoted to ensuring essential services meet and exceed regulatory requirements while providing high-quality customer service to both internal and external customers.

Technology-driven public outreach and education, such as the Government Outreach Portal (GO app), provide a pathway for residents to report infrastructure deficiencies such as potholes, water leaks, streetlights, sidewalks, and more. Residents currently have the option to call, email, and interact with Public Works on social media.

Department Functions

The Public Works Department comprises of many different divisions; Facilities Maintenance, Fleet Maintenance, Parks/Urban Forest, Park Planning and Projects, Solid Waste, Streets, Storm, Transit, Wastewater, and Water. Each division strives to provide expert, quality services to our customers and works proactively to respond to the needs and concerns of our community.

Facilities Maintenance

Preserves and improves the assets and operational effectiveness of City facilities, provides necessary technical trade and support services for all City departments, including preventive maintenance, emergency services, ongoing repairs, energy conservation, capital improvements, and custodial services seven days a week.

Fleet Maintenance

Performs comprehensive maintenance and repair of City vehicles and equipment and provides immediate response and expedited repair of critical equipment, with heavy emphasis on the Police, Fire, and Solid Waste fleet. The division maintains and repairs approximately 450 city vehicles and other mechanical assets.

Parks/Urban Forest

Dedicated to park beautification and maintenance, including playground inspections, graffiti removal, hardscape maintenance, sports field upkeep, irrigation management, and pest control for over 600 acres of neighborhood and community parks, the Tidewater Bike Path, Skate Park, swimming pool, and the 112-acre Golf Course. On-staff mechanics repair small and large equipment, including facility repairs, welding, fabricating, fence, and gate repairs.

Park Planning and Projects

Designs, plans, inspects, and manages projects related to Manteca parks (both new and existing developments), and other city departments, including interdepartmental coordination with capital projects budget preparation.

Solid Waste

Focuses on effective and efficient solid waste removal and diversion while providing the highest quality service to Manteca's ever-growing community. Staff frequently participate in school recycling presentations and offer free Community Clean-Up and Shredding events.

Street Maintenance

Maintains and repairs curbs, curb ramps, gutters, sidewalks, pavement, markings, and roadways. Makes and installs street signs and street legends. Operates and maintains streetlights and traffic signals in Manteca in coordination with contracted vendors.

Storm

Maintains storm lines and pump stations by keeping them clean and in good repair, ensuring storm water flows freely to the outlets to prevent localized street flooding. Outreach coordinators educate the public on water quality and conservation techniques. Education includes information on biodegradable and phosphate-free products and their impact on the environment.

Transit

Utilizing federal funding, this division provides Fixed Route service and Dial-A-Ride programs; provides outreach programs to encourage youth ridership and informs the community of the available mobility options. It uses Intelligent Technology Systems such as Automatic Vehicle Location (AVL), Automated Passenger Count (APC), and Automatic Voice Annunciation (AVA) to alert riders of bus schedules. Transit staff oversee the Transit Center and rental of the facility. Transit's Event Hall hosts a multitude of events, from private events to city training.

Wastewater

Applies operational and administrative techniques and methods to the City's wastewater collection, treatment, and disposal systems to ensure compliance. The State-Certified in-house laboratory performs sampling and analysis in support of City services. Biogas, created as a by-product in the anaerobic digestion of sewage sludge, is collected, cleaned, and compressed into renewable compressed natural gas, which is used to fuel City and public vehicles.

Water

Provides adequate water supply, treated to required standards, for consumption, irrigation, industry, recreation, and firefighting needs. Measures water consumption by customers for accurate calculation of water bills. Maintain proper operation of the distribution system and its components to provide uninterrupted water flow with minimal water leakage.

The Public Works Department remains committed to the continuance of extensive planning efforts, employee development, and the innovative use of technology. The department remains committed to ensuring essential services meet and exceed regulatory requirements while providing high-quality customer service to both internal and external customers.

Technology-driven public outreach and education, such as the Government Outreach Portal, provide a pathway for residents to report infrastructure deficiencies such as potholes, water leaks, streetlights, sidewalks, and more to staff. Residents currently have the option to call, email, and interact with Public Works on social media.

2024-2025 Accomplishments

Transit

- Fixed Route Ridership: Up 18% from last year.
- The 2024 Federal Transit Administration (FTA) Triennial Review was successfully completed with no findings.
- Acquired 2 New Compressed Natural Gas (CNG) Transit Buses.
- Acquired an electric van and installed a charging station at the Transit Center.
    - First electric van for Dial-a-Ride service.
- Youth Ridership: 20,979 trips in 2024.
- Total Ridership increased in 2024: Fixed Route total was 76,231 and the Dial-A-Ride total was 9,399.
- Achieved successful CHP inspection with no findings.
- Held a successful “Stuff the Bus” event during the Thanksgiving holiday in 2024.

Facilities Maintenance

- Facilities Driveway Project completed.
- Replace roof, flooring and HVAC Systems at Water Quality Control Facility (WQCF) Facility.
- Replace rotting support beams at the Civic Center.
- Replaced multiple aging HVAC systems at Civic Center.
- Install new flooring at Transit Center.
- Completed interior renovations for multiple city facilities.
- Replaced kitchen exhaust system at Golf Clubhouse.
- Completed numerous projects at 555 Industrial Park Dr to prepare for the opening of the Navigation Center.
- Cleaned over 150,000 square feet of buildings each month within the city.

Streets

- 2,000 Linear Feet of asphalt was replaced on Spreckles Ave.
- Downtown Yosemite ARPA Paving Project.
- 124 Sycamore ARPA Parking Lot Project.
- S Main St Alley Paving ARPA Project.
- 1,200 linear feet of asphalt replacement S Main St.
- Removed traffic bulbs to increase traffic flow and parking for downtown businesses.
- 172 various asphalt repair projects.
- Repaired a total of 185,700 sq. ft. of potholes.
- 32 tons of asphalt was used to fill potholes.
- 216 streetlights were repaired.
- Sidewalk Replacement: 1,475 Linear Feet.
- Number of sidewalk repairs/replacements: 58.
- Number of lifted sidewalks repaired utilizing Precision Concrete Cutting: 998 lifts/ 4,087 Linear ft.
- Leaf Collection performed in tonnage: 426
- Crack Sealing Completed: areas include Union West, Roberts Estates, Cotta, Trailwood, Del Webb, Union Ranch East

Wastewater

- Treated 3.1 billion gallons of wastewater.
- Produced and used 89,000 Diesel Gallon Equivalent (DGE) of Compressed Natural Gas.
- Treated 27.4 million gallons of sludge (processed wastewater solids).
- Two construction projects are underway to help with capacity. Two additional projects start this year.
- 364,577 feet of sewer lines were cleaned.
- 1.4 million pounds of nitrogen removed from wastewater.

- 9.3 million pounds BOD removed from wastewater.
- 80,730 feet of sewer lines CCTV.
- All wastewater operator positions now hold Grade III level certification or better, which is journeyman to mastery levels.
- All collection operator positions now hold Grade I certification or better.
- Smart cover sensors proactively installed prevented more than 5 Sanitary Sewer overflows.
- Fabrication and Installation of a Barscreen at Vanderbuilt Circle Stormwater Pumpstation to prevent damage to pumps and improve the reliability of the station.
- Upgraded all exterior lights at the WQCF to efficient LED fixtures. All work was done internally by WQCF staff.
- Received awards for CWEA Supervisor of the Year, Collections Operator of the Year, Wastewater Operator of the Year, and Mechanical Technologist of the Year (sweeping the regional awards for the 2nd straight year).
- New roof installation at three Storm Drain Pump Stations to preserve telemetry, pumps, motors, controls, and programmable logic computers (PLC's).
- Repaired 19 Storm Drain Pumps throughout the City. These upgrades were crucial in the recent success of the storm drain system.
- Upgrade of Vueworks Computerized Maintenance Management System (CMMS).

Wastewater Laboratory

- Passed all performance testing to maintain Environmental Laboratory Accreditation Program (ELAP) Certification to ensure that water and wastewater samples may be processed and analyzed internally. This is paramount in providing water and wastewater service because there is a significant cost savings and ensures the quickest test results, so staff may take appropriate action.
- Passed the first ever TNI (The NELAC Institute) Laboratory audit, becoming one of the first laboratories in the region to ensure compliance and maintain its certification with the state.
- Water Resources Laboratory analyzed a combined 17,896 reportable samples of water and wastewater.
- Continued the Fats, Oil, & Grease (FOG) Inspection Program for Food Service Establishments (FSE) and conducted 77 food service inspections and 11 industrial pre-treatment inspections as well as issuing 19 new FOG permits and 2new Industrial permits.

Water

- Utilized 191.6 MG of recycled water in lieu of using treated and finished potable drinking water for landscape irrigation, wastewater treatment plant process water and construction use.
- Completed 73 stormwater outfall inspections, 16 stormwater hot spot inspections, and 16 illicit discharge investigations.
- Processed 246 water conservation rebates.
- Expanded the “Butt to Watts” cigarette recycling program with cigarette butt collection containers installed at various City locations and several hotels. The collected cigarette butts are taken to a facility for incineration where the heat produced is utilized to create electricity.
- Conducted public education outreach at 12 community events giving out 1,387 children’s educational packets and 6,676 adult educational packets on stormwater pollution prevention, water conservation, and wastewater awareness for FOG and What Not to Flush.
- Continued focus on water meter replacement to achieve an Automated Metering Infrastructure (AMI) with Badger Beacon. The advanced analytics provide useful data for water conservation.
- Rebuilt Well 13, which was burnt down due to vandalism, adding to the water system’s production capacity.
- Atherton tank tri-annual dive inspection completed.
- Replaced a soft start motor starter on Well 14 with a variable frequency drive, creating increased reliability to the water system.
- Distributed 4.52 billion gallons of potable drinking water to customers.
- Collected 10,214 drinking water samples and had no detections of bacteria in drinking water.
- Repaired 128 water leaks, responded to 449 after-hours water emergencies, managed the testing of 2,070 backflow prevention devices, exercised 1,296 water valves, investigated 1,550 calls for service, installed 945 New Water Meters, and completed 3,971 work orders generated by the Finance Department.

Parks

- Approved Design for Woodward Splash Pad.
- Installed a cricket pitch at Doxey Park.

- Golf Course improvements:
    - 8,990 sand traps raked
    - 7,560 greens mowed
    - 5,454 greens cups cut
    - 5,880 acres of fairways mowed
    - 175 yards of kiln dried sand applied to greens
    - 39 electric irrigation valves replaced
    - 77 golf tournaments hosted
- Park Maintenance:
    - 648 playground inspections completed
    - 360 yards of playground safety surfacing installed
    - 9,951 hours of turf maintenance completed (mowing, edging, etc.)
    - 3,882 hours of irrigation repairs and inspections/adjustments
    - 441 government outreaches completed
    - 746 trees pruned
- Numerous Community Events assisted (Pumpkin/Street Festivals, Christmas @ the Center, Arbor Day, Earth Day, Memorial Day, Cultural Events, Farmers Market, Concert/Movies in the Park, etc.).
- LMD/CFD
    - 4,676,697 sq ft of streetscape and park turf maintained.
    - 2,188,070 sq ft of landscape beds are maintained.
    - 84 pre-emergent applications were made.
    - 408 playground inspections.
    - 770 yards of playground fiber were installed in 9 parks.
    - 310 yards of deco mulch installed at 6 landscape districts.
    - 5 pour in place pads sealed at 3 parks.
    - 20 landscape districts were replanted.
    - 72,000 dog bags used.

Solid Waste

- Implemented 3-cart weekly collection.
- Hosted four district clean-up events, and set dates for 2025.
- Lead all other departments in the social media outreach.
- Hosted two shred-it events.
- Procured lease-to-own garbage trucks to maintain weekly collection.
- Finalized contract with Routeware.
- Michael Bowers was recognized as the Public Works Employee of the 1st Quarter.
- City crews conducted bi-weekly street sweeping across over 300 miles to keep roadways clean and prevent debris from entering storm drains.

Fleet Maintenance

- Zachary Teunissen was recognized as the Public Works Employee of the 2nd Quarter.
- Sixty-one vehicles successfully passed the Government Fleet Smog Check Program.
- Forty-seven commercial trucks were registered in 2024, fully compliant with the California Clean Truck Check Program. All testing was conducted in-house using California Air Resources Board (CARB)-compliant software, and two technicians are certified with CARB licenses. Thirty-five pieces of equipment were purchased in 2024, including patrol vehicles, light-to-medium duty trucks, off-road vehicles, fire apparatus, and commercial trucks.
- A total of 2,312 work orders were opened and closed, covering maintenance and repairs. This process included ensuring accountability for maintenance, repairs, inventory invoicing, and outsourced services. All of this was achieved while managing

limited resources on both the technical and administrative teams within our Fleet Division.

2025-2026 New Goals and Priorities

- Citywide Street Project Updates - paving, crack sealing, high viability thermoplastic application
- Water Bottle Filling Stations - determine locations
- Vehicle Replacement Plan
- Implement Routeware - routing software for solid waste
- Implement robust Solid Waste Safety Program
- Procure long-term contracts with facilities for municipal solid waste, recycling and organics that include food-waste
- Complete the standardizing all the residential carts
- Continue education and outreach efforts in the community
- Monthly social media podcasts on Public Works information
- Design Guideline Updates - Parks / utilities - last updated 2017
- Update Park Planning User Fees
- Fencing and Sidewalk on Crom Street
- Deliver outstanding ride experiences for Fixed Route Service and Dial-A-Ride to expand routes and increase youth ridership
- Increase route frequency on high ridership routes
- Continue working with San Joaquin Regional Rail Commission (SJRRC) on the Transit Center Parking Lot Expansion Project.
- Locate property for Manteca's Transit Bus Yard.
- Implement a structured pre-trip process to streamline operations, reduce delays, and enhance overall fleet management.
- Strengthen recruitment efforts to onboard additional technicians, ensuring we return to full capacity for the maintenance program and minimize service disruptions
- Transition away from reliance on fuel islands by exploring and implementing alternative fueling systems, improving both efficiency and sustainability
- Continue optimizing the maintenance program to reduce costs, improve efficiency and response times, and enhance equipment performance.
- Reduce the amount of annual water loss through advanced metering analytics, hydrant check valves, recording of quantity of water flushed for water quality purposes, and ensure meter accuracy.
- Maintain a minimum of 40 PSI at all times throughout the water distribution system.
- Reduce energy consumption through infrastructure improvements and gains in operational efficiency, such as installing variable frequency drives.
- Continue to upgrade and enhance water well and treatment sites.
- Reduce energy consumption through water resources infrastructure improvements and gains in operational efficiency.
- Increase reliability of critical infrastructure to ensure continuance of operations.
- Ensure National Pollutant Discharge Elimination Systems (NPDES) Permit compliance throughout the year and continue working on NPDES Permit update and Report of Waste to Discharge Permit update.
- Expansion of Industrial Pre-Treatment and Fats, Oils, Grease (FOG) programs and continued public outreach efforts.
- Continue to improve and upgrade storm pumps, pump stations, drain inlets, and lines.

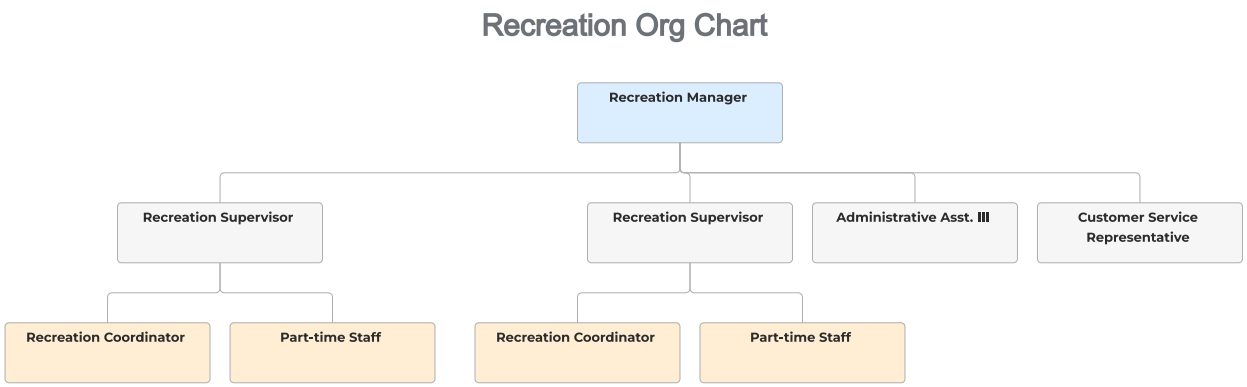
Recreation & Community Services

Department Description

The Recreation and Community Services Department's mission is to enhance the lives of residents of all ages through diverse recreational activities. Its core functions encompass recreation services, senior services, organizing special events and community outreach initiatives, and managing library services.

Organizational Structure



Department Position Listing

Department	Approved FY 2024-25 FTE's	Proposed FY 2025-26 FTE's	Increase (Decrease)

Customer Service Representative	1	1	0
Recreation Coordinator	2	2	0
Recreation Services Manager	1	1	0
Recreation Supervisor	2	2	0
Recreation & Community Services Total	**7**	**7**	**0**

Department Functions

Recreation Services

Plans, executes, and assesses a diverse range of activities aimed at enhancing the lives of youth, teenagers, and adults within our community. This includes organizing youth and adult sports leagues, preschool programs, inclusive programs, day camps for youth, an Expanded Learning Opportunities Program (ELOP) partnership with the Manteca Unified School District (MUSD), enrichment programs, aquatics programs including swim lessons, dedicated teen programs, and cultural arts events. Additionally, the department is responsible for promoting these programs and services through various channels such as brochures, social media platforms, news releases, presentations, and acting as a liaison with the community.

Oversees the administration of recreation and park facilities, including scheduling and coordination with MUSD, nonprofit organizations, sports groups, private parties, and managing parks maintenance. Cultivates and manages partnerships and facility-use agreements with strategic partners, including the BMX Track, Golf Course Clubhouse, Community Garden, Tennis Center, Poet Laureate Program, Mobile Food Truck Program, MUSD, concessionaires, local nonprofits, and vendors.

Furthermore, it provides administrative support to various commissions and committees, including the Recreation and Parks Commission, Youth Advisory Commission, Senior Advisory Committee, Mayor's Committee on the Arts, and Friends of Manteca Parks and Recreation Foundation.

Senior Services

Manages the day-to-day operations of the Manteca Senior Center, offering a variety of programs tailored to seniors in leisure, education, and social services. Responsibilities encompass overseeing the Senior Center's facility, supervising both paid and volunteer staff, planning and coordinating programs, conducting needs assessments, handling marketing and budgeting tasks, fundraising efforts, and coordinating facility usage. Program offerings range from Trips-n-Tours, health and fitness classes, craft sessions, special events, dances, drop-in activities, and nutrition programs to fundraisers, volunteer opportunities, educational workshops, social service assistance such as paralegal services, as well as information and referral services.

Special Events/Community Outreach

Plans and orchestrates major special events for the City while fostering partnerships with community non-profits for various collaborative initiatives. Manages volunteer coordination, facility usage, and maintains close collaboration with advisory groups and community partners. Takes the lead in organizing, staffing, and executing citywide events such as the Independence Day Celebration and Fireworks, Park-A-Palooza, Halloween Trunk-or-Treat, Social Dances, National Night Out, Specialty Dances, Movies in the Park, Food Truck Events, Swing For Youth Golf Tournament, Holiday Tree-Lighting, Christmas at the Center, For Kids' Sake Community Breakfast, Water Safety Day, Father-Daughter Dances, Mother-Son Dances, Music on Maple, as well as overseeing grand openings, dedications, and various community engagement activities.

Library Services

The Manteca branch of the San Joaquin County Library System operates through joint funding from the City of Manteca, the City of Stockton, and San Joaquin County. Its primary mission is to curate, categorize, and interpret materials in various formats to cater to the diverse needs of the community. Serving as a hub for connecting people and ideas, the Manteca Library offers resources for residents of all ages to explore educational, civic, business, and personal interests. The library also provides tax preparation aid. It is structured to accommodate individuals ranging from preschoolers to senior citizens, spanning various educational backgrounds and socio-economic statuses, as well as diverse cultural and ethnic groups, including English-speaking, non-English-speaking, and multilingual communities. Core functions encompass material acquisition, cataloging, lending across multiple formats, and provision of comprehensive reference materials covering a broad spectrum of subjects.

2024-2025 Accomplishments

Senior Center

- Health & Wellness Fair: 20 vendors, 2 speakers, 16 sponsors, serving ~200 seniors.
- New Programs: Launched Free Swap Day, themed Friday Night Bingo events, and Senior Canteen (offering affordable snacks & hygiene items).
- Expanded Events: Karaoke/DJ Dance moved to a more accessible time; Spaghetti Bingo transitioned to staff / prepared meals.
- Community Impact:
    - Angel Tree: provided gifts for 120 seniors.
    - For Kid's Sake: assisted 862 children, with 387 attending the Christmas Breakfast.
    - Volunteer Appreciation: honored 75+ volunteers, recognizing Patrick Malone as Volunteer of the Year.
- Facility Enhancements: secured ARPA funding for 20 new tables & 350 new chairs.
- Safety & Wellness: hosted the first "Safe & Secure" senior seminar in partnership with Cherie Sintes-Glover.

Community Events

- Culturally Inclusive Programming: Expanded events for Juneteenth, Hispanic Heritage Month, Dia de los Muertos, and introduced "Winter Around the World" at Christmas at the Center.
- New & Expanded Events:
    - New: Parky's Picnic, Go Skate Day Competition, Monster March.
    - Sold Out: Father/Daughter & Mother/Son Dances.
    - Inclusive Recreation: Launched Family Dance & reinstated Therapeutic Recreation Dances for special needs guests.
    - Music on Maple Enhancements: Added dance performances, car shows, new bands, and Recreation class demos. Expanded the event layout.
- Youth & Family Programming:
    - Expanded Kids Night Out with themed activities.
    - Launched character stations at Trunk or Treat.
    - Hosted two Movies in the Park.
- Skateboarding Initiatives:
    - Hosted the first Go Skateboarding Day Competition with pro skater Aaron Kyro.
    - Began free monthly Skateboard Workshops with a seasoned instructor.
- Infrastructure & Policy Improvements:
    - Established vendor/food truck registration policy & sponsorship opportunities.
    - Collaborated with multiple City departments for safe, well-organized events.

Youth Development & Contract Classes

- New & Expanded Offerings:
    - Re-launched Little People's Creative Play & Toddler Time, introduced Sensory Toddler Time.
    - Partnered with MUSD for summer & intersession contract classes.
    - Introduced a Junior Cooking Class, growing in popularity.

Facility & Special Projects

- Major Events & Additions:
    - Doxey Park Cricket Pitch Ribbon Cutting.
    - Second annual Park-a-Palooza at Woodward Park with additional bands and expanded activities.

- Citywide decorating competitions (Halloween: 29 entries, Christmas: 18).
- Our department remains committed to creating diverse, engaging, and inclusive recreational opportunities for the community.
- Recreation operations moved to the Senior Center. The Senior Center will launch Civic Rec.
- The Union Road tennis courts had two courts re-striped to allow for pickleball.

Youth Sports and Aquatics:

- Tiny Tots sports served 545 children combined for all sports (baseball, basketball, soccer, flag football).
- Aquatics served 2,269 participants combined for swim lessons.
- Youth Tennis served 228 children for tennis lessons and tennis camps.
- Jr. Giants served a total of 480 participants.
- NFL Flag Football had two seasons and combined served 326 participants.

2025-2026 New Goals and Priorities

- Recreation Master Plan & Fee Updates.
- Park & Facility Improvements (Working with Public Works - Parks Division)
  - Skate Park Design: Complete a design for a new Skate Park, evaluate and determine location and secure funding.
  - Northgate Park Playground Upgrades: Modernize playground equipment and add inclusive play equipment with community input.
  - Security Enhancements: Expand security lighting at Tony B. Marshall Park Pickleball Courts and evaluate other high-use park facilities.
  - Park User Fees & Facility Use Policy: Review and implement revised user and allocation policies and update fees.
- Community Garden & Mural Project: Strengthen partnership with Urban Greens to establish sustainable garden spaces and expand program and event partnerships. Working with other City Departments complete the beautification of the area with the addition of murals and other amenities.
- Update Facility Use Fees.
- Continue to evaluate and make recommendations of all Commissions and Committees within the Department (Youth Advisory Commission, Senior Advisory Committee and Recreation & Parks Commission).
- Create Capital Improvement Plans (CIP) that tie in with the Master Plan for aging recreation facilities including: Golf Course Clubhouse, Tennis Center, Northgate Community Park, Lincoln Community Park and Woodward Community Park, using the Master Plan Update as a roadmap.
- Obtain grant funding for recreation facilities and programs.
- Enhance and expand Recreation Department events.
- Increase community partnerships.
- Develop new external event partnership process.

Fund Summaries

The following sections highlight revenue and expenditure trends for major funds, along with context to help explain the changes.

Citywide Budgetary Fund Structure & Fund Summary

The City of Manteca's budget is organized into multiple funds, each serving a specific purpose to ensure transparent and effective management of public resources. These funds are grouped into three main categories:

1. General Fund:
The General Fund is the primary operating fund for the City. It finances essential services such as public safety, parks and recreation, community development, and administrative functions. Revenues in this fund mainly come from taxes, fees, and service charges.

2. Special Revenue and Capital Funds:
These funds are designated for specific purposes, often restricted by law or agreement. Examples include funds for transportation projects, community development grants, and capital improvement projects. They ensure that resources are used for their intended programs and infrastructure investments.

3. Enterprise and Internal Service Funds:
Enterprise funds operate city-owned utilities or services, such as water, sewer, and solid waste management, where revenues are generated from user fees. Internal Service Funds support city departments by managing shared services like fleet maintenance and information technology.

Each fund is budgeted separately, allowing for clear tracking of revenues, expenditures, and financial position. This structure supports sound financial management, accountability, and compliance with regulatory requirements.

Fund 100 - General Fund

The General Fund captures all the general discretionary revenues of the City not specifically levied or collected for other City funds and related expenditures. The general fund accounts for all financial resources which are not accounted for in another fund. Major revenue sources are property taxes, sales taxes, franchise fees, motor vehicle in-lieu fees, and various charges for services provided. Services funded include police, fire, engineering, library, parks maintenance, and administration.

Commentary

Revenues Commentary

- Sales tax revenue (excluding Measure Q) is projected to grow by 30%, driven by strong development and the opening of new businesses, despite challenges like weakened consumer confidence, price fatigue, and volatile gas prices.
- A new property tax agreement with the County and ongoing strong development in Manteca are driving increased property tax revenue projections.
- The projected 2.5% increase in Transient Occupancy Tax is mainly due to new hotels, with Great Wolf Lodge and Staybridge contributing significantly. However, revenue from Great Wolf Lodge is reduced by a tax-sharing agreement.
- A comprehensive cost allocation plan was completed, which slightly lowered the overhead allocation the General Fund receives from other funds.
- Franchise fees are expected to increase by 18%, primarily driven by inflation.
- A rise in Licenses and Permits revenue is expected due to growth in business licenses.
- The decrease in Public Safety Programs funding is primarily due to lower Fire Mutual Aid revenue, which depends on the severity of fire season. Fiscal Year 2024-25 received $1.6 million, while only $105,000 is budgeted for Fiscal Year 2025-26 due to the unpredictable nature of the fire season.
- General Fund revenues are expected to increase by 8% compared to the projected year-end for Fiscal Year 2024–25 due to strong development and growth.

Expenditures Commentary

- Five new full-time positions (Community Service Officer, two Patrol Officers and two Deputy Fire Chiefs) and one position reclassification are included.
- Removing one full-time position (Assistant Fire Chief).
- Operating costs are increasing by 3.8% ($1.1 million) from the Fiscal Year 2024-25 Amended Budget, driven by inflation, a $5 million rise in IT Fund contributions, a $1.2 million contribution to the new vehicle fund, and a $400,000 citywide classification and compensation study funded by the General Fund.
- A conservative amount of General Fund capital projects is proposed for Fiscal Year 2025-26. New projects include: Event Safety Barriers ($156K), Mellon Ave. Storm Drain Improvements ($100K), Chipper Truck ($70K), Woodward Park Turf Renovation ($64K), Axon body cameras ($61K), Mini Robot Upgrade ($30K), and Zoom Conferencing Systems ($30K), totaling $510,927.
- The fund balance for the General Fund also includes Asset Seizure (Fund 155) and Retiree Health Savings Plan Trust (Fund 920). Payroll Tax Benefit Allocation (Fund 880) was rolled into General Fund in Fiscal Year 2023-24.

Fund 105 - Measure Q

Measure Q is a 0.75% sales tax approved by Manteca voters in November 2024, effective April 1, 2025. Funds are dedicated to enhancing public services and infrastructure, including street and road maintenance.

Total Expenditures					**$10,202,000**

Commentary

A newly established fund was created to ensure transparency in tracking revenues and expenditures from the 0.75% sales tax approved by Manteca voters. For Fiscal Year 2025-26, estimated revenue from this tax is $12 million. Since the police headquarters project is not expected to be bonded in Fiscal Year 2025-26, funds are being redirected to one-time public safety needs. The proposed budget includes $1.6 million for police fleet replacement, $452,000 for police drones and body cameras, $2.65 million for two fire engines, and $1 million for fire self-contained breathing apparatus (SCBA) replacements. Also included is $2 million for street and road projects, and a $2.5 million transfer to support Gas Tax Fund operations (Fund 420). The remaining fund balance is being intentionally reserved for emergency needs.

Fund 110 - COVID Relief

Established to account for funds provided by the American Rescue Plan Act of 2021 and other federal funding used in the mitigation of and recovery from the COVID-19 Pandemic.

Total Expenditures					**-**

Commentary

In Fiscal Year 2024-25, staff reallocated $1.7 million in ineligible expenditures by funding new and existing capital improvement projects, such as downtown revitalization, streets and roads, and various public safety and community enhancements. In Fiscal Year 2025-26, work will continue to ensure all American Rescue Plan Act funds are fully expended by the December 31, 2026 deadline.

Fund 120 - Fire Grants

These funds account for grants received from the U.S. Department of Justice and Federal Emergency Management Agency (FEMA), or related federal agencies, for various Public Safety hiring programs. Grants typically run for three years. Once grant funding cycles expire, the City is responsible for making a concerted effort to continue funding the positions through other means.

Commentary

Due to the cyclical nature of grant funding, funds are programmed only so far as the funding is authorized and approved (expiration, renewal, etc.). Additional fire grants have been applied for and pending approval.

Fund 126 - Navigation Center

Established to account for the financing and construction activities associated with the regional low barrier emergency homeless shelter. Financing is provided by local, State and Federal grants.

Commentary

This fund partially supports services for unsheltered individuals, including physical and mental health care and transitional support. The required National Environmental Policy Act (NEPA) review for federal construction funding has been completed. Project spending is expected to stay under $19 million in Fiscal Year 2024-25, with unused funds carrying forward into Fiscal Year 2025-26.

Fund 140 - CDGB

Community Development Block Grant: Established to account for projects financed by Federal Housing and Urban Development Department grants through San Joaquin County.

Total Expenditures					**$426,003**

Commentary

The City of Manteca serves as a pass-through agency for this grant, which supports community development activities for low-income residents. Because unused grant funds roll over to the next fiscal year, they remain available for future use. Additionally, the City expects to receive unclaimed reimbursement revenues not yet reflected in current figures. These future reimbursements will help reduce or eliminate the negative fund balance over time by offsetting previously unreimbursed expenditures.

Fund 150 - Police Grants

These funds account for grants received from the U.S. Department of Justice and FEMA (or related federal agencies) for various Public Safety hiring programs. Grants typically run for three years. Once grant cycles expire, the City is responsible for making a concerted effort to continue funding the positions through other means. To date, the City's General Fund, Public Safety Sales Tax Fund and Public Safety Endowment Fund has taken over funding at the expiration of the hiring grants.

Commentary

Due to the cyclical nature of grants, funding is programmed only as it is authorized. In Fiscal Year 2024-25, a new federal Community Oriented Policing Services (COPS) grant was received to partially fund two new patrol officers and will also help cover the cost of three proposed officers in Fiscal Year 2025-26. Unspent grant funds will roll forward.

Fund 155 - Asset Seizure

Established to account for the receiving and spending of the deposited proceeds associated with Police asset seizure activities (both federal and state).

Commentary

This account allows for adjustments based on legal outcomes, ensuring accurate management of seized assets. Because asset seizure funding is unpredictable, funds are only programmed based on the available balance for the upcoming fiscal year. Fund balance rolls up to the General Fund.

Fund 160 - SLEF

Supplemental Law Enforcement Grants: This fund accounts for funding received from specific state appropriations for local public safety services under the Citizens Option for Public Safety (COPS) Program. These funds, along with those identified above are used to purchase technologically advanced equipment to increase the department's efficiency and effectiveness.

Commentary

The proposed 35% increase in Operations reflects added funding for various community events, the Expanded Learning Opportunity Program (ELOP) program and overall increase in costs. To meet the 25% reserve requirement, a General Fund subsidy of $1,096,024 million is needed. Unspent capital funds will roll over to the next fiscal year.

Fund 250 - Development Mitigation

Established to account for the collection and use of the City's development agreement fees established by the City Council and included in various development agreements. Types of fees collected include those for Public Facilities, Development Services, and Recreation Amenities.

Commentary

Staff and consultants specializing in special districts worked together to ensure identified parcels are proportionately levied based on the benefits received, helping offset the costs of maintaining, operating, and servicing improvements within each district. The increase to personnel includes a portion of the new Financial Analyst position. The $155,000 in capital funding is for equipment purchases, including a 144" diesel mower ($40,000), a 72" mower ($14,250), a 96" diesel mower ($25,500), and a replacement 72" diesel mower ($14,250). Costs are shared with the Community Facilities Districts (Fund 550).

Fund 320 - Measure M

In November 2006, Manteca approved Measure M – A Public Safety Sales Tax. This fund has been established to track the ½-cent sales tax the city receives to fund additional Public Safety Police and Fire personnel. A Council-approved public oversight committee evaluates the expenditure plan to ensure the City adheres to the ordinance.

Commentary

For Fiscal Year 2025-26, the 25% reserve requirement equals about $2.8 million, leaving approximately $1.2 million in available fund balance. Expenditures in the budget are accounting for personnel cost, including two new patrol officers partially funded by the COPS grant.

Fund 340 - Development Services

Established to account for the collection and use of the City's development services and building related fees and associated development services activities.

Capital					$607,068
Debt Service					-
Transfers					-
Total Expenditures					**$11,822,660**

Commentary

Professional service operating costs have historically been over budgeted, with actual expenses coming in significantly lower. Capital costs for Fiscal Year 2025-26 include added funding for the Family Entertainment Zone ($417,068), the French Camp Canal Master Study ($150,000), and a new vehicle ($40,000). Unspent capital will roll into the next fiscal year. While a $3.8 million deficit is projected, actual spending is expected to be much lower. Given the 50% reserve requirement is $5.9 million, drawing down on reserves is acceptable.

Fund 350 - Innovation and Technology

Established to account for all funding received from lease revenue from cellular towers and other technology projects for use in economic development.

Capital					-
Total Expenditures					**$4,092,996**

Commentary

Gas tax revenues are declining statewide due to increased fuel efficiency, more electric vehicles, and reduced gasoline use, which lowers traditional per-gallon tax income. To offset this, a $2.5 million transfer from Measure Q is included to support road and street maintenance. Operating expenses are 18% higher than Fiscal Year 2024-25 due to pavement maintenance and for additional work. In addition, $673,000 in capital was shifted from Fiscal Year 2025-26 to Fiscal Year 2024-25 using American Rescue Plan Act (ARPA) funds to help relieve pressure on the fund.

Fund 425 - Gas Tax / Street Improvement SB1

Senate Bill 1 (Local Streets and Roads): This fund was established to manage State of California funding from the Road Maintenance and Rehabilitation Account, which supports deferred maintenance of local streets and roads.

Commentary

The $2 million in capital funding is an additional appropriation for the Airport Way Widening Project (CIP 11027) to complete the project.

Fund 440 - Measure K

Measure K: Established to account for the construction and maintenance of the street system within Manteca and financed with a ½-cent sales tax approved by voters in 1990 and levied for that purpose by San Joaquin County. The tax was authorized to be levied and collected for a 20-year period. In November 2006, voters extended the tax for an additional 30 years.

Commentary

Operating increases are due to internal service and cost allocations. The $3.9 million in capital funding supports a 50/50 cost share for the Diverging Diamond Interchanges at SR120/Airport (CIP 22031) and SR120/Main (CIP 22032).

Fund 460 - TDA Local Transporation

Local Transportation Fund (Streets): These are the City's Local Transportation Fund (LTF) and Subsidized Street Projects funds that account for the construction and maintenance of the City's street system. These projects are funded using the City's portion of the 1/4-cent of the 6 cents retail sales tax collected statewide for transportation and using state and federal grants.

Personnel					$8,344
Operations					$6,338
Capital					$65,000
Total Expenditures					**$79,682**

Commentary

The sharp decline in operations is due to the implementation of the new full cost allocation plan. A small personnel appropriation covers a portion of the new Financial Analyst position. The $65,000 in capital includes additional funding for restroom replacements at Morenzone Park ($17,000 for CIP 25001) and lighting upgrades ($17,000 for CIP 24033).

Fund 510 - Neighborhood Park In Lieu Fees

Neighborhood Park in Lieu Fees: Established to account for the acquisition and construction of neighborhood parks. Financing is provided by a special park improvement fee imposed on development.

Commentary

Staff and consultants specializing in special districts worked together to ensure identified parcels are proportionately levied based on the benefits received, helping offset the costs of maintaining, operating, and servicing improvements within each district. The increase to personnel covers a portion of the new Financial Analyst position. The $155,000 in capital funding is for equipment purchases, including a 144" diesel mower ($40,000), a 72" mower ($14,250), a 96" diesel mower ($25,500), and a replacement 72" diesel mower ($14,250). Costs are shared with the Landscape and Maintenance Districts (Fund 280).

Fund 580 - PFIP Drainage

Public Facilities Implementation Plan: Established to account for the financing and construction for the City's storm drain systems using development fees collected under the PFIP program.

Debt Service					-
Total Expenditures					**$6,278,555**

Commentary

A portion of the projected fund balance for Fiscal Year 2025-26 will be used to meet prior infrastructure and interfund loan obligations. Key capital investments include funding for updates to sewer, water, storm drain, and transportation systems, along with major storm drain design and a new Stormwater Master Plan. Staff are assessing options for the remaining funds, guided by an upcoming PFIP update.

Fund 590 - PFIP Transportation

Public Facilities Implementation Plan: Established to account for the financing and construction for the City's transportation systems using development fees collected under the PFIP program.

Total Expenditures					**$32,866,545**

Commentary

Fiscal Year 2024-25 has a temporary deficit caused by timing gaps between project spending and anticipated bond proceeds. As outlined in the recent rate study, a temporary deficit is expected for the next few years. In Fiscal Year 2025-26 the $9.71 million budget supports ongoing projects, while new project requests are deferred until funding is secured. FY26 Personnel includes one reclassification of one Water Distribution Operator III to Lead Water Distribution Operator.

Fund 650 - Sewer Improvement

Sewer Funds: The Sewer Improvement Fee and Public Facilities Implementation Plan – Sewer funds accounts to pay for the cost of connection of new development to the City's sewer system and to pay for increased treatment capacity of the Wastewater Quality Control Facility (WQCF).

Commentary

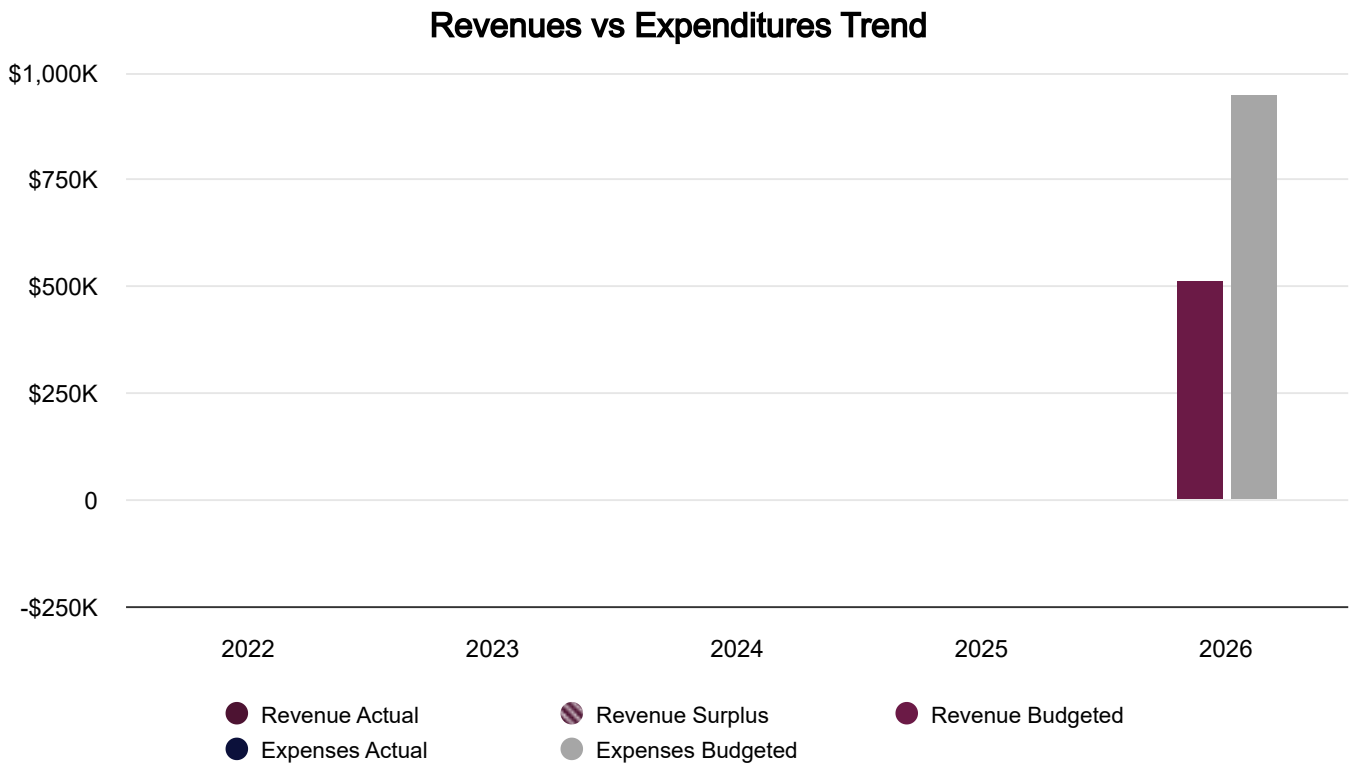
The new solid waste rate implemented in Fiscal Year 2023-24 has positioned the fund for a positive balance by Fiscal Year 2024-25 year-end. However, the Vehicle Internal Service Fund (ISF) in FY26 is causing a temporary deficit. City staff are developing a plan to address prior year allocations and help the fund recover. The capital budget includes new requests for a Solid Waste Forklift ($102,330), Front Loader Garbage Truck ($603,750), and a Wastewater Compressed Natural Gas Storage Expansion ($375,000). Unspent capital will be carried forward into the next fiscal year. With the new rate structure, revenues are expected to grow in coming years, helping the fund build reserves to meet the 25% requirement.

Fund 670 - Solid Waste Cost Recovery

Solid Waste Funds: The Solid Waste Cost Recovery funds account for the service initiation cost recovery charge for all new residential dwelling units and newly constructed commercial units. All revenue derived from this charge will be used for the acquisition and delivery of containers, equipment and solid waste collection trucks.



Comprehensive Fund Summary

Commentary

The capital budget originally included new equipment purchases—specifically, a Fork Truck ($141,300), a Roll-Off Garbage Truck ($303,347), and a Street Sweeper ($503,923); however, the department has opted to reallocate these funds towards other priority capital outlay items, which are currently being reviewed and finalized. Adjustments will be processed in accordance with budget and fiscal policies.

Fund 680 - Water O&M

Water Funds: The Water Maintenance and Operations fund accounts for the day-to-day operations, including water pumping and deliveries, billing, collections and system maintenance. These activities are funded through the monthly service fees collected from water service customers.

Total Expenditures					**$24,055,400**

Commentary

The estimated Fiscal Year 2024-25 deficit is due to one-time expenditures on water capital improvement projects, which may not be fully spent by fiscal year-end and will roll over to Fiscal Year 2025-26. Bond issuance for projects, expected later in Fiscal Year 2025-26, is not included in the current budget. As outlined in the recent rate study, a deficit is anticipated over the next three years until bond proceeds are received and project-related cash flows stabilize by Fiscal Year 2028-29. Revenues include a $5 million interfund loan from the Water Improvement Fund and will be taken to Council for approval during FY26. Personnel costs account for a small portion of a new Financial Analyst ($16,689). Fiscal Year 2025-26 capital includes additional appropriations for two VFD replacements for wells ($125,000 CIP 22034), Advanced Water Meter Infrastructure ($600,000 CIP 24056), and a new project for the 2025 Urban Water Management Plan ($240,000). FY26 Personnel changes include one reclassification of one Wastewater Plant Operator III to Lead Wastewater Treatment Plant Operator.

Fund 690 - Water Improvement

Water Funds: The Water Fee Improvement and Public Facilities Implementation Plan – Water funds account for the capital improvements necessary to maintain and expand the system, including water main construction and rehabilitation and well construction and rehabilitation. These activities are funded through fees imposed on new development.

Commentary

The budget includes a one-time $5 million transfer to Fund 680 (Water O&M), as outlined in the new water rate study, along with a $1 million appropriation for the Nile Garden Well 30 Construction project (CIP 21034).

Fund 700 - PFIP Water

Water Funds: The Water Fee Improvement and Public Facilities Implementation Plan Water funds accounts to pay for pipelines, wells, and test wells associated with new construction.

Capital					$203,338
Debt Service					-
Total Expenditures					**$459,016**

Commentary

Included in personnel costs is $8,344 for a portion of a new Financial Analyst position. It also allocates $203,338 in capital funding for the 2025 PFIP Sewer, Water, Storm Drain & Transportation Update (CIP 19005). A portion of the projected available fund balance will be used to meet obligations related to previously accepted infrastructure and interfund loan repayments. Staff are assessing options for the remaining funds, guided by an upcoming PFIP update.

Fund 810 - Engineering

Engineering Fund: Established to oversee planning, design, and construction of new capital projects.

Personnel					$2,076,325
Operations					$1,204,584
Capital					$292,003
Total Expenditures					**$3,572,912**

Commentary

Operating expenses are projected to be significantly under budget in Fiscal Year 2024-25 due to vacancy savings. In Fiscal Year 2025-26 the $292,003 in capital includes additional funding for citywide secure card key access ($32,003 CIP 22004), expansion of the engineering department ($220,000), and replacement of engineering survey equipment ($40,000). FY26 includes one personnel change one new Associate Civil Engineer and removing one Engineering Technician.

Fund 820 - Vehicles

Vehicle Fund: Originally established to account for the acquisition of new or replacement vehicles for General Fund and non-Enterprise Fund fleet purchases. This fund is transitioning to also account for the maintenance and repair of those vehicles and the management of the City's fleet. These activities are funded by the user departments (funds) through the payment of a "vehicle/fleet fee" to the Vehicle Fund.

Commentary

The Internal Service Fund (ISF) plan, initially intended for Fiscal Year 2024-25, was delayed but is now targeted for implementation in Fiscal Year 2025-26 to ensure sufficient revenue and eliminate the negative fund balance. Personnel changes include a new position for fleet maintenance support. The proposed $3.2 million in capital will fund vehicle replacements across Parks, Facilities, Solid Waste, Water, and Wastewater divisions.

Fund 830 - Information Technology

Information Technology Fund: Established to account for the acquisition, maintenance, and replacement of information technology equipment and software. This fund also accounts for all personnel expenditures related to information technology and applications. These activities are funded by the user departments (funds) through the payment of a “technology fee” to the Information Technology Fund.

Commentary

A comprehensive Internal Service Fund (ISF) plan is expected in Fiscal Year 2026-27 to ensure fair cost allocation across departments. In Fiscal Year 2025-26 the $1 million in capital includes: $300,000 for Card Key Access (CIP 22004), $100,000 for an IT Strategic Plan (CIP 22003), $30,000 for Network Switches (CIP 24011), and funding for new projects such as Fire Analog-to-IT Converters ($25,000), a GIS Plotter ($25,000), battery backup replacements ($20,000), and off-site disaster recovery services ($500,000).

Fund 840 - Equipment

Equipment Fund: Established to account for the acquisition of new or replacement of minor capital equipment. These activities are funded by the user departments (funds) through the payment of an “equipment fee” to the Equipment Fund.

Total Expenditures					**$42,000**

Commentary

A comprehensive Internal Service Fund (ISF) plan is anticipated in Fiscal Year 2026-27, aiming to eliminate the negative fund balance. In Fiscal Year 2025-26 the reduction in operating costs is due to reallocating copier supply expenses directly to departments and aligning with past actual spending.

Fund 860 - Self Insurance / Risk Management

Self-insurance / Risk Management Fund: Established to account for the City's workers' compensation and liability insurance programs. These activities are funded by the user departments (funds) through the payment of "insurance premiums" to the Self-insurance Funds.

Total Expenditures					**$1,100,050**

Commentary

This fund reflects the City's ongoing management of Community Facilities District (CFD) 2023-1 bond proceeds. These funds are used to support infrastructure development and reimburse eligible public improvements within designated districts. No new bond issuances are planned for Fiscal Year 2025-26; however, the fund will continue to facilitate the tracking of outstanding bond balances, including debt service payments, property tax allocations, interest earnings, and authorized expenditures.

5-Year Forecasts

The City of Manteca's 5-year forecasts assume a 2.5% annual growth in revenues and a 4.5% annual increase in expenditures, reflecting cautious yet realistic economic expectations. The revenue growth aligns with California's moderate economic expansion, supported by projected state Gross Domestic Product (GDP) growth of around 1.6% and gradual improvements in local tax revenues despite recent budget shortfalls. Meanwhile, the higher expenditure growth rate accounts for rising costs in public services, labor, and infrastructure, consistent with statewide trends of increased spending pressures in healthcare, climate initiatives, and inflation-driven expenses. Overall, these assumptions balance optimism for steady revenue growth with prudent recognition of escalating municipal costs, highlighting the need for ongoing fiscal vigilance amid economic uncertainties. It's important to note that 5-year forecasts are just projections and often present a more conservative or pessimistic view of future financial conditions. These estimates are useful for planning but may not fully reflect actual outcomes, which can vary due to changing circumstances and updated data.

Commentary

Forecasted revenues are based on conservative estimates from the City's tax consultant, reflecting current economic and business conditions. The forecast also includes an assumption of increased investment earnings in future years. In FY26, two new police officer positions are added, partially funded by the federal COPS Grant. Once the grant ends, the City will need to cover the full cost of these positions. If current revenue trends continue, deficit spending is expected to begin in FY29. Starting in FY27, the fund is also projected to fall below its reserve requirement. One-time capital expenditures are not included in the forecasted figures.

Commentary

Revenue projections for the Highway User Tax Account (HUTA) are based on the latest Streets and Roads estimates from California City Finance. These forecasts reflect modest year-to-year fluctuations with some increases, some decreases and is consistent with historic patterns in fuel demand and gas prices. Currently, projected annual revenues are insufficient to fully cover salary, benefit, and operational expenses, resulting in ongoing structural deficits. To partially offset these shortfalls, a $2.5 million transfer from Measure Q is included to support road maintenance operations and capital improvement efforts. Staff will continue to monitor the fund.

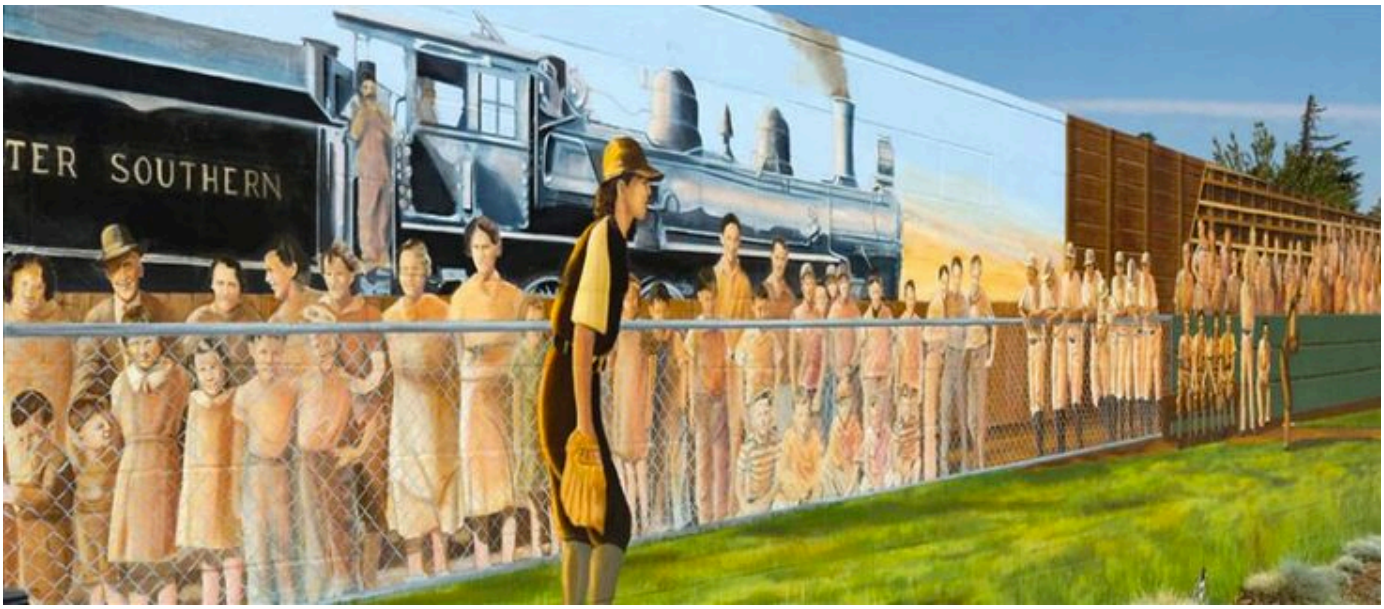
Commentary

Future revenues for Senate Bill 1 (SB1) Local Streets and Roads are based on estimates from California City Finance's Streets and Roads Report. Unlike the Highway Users Tax, SB1 revenues are projected to steadily increase over time due to differences in tax structure and allocation methods. Under SB1, a portion of revenue is distributed through fixed statutory allocations before funds are apportioned to cities and counties. SB1 funds are restricted for use on road maintenance, repair, and improvement projects. Currently, the forecast does not include one-time capital that may carry over from the previous fiscal year. Additional road projects that may be eligible for SB1 funding will be evaluated and brought to Council for consideration.

Debt Services & Inter-Fund Transfers



Debt Service

Debt service is the repayment of borrowed funds. It includes the principal and interest payments. Principal is the amount borrowed. Interest is the cost to borrowing. While not traditionally a debt service, the CalPERS Unfunded Actuarial Accrued Liability (UAL) behaves similarly, and is included here for transparency purposes. Unlike debt service where the amortization (repayment) schedule is fixed at the time of borrowing, the UAL amortization schedule fluctuates as CalPERS investment impacts positively or negatively the City's UAL total.

Bond Description	Original Amount	Outstanding Amount	Rate	Term Start	Term Ends
Sewer 2009 Bond	19,000,000	17,394,888	4.875% - 5.375%	12/01/2009	12/01/2036
Sewer 2012 Bond	22,690,000	6,706,122	2.000% - 5.000%	06/01/2013	12/01/2033
Water 2012 Bond	35,840,000	18,786,250	2.000% - 5.000%	07/01/2013	07/01/2033
Totals	**77,530,000**	**42,887,260**			

City debt is paid from enterprise funds

CalPERS UAL	Outstanding Amount	Term Ends
Miscellaneous	74,410,660	6/30/2044
Fire (Classic)	31,616,653	6/30/2044
Fire (PEPRA)	456,896	6/30/2041
Police (Classic - Tier 1)	47,316,936	6/30/2045
Police (Classic - Tier 2)	638,815	6/30/2041
Police (PEPRA)	808,226	6/30/2041
Total	**155,248,186**	

City presently pays the annual minimum lump-sum payment

Commentary

The CalPERS Unfunded Accrued Liability (UAL) fluctuates annually based on investment returns and retiree population changes. The tables reflect the beginning balance, changes due to these factors, annual payments, and the resulting ending balance, based on data from the June 30, 2023 CalPERS Actuarial Valuation Reports.

INTER-FUND TRANSFER

Transfers are movements of money that are not expected to be repaid. Transfers between funds are regulated by the type of fund. For example, City Council has discretion to authorize transfers from the General Fund to any other fund.

From	To	Amount Out	Amount In
100 - General Fund		(1,096,024)	
	200 - Recreation		1,096,024
100 - General Fund		(1,659,347)	
	620 - Golf Course		1,659,347
100 - General Fund		(375,000)	
	630 - PFIP Sewer		375,000
690 - Water Improvement		(5,000,000)	
	680 - Water O&M		5,000,000
105 - Measure Q		(2,500,000)	
	420 - Gas Tax/Street Improvemen		2,500,000
Total		**(10,630,371)**	**10,630,371**

(continued from above)

Purpose
Transfer required to meet Recreation reserve requirement
Transfer required to meet Golf Course reserve requirement
Excise tax designated for Sewer PFIP
Loan outlined in Water Rate Study
Transfer to support road/street maintenance

Capital Improvement Plan (CIP)

The Capital Improvement Plan (CIP) is designed to systematically plan, schedule, and fund capital projects based on established policies. It outlines a five-year strategy aligned with the structure of the City's operating programs. The CIP aims to balance two main types of projects: those that maintain or improve existing facilities and infrastructure, and those that add new capital assets to the City.

Definitions and Criteria for Capital Projects

- Capital Outlay - A financial classification which appropriates and programs expenditures related to capital assets such as infrastructure (e.g., roadways, parks, bridges, water/sewer, lighting systems, drainage systems, flood control, etc.), building, building improvements, land acquisition and equipment (such as vehicles, trucks, network switches, computers). Only infrastructure or equipment with a cost of $5,000 or more is considered a capital outlay from a financial perspective.
- Capital Improvement - A permanent addition to the City's infrastructure assets, including the design, construction, or purchase of land, buildings, or facilities, or major renovations of the same.
- Capital Improvement Program (CIP) - A financial plan for proposed capital improvement projects with single and multi-year capital expenditures. This program is typically for five-years and is updated annually.

One Year Plan

The FY2025-26 One-Year Capital Plan outlines the City's strategic investments in infrastructure, public facilities, and technology to support sustainable growth, improve service delivery, and enhance the quality of life for residents. This plan aligns with the City's long-term priorities and the Multi-Year Comprehensive Capital Improvement Plan (5-YR) strategies, while maintaining fiscal responsibility.

5-Year Capital Improvement Plan: FY2026 to FY2030

The 5-Year Capital Improvement Plan (CIP) serves as the City's roadmap for investing in essential infrastructure, public assets, and community development. It reflects a strategic, multi-year approach to building a safer, more equitable, and sustainable city by aligning infrastructure investments with community priorities, economic growth, and climate goals.

Due to known funding gaps in the water, sewer, and solid waste funds. The capital projects related to these funds that were recently approved in the Fiscal Year 2024-25 Water and Sewer rate studies will be put on hold until funding is available through bond issuance.

City Wide Records Management Program

Overview

Request Owner	Ana Rodriguez, Administrative Assistant III
Department	City Clerk
Type	Capital Equipment
Project Number	18041

Description

The plan will focus on providing onboarding and ongoing support to city departments in the implementation of records management systems, public transparency and programs. This includes, but is not limited to, the creation and maintenance of the Laserfiche document repository system, the creation of electronic forms and workflows, the maintenance and update to the City's records retention schedule to ensure compliance with legal requirements and best practices for proper storage, retrieval, and disposition of records. This is the final year of the project.

Navigation Center & Affordable Housing

Overview

Request Owner	Vielka Guarascio, Homeless & Housing Services Manager
Department	City Manager
Type	Capital Improvement
Project Number	24001

Description

The Navigation Center is a low-barrier facility providing wraparound services to support individuals experiencing homelessness. It will offer shelter beds for adult men and women, pathways to transitional housing, and connections to affordable housing opportunities. The center focuses on comprehensive support, including case management, mental health services, and employment assistance, to help individuals achieve stability and long-term housing solutions.

(1) Development Services Vehicle

Overview

Request Owner	Kristy Smith, Administrative Assistant III
Department	Community Development
Type	Capital Equipment

Description

Purchase of a new Toyota RAV4 vehicle for department use.

- The current vehicle is a 2006 Pontiac that is nearing 20 years, is unreliable, and not good condition (multiple interior items in need of replacement) especially to be utilizing as a vehicle representative of the department and the City.

Details

New Purchase or Replacement: New

New or Used Vehicle: New Vehicle

Broadband Fiber Master Plan

Overview

Request Owner	Kristy Smith, Administrative Assistant III
Department	Community Development
Type	Other
Project Number	23038

Description

The Broadband Fiber Master Plan (funded by Local Area Technical Assistance (LATA) grant funding through the CPUC) is to determine the underserved areas of the city and create a plan to provide services to the residents and businesses in those areas. The successful implementation of this plan will lead to increased jobs, telehealth opportunities, provide valuable infrastructure to support remote work, and increase the competitive value of Manteca for business attraction.

Downtown Specific Plan

Overview

Request Owner Kristy Smith, Administrative Assistant III

Department Community Development

Type Other

Project Number 24003

Description

The Downtown Specific Plan would integrate sustainability policies and recommendations into the City planning strategies for Downtown Manteca. It would help provide a unique vision for downtown Manteca to ensure continued growth and revitalization that benefits downtown residents and the larger community. The plan will provide sound policy and guidance on development, land use, transportation, economic development, housing, public spaces, and cultural arts.

Project was originally funded in FY24, but defunded in FY25. The project is moving forward in FY26.

Family Entertainment Zone (FEZ)

Overview

Request Owner	Kristy Smith, Administrative Assistant III
Department	Community Development
Type	Other
Project Number	24002

Description

Family Entertainment Zone (FEZ) Feasibility/Capacity Analysis, Fiscal Study, FEZ Master Plan Update, Marketing. (Previous project 20058 was unfunded for 3 years and closed out with no activity). In order to adequately plan for, implement, and develop the FEZ, additional work is needed to address market changes related to development. Additionally, a comprehensive marketing campaign will be essential to promoting the site as a premier development opportunity.

General Plan Update & Zoning Code Conformity

Overview

Request Owner	Kristy Smith, Administrative Assistant III
Department	Community Development
Type	Other
Project Number	16023

Description

The General Plan should be updated about every 10 years. The last General Plan Update was completed in 2003. Manteca is overdue for this update. The Zoning Code Conformity should occur immediately following the General Plan Update. Conformity of Manteca's Zoning Code took ten years after the 2003 General Plan Update to complete. These two processes are being combined into a single contract to ensure a timely and efficient completion of long range planning and subsequent zoning implementation.

New Permitting Software for Development Services

Overview

Request Owner	Kristy Smith, Administrative Assistant III
Department	Community Development
Type	Capital Equipment
Project Number	22019

Description

A complete permitting software is being requested for Development Services that will replace the current software after selection through a formal RFP process. The desired software will allow for the removal of other software currently being used while increasing service to customers through GIS integration, plan check integration, more robust online permitting, and much more. Further, the goal is for integration with the City's current financial system to ensure functionality and compatibility remains. A previous RFP identified several vendors that would allow for these benefits to staff and customers through streamlining and ease of use.

SB 2 Grant - Housing Facilitation Policies and Program Plan

Overview

Request Owner Kristy Smith, Administrative Assistant III

Department Community Development

Type Other

Project Number 22059

Description

The SB 2 Grant is a funding program from the State intended to support the adoption and implementation of policies and programs that streamline housing production at the local level. The City has used the funds received to work with a consultant on the preparation of an update to the City's Zoning Code for consistency with State Law and to enhance opportunities to streamline the production of housing.

16041 - Water Master Plan & Rate Study

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Other
Project Number	22041

Description

A water master plan evaluates the City's water utilities considering the existing infrastructure conditions, water supply availability, water quality requirements, and future growth. This project includes an Interim Rate Study to determine water rates in the short term and a Final Rate Study once the Water Master Plan is completed. Additional studies include a hydraulic water model, and other studies to identify potential groundwater storage alternatives. The City's current water master plan was completed in 2005 and the water rate study was completed in 2008. Updated plans are needed to reflect new and future development, comply with new water regulations for groundwater, and determine the need for other facilities like additional well sites.

2025 Pavement Maintenance Project

Overview

Request Owner	Alfredo Mijango, Assistant Engineer
Department	Engineering
Type	Capital Improvement

Project Location

Description

The 2025 Pavement Maintenance Program (PMP) project includes the streets within the project boundary east of Highway 99. The project may include micro-surfacing, cape seal, dig-out repairs, crack seal and new road striping. The maintenance objective is to protect the asphalt cement and extend the life of the road.

Location Area: East HW 99

2025 PFIP Sewer, Water, Storm Drain & Transportation Update

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	19005
Estimated Start Date	01/1/1970
Estimated Completion Date	01/1/1970

Description

The 2018 PFIP Sewer, Water & Storm Drain Update was changed to be a new Public Facilities Infrastructure Plan (PFIP) for 2025. It includes past deficiencies such as utility pole relocation costs as well as several newly identified PFIP infrastructure improvements.

2025 Urban Water Management Plan

Overview

Request Owner Carrie Whitney, Management Analyst

Department Engineering

Type Other

Description

2025 Urban Water Management Plan Update.

This capital project involves the development and submission of the 2025 Urban Water Management Plan (UWMP) in compliance with state requirements. The plan will assess current and projected water demands, supply reliability, conservation efforts, and climate change impacts through 2045. The scope includes data analysis, stakeholder engagement, coordination with regional agencies, and preparation of the final UWMP for adoption and submittal to the California Department of Water Resources (DWR).

All-Way Stop Sign for Moffat Blvd and Powers Ave

Overview

Request Owner	Beshoy Demyan, Senior Engineer
Department	Engineering
Type	Capital Improvement
Estimated Start Date	07/1/2025
Estimated Completion Date	05/31/2026

Project Location

Description

Per Consultant study and recommendation, installing the all-way stop sign and upgrading the striping and bike lane at the intersection of Moffat Blvd and Powers Ave is required. The proposed alley sign must be solar with flashing red mounted on Type 1-A pole. Two new streetlights are to be added at the intersection.

Engineering Building Expansion

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Estimated Start Date	07/1/2025

Project Location

Description

The Engineering Building Expansion project involves the annexation and renovation of the North Wing, previously designated as the Recreation area, to accommodate the growing needs of the Engineering Department. This expansion aims to provide additional office space, collaborative work areas, and support facilities for new and existing staff. Project will include the transformation of the former recreation space into modern office space, furniture, IT system support, and flexible workspaces for City staff.

Local Roadway Safety Plan

Overview

Request Owner	Beshoy Demyan, Senior Engineer
Department	Engineering
Type	Other
Project Number	22037

Description

Local Roadway Safety Plan (LRSP) Grant will be used to assess the overall corridors and arterial roadway conditions within the City of Manteca. This assessment plan will be used to develop a prioritization plan to prioritize roadway improvements/rehabilitation projects within the City boundary.

Main Street: Northgate Dr. to Alameda St

Overview

Request Owner	Kyzen Nicolas, Associate Engineer
Department	Engineering
Type	Capital Improvement
Project Number	20005
Estimated Start Date	10/4/2023
Estimated Completion Date	06/30/2026

Project Location

Description

Install Class II bike lanes, raised medians, pedestrian median fencing, curb ramps, enhanced pedestrian crossings, and modify the traffic signal detector loops along Main St. Install pedestrian hybrid beacon (HAWK) signal at Main St & Edison St intersection.

Nile Garden - Well 30 Construction

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	21034
Estimated Start Date	01/1/1970
Estimated Completion Date	01/1/1970

Project Location

Description

The Nile Garden - Well 30 Construction Project includes the construction of new potable water Well 30 and approximately 1.3 miles of pipeline to Nile Garde Elementary School. The project will bring much-needed reliability and treatment to the City of Manteca's potable groundwater supply south of Woodward Avenue, and specifically to Nile Garden Elementary School. The project will provide students and faculty members at the school with safe drinking water. The City of Manteca is financing the installation of a short segment of pipe needed for this project, but the majority of the project is being financed by a grant from the State Water Board.

Retroreflective Traffic Sign Project HSIPL 5242-033

Overview

Request Owner Beshoy Demyan, Senior Engineer

Department Engineering

Type Capital Equipment

Project Number 16027

Description

Develop and implement a plan to maintain traffic signs in accordance with the Manual on Uniform Traffic Control Devices (MUTCD Section 2A.08), which outlines the requirements and guidelines for ensuring that traffic signs maintain a sufficient level of reflectivity, particularly at night, to be visible and effective for road users.

Safe Route to Schools

Overview

Request Owner	Kyzen Nicolas, Associate Engineer
Department	Engineering
Type	Capital Improvement
Project Number	23006
Estimated Start Date	04/1/2024
Estimated Completion Date	06/30/2026

Description

The proposed Safe Route To School (SRTS) project will implement pedestrian safety improvements for students' safety and encourage healthy activities such as walking and biking. This project will construct new crosswalks, ADA-compliant curb ramps, Class II buffered bike lines, and a median refuge island. Over 6,000 students that attend the four elementary schools and two high schools within the project boundary will benefit directly from improvements.

Storm Drain Zone 36 & 39 Backbone Design

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	20004
Estimated Start Date	01/1/1970
Estimated Completion Date	01/1/1970

Project Location

Description

The City of Manteca and the Oakwood Lake Water District (OLWD) propose to construct a stormwater conveyance network through Oakwood Shores to discharge into the San Joaquin River. The proposed project intends to provide a regional drainage solution for Zone 39 and a mechanism to minimize increases in future flows discharged from Zone 36 to the French Camp Outlet Canal (FCOC). The proposed project site is located in the southwest quadrant of Manteca, and would stretch along Woodward Avenue, South Woodward Avenue, Aplicella Court, through Reclamation District 17 (RD-17) land to the OLWD wastewater treatment plant (WWTP). Woodward Avenue and South Woodward Avenue are two-lane rural roads with ongoing agricultural operations on private land fronting the roadways. Aplicella Court leads to Oakwood Shores, a gated, low-density residential subdivision in San Joaquin County. RD-17 parcels are located south of Aplicella Court across from existing private residences in Oakwood Shores. The OLWD WWTP is located west of the RD-17, between Aplicella Court and the San Joaquin River. Completion of the proposed project would accommodate planned developments in South Manteca as the current storm drainage system will not be able to support the increase in the quantity of new developments. The proposed project consists of a regional gravity drain, a storm drain pump station, a storm drain force main, and a river outfall. The proposed storm water conveyance network would be consistent with the City of Manteca 2013 Storm Drain Master Plan(SDMP).

The Zone 39 – Regional Pump Station, FM & Pipeline project is listed as an improvement needed immediately to either solve serious existing deficiencies or to support pending development projects in the SDMP.

Storm Drain Zone 36 & 39 Backbone Design: this project will provide for a terminal 66" storm drainage trunk line extending approximately from the intersection of Bella Lago/Woodward down Woodward to Aplicella and turning west to a new pump station in the SW quadrant of Aplicella/Woodward; then a 48" force main from the pump station west to the outfall point near the former OLWD sewer treatment facility (see map exhibit below). This will provide terminal drainage for Zones 36 & 39. Once completed, the various storm basins in these zones can be reclaimed and developed, which will support economic development and vitality.

Stormwater Master Plan Update

Overview

Request Owner Carrie Whitney, Management Analyst

Department Engineering

Type Other

Description

This capital project involves updating the Stormwater Master Plan to reflect current system conditions, land use changes, regulatory requirements, and climate impacts. The updated plan will evaluate existing infrastructure, identify capacity deficiencies, prioritize improvement projects, and incorporate green infrastructure and resilience strategies. The scope includes data collection, hydrologic and hydraulic modeling, and preparation of the final plan for adoption.

Traffic Signal Update HSIPL 5242(034)

Overview

Request Owner	Beshoy Demyan, Senior Engineer
Department	Engineering
Type	Capital Improvement
Project Number	17058
Estimated Start Date	01/27/2025
Estimated Completion Date	12/31/2025

Project Location

Manteca

Description

The HSIP 5242(034) Grant will assess existing traffic signals and develop a plan for replacing and updating traffic signal timing, upgrade the existing Model 170 traffic controllers to Model 2070 Traffic Controllers, and update the traffic indicators and backplates. It also includes a citywide corridor analysis and developing an integrated traffic management system.

Water & Sewer Pipe Installation at Corwin & Suess

Overview

Request Owner	Kyzen Nicolas, Associate Engineer
Department	Engineering
Type	Capital Improvement
Project Number	23008
Estimated Start Date	12/1/2022
Estimated Completion Date	09/3/2024

Project Location

Description

The small neighborhood with 19 properties in Corwin Dr and Suess Ct doesn't have any water and sanitary sewer pipes since it was annexed from the County to the City. After in-house design is done, construction including two fire hydrants, water and sewer lateral to each property line will be implemented. The project also includes microsurfacing after pipe installation work is done. The project will provide the vital infrastructure, e.g., water & sewer lines and fire hydrants, for the small community at Corwin Dr and Suess Ct. The aging water wells and septic tanks will be decommissioned by the property owners in compliance with the City and/or County standards.

WCS-06 Central Union Rd Trunk Extension

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	24004
Estimated Start Date	02/6/2025
Estimated Completion Date	02/2/2028

Project Location

Description

Per Wastewater Master Plan (WCS-6), previously titled "CIPP Liner Project," includes constructing a new 36" sewer from Union Road to Airport Way near the Cart Path, south of the golf course and decommissioning Union Road Lift Station.

There is an estimated $9.5M in FY25. There will be a carryforward reduction of $5M and project budget will be reduced to $4.5M in FY26.

WCS-28 Oak (Main to Willow)

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Estimated Start Date	01/1/2026
Estimated Completion Date	12/31/2028

Project Location

Description

This project is part of the City's Sewer Rate Study, which was part of a comprehensive financial analysis conducted by the City to ensure regulatory compliance, long-term service reliability while promoting transparency and developing a sustainable rate structure.

The Sewer rate study projects will help meet City's long-term capital needs and is part of the ongoing rehabilitation and replacement Wastewater Collection System (WCS) Project 28.

The location will be Oak Street from Main Street to Willow and the scope of the project is currently under evaluation and will be determined during the planning and design phase of the project.

Well 29 TCP Treatment Design

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	22058
Estimated Start Date	01/1/1970
Estimated Completion Date	01/1/1970

Project Location

Description

A water treatment system for 1,2,3-Thrichloropropane (TCP) will be installed at Well 29. TCP is an exclusively man-made chemical that was used by farmers in the area between the 1950s and 1980s. Levels of TCP exceeding State standard were detected in the water produced from Well 29. The TCP treatment system will bring levels of TCP back into compliance with State standards.

WMP 6 Pipe Replace/Upsize: Marin/Moffat-Lassen/Powers

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Estimated Start Date	01/1/2029
Estimated Completion Date	12/31/2031

Project Location

Description

This project is part of the Water Master Plan and Water Rate Study that will help meet City's long-term capital needs.

Water pipe replacement and upsizing of 6-inch pipes to 8-inch, including reconnecting services and abandonment of old pipes within the area of Marin Street to Moffat Blvd and Powers Avenue to Lassen Avenue.

WQCF- 22 Install New Waste Heat Radiator

Overview

Request Owner Carrie Whitney, Management Analyst

Department Engineering

Type Capital Improvement

Description

This capital project involves the procurement and installation of a new waste radiator system to replace the existing unit at the Public Works Water Quality Control Facility. The new radiator will improve thermal efficiency, support better heat recovery from waste streams, and ensure compliance with updated environmental and operational standards.

WQCF-03: Flow Split Repair - North Plant

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	23002
Estimated Start Date	02/1/2025
Estimated Completion Date	02/7/2026

Description

Fixed flow split into the North Plant aeration basins so that the full capacity of each basin can be achieved. Drought conditions and water conservation in recent years have resulted in increased wastewater strength carrying less water to the Wastewater Quality Control Facility (WQCF). The average Biochemical Oxygen Demand (BOD) is now 372 milligrams per liter (mg/L), compared to 310 mg/L in the Phase III Basis of Design Report (a 20% increase). Similarly, the average Total Kjeldahl Nitrogen (TKN) has increased from 35 mg/L to 60 mg/L (a 71% increase).

WQCF-03: Process Aeration Control - Both Plants

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	23004
Estimated Start Date	02/1/2025
Estimated Completion Date	02/7/2026

Description

Add process aeration control at both plants to improve monitoring and control of denitrification. Drought conditions and water conservation in recent years have resulted in increased wastewater strength carrying less water to the Wastewater Quality Control Facility (WQCF). The average Biochemical Oxygen Demand (BOD) is now 372 milligrams per liter (mg/L), compared to 310 mg/L in the Phase III Basis of Design Report (a 20% increase). Similarly, the average Total Kjeldahl Nitrogen (TKN) has increased from 35 mg/L to 60 mg/L (a 71% increase).

WQCF-03: Zone B Mixing System - Both Plants

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	23005
Estimated Start Date	02/1/2025
Estimated Completion Date	02/7/2026

Description

Add new independent mixing system to Zone B in each aeration basin of both plants to allow full turn down of aeration without settling solids to improve denitrification. Drought conditions and water conservation in recent years have resulted in increased wastewater strength carrying less water to the Wastewater Quality Control Facility (WQCF). The average Biochemical Oxygen Demand (BOD) is now 372 milligrams per liter (mg/L), compared to 310 mg/L in the Phase III Basis of Design Report (a 20% increase). Similarly, the average Total Kjeldahl Nitrogen (TKN) has increased from 35 mg/L to 60 mg/L (a 71% increase).

WQCF-04 Side Stream Treatment

Overview

Request Owner	Kyzen Nicolas, Associate Engineer
Department	Engineering
Type	Capital Improvement
Project Number	25005
Estimated Start Date	01/1/2025
Estimated Completion Date	02/27/2027

Description

Treat the centrate from the Centrifuges to reduce the nitrogen load to the plant and stay in compliance with the NPDES permit requirements.

There is an estimated $8.9M in current FY25 project budget. Project carryforward of $5.5M and project funding will be reduced to $3,470,000 for FY26.

WQCF-10 I&E Switchgear PLC Upgrades

Overview

Request Owner Carrie Whitney, Management Analyst

Department Engineering

Type Capital Improvement

Description

This project is part of the Sewer Rate Study and will help meet the City's long-term capital needs.

Upgrading switchgear and power system Programmable Logic Controllers (PLCs) is crucial for enhancing safety, reliability, and efficiency in electrical systems. Modern switchgear and PLCs offer improved safety features, better monitoring and control, extended equipment lifespan, and increased energy efficiency, ultimately reducing downtime and operational costs.

WQCF-14 UV Disinfection System Upgrade CIP 25004

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement
Project Number	25004
Estimated Start Date	02/6/2025
Estimated Completion Date	06/30/2027

Description

This project is included in the Wastewater Master Plan. The ultraviolet (UV) system is used for disinfection of plant tertiary effluent before discharging to the San Joaquin River. UV is under-performing leading to violations. This upgrade is needed to correct the system.

WQCF-16 Replace Secondary Effluent Equalization Pond Liner

Overview

Request Owner	Alfredo Mijango, Assistant Engineer
Department	Engineering
Type	Capital Improvement

Project Location

Description

Replace the Secondary Effluent Equalization Pond Liner. A liner in a secondary effluent equalization pond is crucial for wastewater treatment to prevent seepage, which could contaminate groundwater and drinking water sources. The liner acts as an impermeable barrier, ensuring treated wastewater remains within the pond and doesn't infiltrate into the surrounding environment. This protection is vital for maintaining water quality and complying with environmental regulations.

WQCF-17 Headworks Screen No. 3

Overview

Request Owner	Alfredo Mijango, Assistant Engineer
Department	Engineering
Type	Capital Improvement

Project Location

Description

This project is part of the Sewer Rate Study and will help meet City's long-term capital needs.

Replace Headworks Screen No. 3. The headworks in a wastewater treatment plant are crucial because they remove large inorganic materials like debris, grit, and trash from the wastewater flow before it enters the main treatment processes. This ensures the protection of downstream equipment and enhances the overall efficiency of the treatment plant.

WQCF-21 Digester Pressure Relief Valves Platform & Handrailing

Overview

Request Owner	Carrie Whitney, Management Analyst
Department	Engineering
Type	Capital Improvement

Description

WQCF -21 Digester Pressure Relief Valves Platform & Handrailing

This capital project involves the design and installation of an access platform and safety handrailing for the digester pressure relief valves. The new platform will provide safe and compliant access for operations and maintenance personnel, reducing fall hazards and improving overall safety. The scope includes structural design, fabrication, installation, and associated site modifications as required.

Conex Box Training Prop (Phase 1)

Overview

Request Owner	Aimee Rubio, Executive Assistant-Public Safety
Department	Fire Department
Type	Capital Improvement
Project Number	25015

Description

Project Overview – Phase 1

This project represents the first phase of a two-phase training ground development plan. The prop will consist of three Conex boxes placed on a concrete foundation, designed for expandability and modular upgrades in the future. Not only will this structure support a wide range of realistic fire ground evolutions, but it is also designed to be relocatable should we transition to a permanent training facility in the future.

Cost Breakdown

- **Concrete Foundation:** $25,000
- **Conex Boxes (3 total):** $13,000
- **Total Estimated Cost: $38,000**

While the costs outlined above will not cover the entirety of the project, they represent a significant portion. The remaining expenses will be covered by available Cal-JAC funds, ensuring no impact to the department's operating budget.

Benefits

- Enhances hands-on, scenario-based training for fire personnel
- Improves safety and preparedness
- Long-term, cost-effective investment
- Designed for future expansion and relocation

Fire Station No. 6

Overview

Request Owner	David Rudat, Interim Fire Chief
Department	Fire Department
Type	Capital Improvement

Project Location

Description

Overview:

The City of Manteca plans to construct a new fire station in the Southwest part of the city to enhance response times, improve emergency services, and better serve the community as it grows. This proposal outlines the financial requirements and phases for the new fire station, with a total estimated cost of $11 million, distributed over three fiscal years: FY26, FY27, and FY28.

Description:

The new fire station will address the increased need for emergency response services in the growing Southwest region of Manteca. The station will be strategically located to ensure quick access to underserved areas, reducing response times and improving public safety. The fire station will include modern facilities such as office space, apparatus bays, dormitories, training rooms, and equipment storage. The project will be funded in phases:

- **FY26:** Site selection and architectural design ($1 million).
- **FY27 and FY28:** Construction and operationalization of the station ($10 million split over two years).

Purpose and Need:

The need for a new fire station in Southwest Manteca is driven by several factors:

- **Population Growth:** As Manteca continues to experience residential and commercial expansion, there is a growing demand for emergency services in the Southwest area.
- **Response Time Improvement:** The new fire station will reduce response times to incidents in the Southwest region, ensuring faster response to emergencies, which is critical for saving lives and minimizing property damage.
- **Service Area Coverage:** The addition of a new station will increase coverage and allow Manteca Fire Department (MFD) to better serve all city neighborhoods, reducing the pressure on existing fire stations.
- **Operational Efficiency:** With a new fire station located strategically in the Southwest, the Fire Department will be able to operate more efficiently, deploying resources where they are most needed.

Scope of Work:

1. **Phase 1: Site Selection and Architectural Design (FY26 - $1,000,000)**
    - **Objective:** Secure an appropriate site and finalize architectural designs for the new fire station.
    - **Tasks:**
        - Site selection, evaluation of locations, and acquisition.
        - Architectural and engineering design services for the station.

        - Preparation of building plans, including layout for apparatus bays, office spaces, training rooms, dormitories, and support areas.
        - Zoning, permitting, and environmental review.
    - **Estimated Cost:** $1,000,000
2. **Phase 2: Construction of Fire Station (FY27 - $5,000,000)**
    - **Objective:** Begin the construction of the new fire station based on approved designs.
    - **Tasks:**
        - Site preparation, excavation, and grading.
        - Foundation work and structural framing.
        - Building infrastructure (plumbing, electrical, HVAC systems).
        - Installation of fire station-specific features such as apparatus bays, equipment storage, and training facilities.
        - Interior finishing and furnishing of offices, dormitories, and common areas.
    - **Estimated Cost (FY27):** $5,000,000
3. **Phase 3: Completion and Operationalization (FY28 - $5,000,000)**
    - **Objective:** Complete construction and equip the new fire station for full operational readiness.
    - **Tasks:**
        - Final construction and inspection.
        - Purchase and installation of fire apparatus and specialized equipment.
        - Staffing of the fire station with necessary personnel (firefighters, officers, administrative staff).
        - Training of personnel on station-specific operations.
        - Establishment of operational protocols and procedures.
    - **Estimated Cost (FY28):** $5,000,000

Estimated Budget Breakdown:

Category	Estimated Cost (FY26)	Estimated Cost (FY27)	Estimated Cost (FY28)
Site Selection & Architectural Design	$1,000,000	N/A	N/A
Construction & Infrastructure	N/A	$5,000,000	N/A
Completion, Equipment & Staffing	N/A	N/A	$5,000,000
Total Estimated Cost	**$1,000,000**	**$5,000,000**	**$5,000,000**
Total for Entire Project	**$1,000,000**	**$10,000,000**	

Project Timeline:

- **FY26 (Year 1):**
    - **Q1-Q2:** Site selection, evaluation, and acquisition.
    - **Q3-Q4:** Finalize architectural design, obtain necessary permits, and prepare for construction.
- **FY27 (Year 2):**
    - **Q1-Q4:** Begin construction; complete the foundation, structural work, and internal infrastructure.
- **FY28 (Year 3):**
    - **Q1-Q4:** Complete construction, install equipment, staff the station, and operationalize the facility.

Conclusion:

The proposed new fire station in the Southwest part of Manteca is essential to improving response times, increasing service capacity, and supporting the city's growing population. The phased funding approach of $1 million for site selection and design in FY26, followed by $10 million for construction in FY27 and FY28, ensures the successful completion of the project. The new station will enhance the overall safety of Manteca's residents and provide a critical resource for the Fire Department to meet future demands. With this strategic investment, the City of Manteca will improve its emergency response capabilities, supporting both current and future public safety needs.

Heavy Rescue Vehicle

Overview

Request Owner	Jeff Dennis, Battalion Chief
Department	Fire Department
Type	Capital Equipment

Description

Budget Proposal Description: Purchase of Heavy Rescue Vehicle

Overview:
This proposal seeks funding for the purchase of a **Heavy Rescue Vehicle (HRV)** to enhance our department's ability to respond to complex and large-scale emergencies. The HRV will be equipped with state-of-the-art rescue tools and specialized equipment to effectively manage incidents such as vehicle extrications, confined space rescues, structural collapses, hazardous material incidents, and other technical rescue operations. By investing in this vehicle, the department will improve response capabilities, increase firefighter safety, and ensure more efficient and effective emergency services for the City of Manteca.

Justification for Need:
As emergency response scenarios become more complex, there is an increasing need for specialized equipment to address these challenges. Currently, our fleet lacks a dedicated heavy rescue unit capable of managing a wide range of technical rescues and specialized operations. The department relies on shared equipment with other city departments, and this equipment is dispersed across various vehicles, including trailers and unstaffed apparatus located throughout the city. Introducing a **Heavy Rescue Vehicle (HRV)** will enable the Fire Department to respond more effectively and efficiently, offering the following benefits:

- **Enhanced Rescue Capabilities:** The HRV will be equipped with advanced rescue tools, including hydraulic extrication tools, ropes, and cutting equipment. These tools are essential for managing complex rescue scenarios, such as vehicle accidents, confined space rescues, and structural collapses. Additionally, the HRV will feature an on-board Self-Contained Breathing Apparatus (SCBA) bottle filling station, that can fill bottles at the scene of an emergency. Currently, the only filling station available is at a fire station, which requires staff to leave the scene to replenish bottles or refill them after an incident.
- **Specialized Equipment Storage:** With increased storage capacity, the HRV will ensure that the Fire Department has immediate access to critical equipment, including heavy-duty hydraulic systems, air bags, winches, ropes, stabilization equipment. This will help streamline operations and reduce response times.
- **Improved Safety for Firefighters:** The HRV will be equipped with modern safety and communication technologies that allow for better coordination between teams during emergency operations. Enhanced safety features also reduce the risk of injury to first responders in dangerous or hazardous environments.
- **Multi-Purpose Use:** In addition to rescuing individuals from accidents or structural collapse, the HRV will be equipped for hazardous materials incidents, water rescues, and fire suppression operations, providing a versatile tool for multiple emergency scenarios.
- **Operational Efficiency:** The HRV will increase operational efficiency by consolidating a wide array of rescue and emergency response equipment into one vehicle, reducing the need for multiple vehicles and providing better organization of tools and resources.
- **Expansion of Services:** The HRV will be located at **Station 6** and is essential for expanding services within the city. The addition of **Manteca Fire Station 6** will improve response times and meet **NFPA 1710 standards**. Furthermore, with the introduction of this HRV, we will enhance our service delivery, making it more efficient for specialized operations.

Cost Breakdown:
The estimated cost of purchasing the **Heavy Rescue Vehicle** is **$2,000,000**.

Contingency for Change Orders:
In accordance with the **City of Manteca purchasing policy**, this purchase would be subject to a **3% contingency** for possible change orders. The contingency amount for this purchase would be **$60,000**, bringing the total possible **Capital Improvement Project (CIP)** allocation to **$2,060,000**.

Funding Source:
The acquisition of the **Heavy Rescue Vehicle (HRV)** will be fully funded, with the total cost being covered entirely by **Fire Facility Fees**.

Sourcewell Agreement:
This purchase will be made under the **Sourcewell Agreement**, a national cooperative purchasing program that allows the City of Manteca to leverage group purchasing power for better pricing, ensuring we receive competitive and fair rates for the HRV procurement.

Total Request:
$2,000,000 for Purchase

$2,060,000 Total CIP for contingency

Conclusion:
The acquisition of a **Heavy Rescue Vehicle** will provide the Fire Department with a critical resource to enhance our ability to respond to a diverse range of emergencies. By investing in this vehicle, the department will be better equipped to handle complex rescues, protect public safety, and maintain the high standard of service that the community expects. We request your support in funding this important purchase, ensuring that our first responders have the tools necessary to safely and efficiently manage emergency situations.

Radio Communications Infrastructure Upgrade (formally 22015)

Overview

Request Owner Jeff Dennis, Battalion Chief

Department Fire Department

Type Capital Equipment

Project Number 24009

Description

The City of Manteca Fire Department is in the process of a system-wide radio infrastructure upgrade by Motorola Solutions. Our current system is antiquated and often fails, with inadequate coverage throughout the City of Manteca. It is the product of many years of just getting by and repairing broken pieces as needed. The aging equipment is difficult to find parts for and replacement units are outdated refurbished pieces that are difficult to locate. This has become a safety issue for the citizens we serve and our firefighters during emergency operations. This upgrade is currently in process and will bring our emergency communications system up to modern standards. This infrastructure upgrade is anticipated to be completed by end of calendar year 2025.

Stock Fire Engine

Overview

Request Owner	Jeff Dennis, Battalion Chief
Department	Fire Department
Type	Capital Equipment
Project Number	25010

Description

One (1) 2025 Pierce Manufacturing, Inc. STOCK Saber 1500 GPM Type 1 Engine. This CIP includes funds for manufacturer change orders and some equipping of the apparatus. This apparatus was an emergency purchase that became available unexpectedly from the manufacturer through Golden State Fire Apparatus. This apparatus is currently in production and expected to be completed by March 2025. This fire engine upon arrival to the City of Manteca will immediately go into frontline status.

Storage and Dorms Building at Station 5

Overview

Request Owner	Franco Torrice, Battalion Chief
Department	Fire Department
Type	Capital Improvement

Project Location

Description

Overview:

The City of Manteca Fire Department proposes the construction of a Butler Building on a 30'x60' gravel plot behind Fire Station #5. This building will provide much-needed storage space for fire equipment that was not adequately accommodated when Station #5 was completed in June 2020. The project aims to resolve storage shortages, protect valuable equipment, and optimize the operations of Station #5. The estimated cost for this project is $250,000, to be completed in FY26.

Description:

The 30'x60' gravel plot behind Fire Station #5 was left incomplete after the station's construction in 2020. The Fire Department has faced ongoing issues with inadequate storage for fire apparatus, equipment, and supplies, which compromises the efficiency and safety of operations. The proposed Butler Building will provide a secure, weather-resistant storage space for equipment such as fire hoses, tools, spare parts, and auxiliary vehicles. This project will help optimize the use of available land and support operational readiness by providing easy access to critical resources.

Purpose and Need:

The need for a Butler Building is driven by the following factors:

- **Inadequate Storage:** The existing storage at Station #5 is insufficient to accommodate the growing inventory of fire equipment and supplies, which has resulted in disorganized, makeshift storage arrangements that are less efficient.
- **Protection of Equipment:** Storing fire equipment outdoors exposes it to wear and tear from the elements, shortening its lifespan and compromising its reliability in emergencies.
- **Operational Efficiency:** A dedicated storage space will streamline the Fire Department's operations by ensuring that equipment is stored securely and organized for easy access when needed.
- **Utilization of Existing Property:** The 30'x60' gravel plot behind Station #5 is an underutilized space that can be developed without significant additional land acquisition costs.

Scope of Work:

1. **Phase 1: Site Preparation (FY26 - $25,000)**
    - **Objective:** Prepare the 30'x60' gravel plot for the construction of the Butler Building.
    - **Tasks:**
        - Clear the site and level the ground.
        - Lay the necessary foundation for the Butler Building.
        - Ensure the site is properly graded for water drainage and to support the structure.
    - **Estimated Cost:** $25,000

2. **Phase 2: Butler Building Construction (FY26 - $200,000)**
    - **Objective:** Construct a 30'x60' Butler Building to serve as secure storage for fire equipment.
    - **Tasks:**
        - Build the steel structure of the Butler Building, including walls, roof, and doors.
        - Install necessary electrical and lighting systems for safe operation.
        - Install flooring and shelving for equipment storage.
        - Provide secure access to the building, including entry and exit points.
    - **Estimated Cost:** $200,000
3. **Phase 3: Site Finishing & Equipment Setup (FY26 - $25,000)**
    - **Objective:** Finalize the construction and ensure the building is fully operational for storage needs.
    - **Tasks:**
        - Install exterior lighting and security cameras for safety and protection of equipment.
        - Organize the interior of the building with shelving, racks, and cabinets for efficient storage.
        - Install any remaining necessary equipment (e.g., ventilation, fire extinguishers, etc.).
    - **Estimated Cost:** $25,000

Estimated Budget Breakdown:

Category	Estimated Cost
Phase 1: Site Preparation	$25,000
Phase 2: Butler Building Construction	$200,000
Phase 3: Site Finishing & Equipment Setup	$25,000
Total Estimated Cost	**$250,000**

Project Timeline:

- **FY26 (Year 1):**
    - **Q1:** Site preparation (clearing, leveling, foundation work).
    - **Q2-Q3:** Butler Building construction (structural work, roofing, and door installation).
    - **Q4:** Site finishing, security installation, and equipment setup.

Conclusion:

The proposed Butler Building storage project will address the current storage limitations at Fire Station #5, providing essential space for fire equipment and supplies. By utilizing the existing 30'x60' gravel plot, the City of Manteca can efficiently resolve the equipment storage shortage without the need for additional land acquisition. The total estimated cost for the project is $250,000, which will cover site preparation, construction of the building, and final site finishing. The completion of this project will greatly enhance the operational efficiency of Fire Station #5 and ensure that the Fire Department has secure and organized access to all its equipment when needed.

This investment will improve the longevity and reliability of critical fire apparatus and ensure that the Manteca Fire Department remains well-equipped and ready for emergencies in the years to come.

Tiller Equipment

Overview

Request Owner	Aimee Rubio, Executive Assistant-Public Safety
Department	Fire Department
Type	Capital Equipment
Project Number	24008

Description

With the arrival of our new aerial tiller truck coming in the spring of 2024 we need to begin purchasing it's equipment compliment. The aerial tiller truck is a unique apparatus, as such it carries a wide variety of highly specialized tools and equipment. Among this equipment would be extrication tools, ventilation fans, stabilization and shoring tools, medical supplies and various power tools. The vast majority of equipment on our current truck is outdated and will remain on the old truck when the new one arrives. This will allow us to have a backup truck that is fully equipped and ready to respond if needed. Our operational model utilizes the truck at every structure fire, high speed vehicle accident, technical rescue, and hazardous material spill. Due to the high risk associated with these types of incidents it is paramount that the equipment on the aerial tiller truck be highly functional and reliable.

Updating Obsolete SCBA Packs

Overview

Request Owner	Jeff Dennis, Battalion Chief
Department	Fire Department
Type	Capital Equipment

Description

Budget Proposal for Updating Scott SCBA Packs for the Manteca Fire Department

Project Overview: This proposal outlines the funding requirements to replace the Manteca Fire Department's existing Scott Self-Contained Breathing Apparatus (SCBA) packs, which are currently from the 2007 model year. The department seeks to update these packs to meet the latest National Fire Protection Association (NFPA) standards. The total budget required for this project is $1,000,000, to be spread over two fiscal years: $500,000 for fiscal year 2025-26 and $500,000 for fiscal year 2026-27.

Purpose and Need: The current SCBA packs have served the department for nearly 18 years, but they are now outdated and no longer comply with the latest NFPA standards. These packs are three model generations behind the current standards, which could compromise the safety of our personnel in high-risk situations. Upgrading to new SCBA packs will provide our firefighters with the latest technology for protection during fire suppression operations and hazardous materials incidents.

Key issues with the current SCBA packs include:

- **Outdated Equipment:** The packs are 18 years old and no longer meet the latest safety advancements in design, materials, and technology.
- **Non-Compliance with Current NFPA Standards:** The current packs are outdated by three model generations compared to the latest NFPA standards, which are essential for firefighter safety and operational efficiency.
- **Safety Concerns:** As firefighting techniques and hazards evolve, so must the equipment. Outdated SCBA packs put firefighters at risk due to limitations in air supply, comfort, and communication features.

Upgrading to the latest models will ensure that Manteca Fire Department personnel are fully equipped with state-of-the-art life-saving equipment that meets or exceeds the current NFPA standards. This will not only improve safety but also enhance operational effectiveness during emergency responses.

Scope of Work: The project will involve the following steps:

- **Procurement of New SCBA Packs:** Purchase of Scott SCBA packs that meet the current NFPA standards, including all necessary accessories such as facepieces, air cylinders, and communication systems.
- **Replacement of Current Equipment:** The outdated 2007 model packs will be replaced with new units across the department's fleet.
- **Training for Fire Department Personnel:** Comprehensive training on the new SCBA packs, ensuring all personnel are familiar with the updated systems, operation, and maintenance procedures.
- **Testing and Calibration:** Full testing and calibration of the new SCBA packs to ensure they meet all safety and operational standards.
- **Disposal of Old Equipment:** Safe disposal and decommissioning of the outdated SCBA packs.

Budget Breakdown: The total cost of updating the SCBA packs over two fiscal years is $1,000,000. The following is an estimated cost breakdown for each fiscal year:

1. **Fiscal Year 2025-26 (First Year):**

- Procurement of 50% of the SCBA packs and associated equipment: $500,000

2. **Fiscal Year 2026-27 (Second Year):**
   - Procurement of remaining 50% of the SCBA packs: $500,000

Total Estimated Cost: $1,000,000 (spread across both fiscal years)

Funding Source: The total funding required for this project is $1,000,000, which is recommended to be allocated from either General Fund, PSST, or Measure Q.

Conclusion: This budget proposal requests approval to replace the Manteca Fire Department's outdated Scott SCBA packs, which are currently 18 years old and three models behind the latest NFPA standards. Upgrading to the newest models is essential for maintaining firefighter safety and operational readiness.

By spreading the purchase over two fiscal years, we can ensure a smooth transition and full compliance with current safety standards.

Your support for this necessary equipment upgrade will help provide our firefighters with the best possible gear, enabling them to respond to emergencies safely and effectively, thus protecting both their well-being and the safety of our community.

Used Fire Apparatus & Equipment

Overview

Request Owner Jeff Dennis, Battalion Chief

Department Fire Department

Type Capital Equipment

Project Number 24080

Description

Used Fire Apparatus & Equipment Budget. This budget allows for the purchase of used fire apparatus as it becomes available, and some of the supplies needed to equip these apparatus. Our fire fleet over the years has become very outdated with both numerous and extended out of service times. In order to add depth to our fire fleet in the quickest most fiscally responsible manner, we are utilizing a combination of both new and used purchases. We have thus far purchased 1 used type 1 fire engine and 1 used staff vehicle. We anticipate 2 additional used type 1 fire engines will be available by the end of this fiscal year.

Citywide Secure Card Key Access Expansion

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Equipment
Project Number	22004

Description

- **FY25:** Funding is requested for the initial phase of implementing a secure card key entry system across key City facilities. This project aims to enhance security measures, improve access control, and increase operational efficiency by streamlining entry for authorized personnel. Establishing this system will strengthen facility security, reduce unauthorized access risks, and lay the foundation for future expansion as part of the City's commitment to modernizing infrastructure and maintaining public safety.
- **FY26:** Funding is requested to continue the expansion of the secure card key entry system across additional City facilities. Last year, the initial phase of implementation successfully improved security and operational efficiency by streamlining access control in multiple buildings. Expanding the system further will enhance safety, strengthen facility security, and ensure consistent, controlled access across more locations.

CMS Website Update

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Equipment
Project Number	21028

Description

Funding is requested to redesign and upgrade the City's internal and external websites. This project aims to improve user experience, enhance accessibility, and modernize the website’s functionality to better serve both the public and City staff. Upgrading the websites will provide a more user-friendly interface, improved navigation, and enhanced security, ensuring efficient access to important information and services. Funding will support design, development, and implementation efforts to create a more responsive and efficient online platform.

Fiber Optic Cabling Citywide

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Equipment
Project Number	22006

Description

Funding is requested to upgrade the City's aging fiber infrastructure and expand fiber connectivity to Fire Station 1, Well 19, and the Corporation Yard. Upgrading the existing fiber network will enhance reliability, speed, and security, ensuring continued support for critical operations. Expanding fiber to these key locations will improve network performance, communication, and operational efficiency for essential City services.

FIRE - Analog-to-IP Converters

Overview

Request Owner Pennie Arounsack, Director of IT

Department Information Technology

Type Capital Equipment

Description

Three of the Fire Department radio towers are connected using analog phone lines, which have proven to be unreliable. Additionally, carriers are actively phasing out analog phone line infrastructure. Purchasing these converters will enable the radio infrastructure at these towers to operate over our more reliable fiber optic (IP) network, significantly strengthening public safety communications.

GIS Plotter

Overview

Request Owner	Erie Luces, IT Applications Manager
Department	Information Technology
Type	Capital Equipment

Description

GIS Division: The existing HP plotter used by the GIS department is now five years old and requires replacement. This plotter is a critical tool for producing large-format maps and graphics that support various city departments. It is heavily used for printing city wall maps displayed in conference rooms, council district maps, general plan maps, and posters for city events.

Due to continuous high-volume use, the current plotter is experiencing wear and reduced efficiency, impacting the quality and timeliness of printed materials. Replacing it with a newer model will ensure continued support for departmental mapping needs while improving print quality and operational efficiency.

IT Strategic Plan

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Other
Project Number	22003

Description

FY25 - Funding is requested to develop an IT Strategic Plan to guide the refinement, growth, and innovation of the newly established IT department. For several years, IT has proposed the development of an IT Strategic Plan to establish a structured framework for technology planning and decision-making. This plan will assess current IT infrastructure, identify opportunities for improvement, and outline strategic initiatives to enhance operational efficiency, cybersecurity, and digital service delivery. Investing in an IT Strategic Plan will provide a roadmap for modernizing the City's technology landscape, ensuring that IT resources are effectively managed to support City operations and community needs. Funding will support consulting services, stakeholder engagement, and the development of a comprehensive plan that aligns IT initiatives with the City's broader objectives.

FY26 - Funding is requested to support the implementation of the City's IT Strategic Plan. The City has been working with consultants to finalize this plan, which provides a comprehensive roadmap for refining, growing, and modernizing the IT department to align with operational needs and City Council priorities. With the planning phase underway, the next critical step is securing funding to execute the strategic initiatives outlined in the plan.

The implementation phase will focus on key priorities such as upgrading IT infrastructure, enhancing cybersecurity measures, improving digital services for residents and staff, and optimizing resource management. This investment will ensure the IT department is equipped to support the City's long-term technology needs while increasing efficiency, security, and innovation.

Funding will be used for system upgrades, technology investments, staff training, and other necessary initiatives to bring the IT Strategic Plan to fruition. This request aligns with the City's commitment to modernizing infrastructure, improving service delivery, and ensuring the successful execution of Council goals.

Network Switch Replacement

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Equipment
Project Number	24011

Description

Funding is requested to replace 21 network switches that have reached the manufacturer's end-of-life. End-of-life status means the hardware is no longer supported, and software updates will no longer be provided, posing potential security and operational risks. These switches are essential for maintaining connectivity for critical systems, including computers, phones, security cameras, and door access control systems. This request includes the procurement of new switches and all necessary related hardware to ensure continued network reliability and security.

New Server Room

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Improvement
Project Number	22064

Description

Funding is requested to support the advancement of solutions for meeting the City's growing IT infrastructure needs. This investment will allow for a comprehensive assessment of space, power, cooling, security, and expansion requirements while also providing flexibility to explore creative approaches for securing server capacity, whether through new construction, upgrades to existing facilities, or alternative solutions. The project will focus on ensuring reliable, secure, and scalable IT infrastructure to support City operations. This funding will be used for planning efforts, feasibility assessments, and initial development work, allowing the City to adapt its approach as needed to optimize resources and meet future demands effectively.

Off-site Disaster Recovery Services

Overview

Request Owner	Pennie Arounsack, Director of IT
Department	Information Technology
Type	Capital Equipment

Description

FY25: This funding request is to support the establishment and securing of an offsite disaster recovery site, which is essential for ensuring business continuity and minimizing operational downtime in the event of unforeseen disruptions. In the case of a natural disaster, cyber-attack, or any other catastrophic incident affecting the primary business location, an offsite facility will serve as a secure and geographically separate backup.

FY26: This funding request will cover the following:

- Procurement of hardware, including servers themselves
- Licensing costs
- Professional services for installation, maintenance, and support

Once implemented, ongoing licensing and maintenance expenses will be incorporated into the operational budget.

Maintaining a disaster recovery (DR) server infrastructure is essential. These servers provide a dedicated environment for restoring the city's IT systems in the event of a natural disaster, cyber-attack, or any other catastrophic event that might impact the primary server infrastructure. Neighboring cities that have experienced cyberattacks have underscored the critical importance of having disaster recovery servers in place to expedite recovery, minimize downtime, and ensure business continuity. Our current disaster recovery servers are over 10 years old, have reached end-of-life status, and are no longer supported by the manufacturer. Upgrading this infrastructure is crucial to maintaining a reliable and effective disaster recovery strategy.

IT - Battery Backup Unit Replacements

Overview

Request Owner Pennie Arounsack, Director of IT

Department Information Technology

Type Capital Equipment

Description

Replace older battery backup units at City Hall, Fire Station 5, Development Services, and the Manteca Library. These units supply clean, reliable power to critical network and phone equipment at these locations, ensuring continued network reliability and phone functionality during brief power outages or brownouts. Replacing these units is essential to maintaining uninterrupted operations and communication.

(3) M4T Drones

Overview

Request Owner Ian Osborn, lieutenant

Department Police Department

Type Capital Equipment

Description

The acquisition of these drones will enable the Unmanned Aircraft Systems (UAS) unit to continue providing exceptional service while meeting growing operational demands. This investment supports our department's mission to enhance public safety through innovative solutions.

The police department currently has 5 outdoor drones, two for large pre-planned events and three that are used daily by patrol. We also have 2 indoor/outdoor drones primarily used for clearing the inside of buildings/houses. These drones get a lot of use, so far this year we have flown 169 individual flights for various reasons. The largest use is patrol by far. These new drones are a newer version of what we currently fly and will not replace the ones purchased last year but help reduce the hours flown to make the fleet last longer. For a successful drone operation at a PD our size, new drones will need to be purchased yearly. Some larger, and some smaller depending on the use.

(5) Marked Vehicles - Patrol

Overview

Request Owner	Karen Hernandez, Administrative Assistant III
Department	Police Department
Type	Capital Equipment
Project Number	24015

Description

We are in need of 5 new marked police vehicles that need to be fully outfitted for patrol use. Our vehicles are aging with several having over 100K miles and as we add more patrol staff there are fewer vehicles to drive. The vehicle equipment will include emergency lights and sirens, prisoner transport equipment, center console for electronics, partition, computer and mount, radio, in car camera video system and other miscellaneous equipment.

Axon Fleet 3

Overview

Request Owner Juliana Whorton, Budget Analyst

Department Police Department

Type Capital Equipment

Description

The Axon platform seamlessly integrates police equipment including body worn cameras, tasers, and Fleet 3 and the storage of their associated evidence. Having a single manufacturer for multiple technologies has provided officers with systems that look and feel similar while integrating with one another. Axon provides equipment refreshes at no additional cost to the city when the included equipment becomes obsolete, which has provided the city with the ability to maintain a supply of advanced technology.

Axon OSP10+

Overview

Request Owner Paul Carmona, Police Captain

Department Police Department

Type Capital Equipment

Description

To enhance officer safety, improve evidence collection, and ensure accountability, our department seeks to acquire the **Axon Officer Safety Plan 10+ (OSP10+).** This comprehensive system offers cutting-edge technology that integrates **body-worn cameras, TASER energy weapons, digital evidence management, and real-time connectivity**—all critical components in modern policing. The Axon Body 4 cameras provide live-streaming capabilities, enabling real-time situational awareness for supervisors and dispatch. This feature is invaluable during high-risk incidents, ensuring that officers receive immediate backup when necessary. The TASER 10, included in OSP10+, provides a safer, more effective, less-lethal option for officers, offering increased accuracy and greater range than previous models. The improved probe deployment and multiple-shot capability enhance de-escalation efforts, reducing injuries to officers and subjects. The combination of live-streaming, automatic activation, and secure evidence storage strengthens transparency and accountability, fostering trust between officers and the community.

Investing in **Axon OSP10+** is a critical step toward modernizing our department, enhancing officer safety, improving evidence integrity, and fostering public trust**.** With the growing demand for police accountability, real-time connectivity, and digital evidence management, this solution ensures our officers are equipped with the best tools available to serve and protect the community effectively.

We strongly recommend moving forward with the acquisition of **Axon OSP10+** to support the long-term success and efficiency of our department.

Dispatch Backup Battery

Overview

Request Owner	Karen Hernandez, Administrative Assistant III
Department	Police Department
Type	Capital Equipment
Project Number	24016

Description

When the Department loses power, a diesel generator automatically activates in order to maintain the critical systems necessary for the Department to function normally. During the time between power being lost and the generator turning on and supplying power, however, systems will crash without an instantaneous supply of emergency backup power. For several years, the Department has relied on an emergency battery system to supply this critical power until the generator can handle the load. The current battery system we use is no longer supported by the manufacturer/service provider. We have currently renewing our service agreement with the provider, but we must replace this antiquated system as soon as possible in order to avoid a crash our system.

Event Safety Barriers - Meridian Barrier

Overview

Request Owner Stephen Schluer, Interim Police Chief

Department Police Department

Type Capital Equipment

Description

FY26 Budget Request: Event Safety Barriers

The recent terrorist attack on New Year's Eve in New Orleans underscores the importance of prioritizing public safety at large gatherings. The City of Manteca hosts two major downtown events annually—the Pumpkin Fair and the Watermelon Festival—along with numerous other events such as Market on Maple, Halloween Trunk or Treat, wine strolls, and more. These events attract thousands of residents and visitors, making their safety our top priority.

To enhance security and mitigate the risk of a similar incident, we propose the purchase of the **Meridian Archer Kit 1000**, a proven barrier system designed to protect large crowds. This kit serves as a foundational security measure and can be expanded as needed. The package includes:

- **10 Archer 1200 Barriers** (including two additional units beyond the base kit)
- **1 Archer Hauler 2.0**
- **2 Archer Field Tow Bars**
- **7 Archer Arrestor Cables (4 ft.)**
- **1 Archer Rapid Gate Kit**
- **1 Archer Wayfinding Package**
- **7 ADA 3-Channel Cable Covers**
- **1 Archer Hauler Mount**
- **2 ADA Cover Compartments**
- **1 Beam Gate Cradle**

Investing in these barriers will significantly enhance the safety of our public events, reducing vulnerabilities and ensuring a secure environment for all attendees.

Faro Focus Laser Scanning Capture Device (3D Scanner)

Overview

Request Owner Juliana Whorton, Budget Analyst

Department Police Department

Type Capital Equipment

Description

Faro 3D Scanner and 3D Software:

The importance of quality and detailed scene documentation is vital for evidence preservation, courtroom testimony, major crash scenes and crime scene reconstruction. Over the past decade, Faro 3D scanners have become an industry standard for Law Enforcement. Instead of two-dimensional plot points used with a traditional total station, the Faro 3D scanner captures the entire scene as viewed by the investigator at the time of the incident. Once the Faro 3D scanner is calibrated and positioned within a crash/crime scene, the device is activated and captures the scene with a 360-degree automated scan.

With automated scanning, work productively is increased by 50% in comparison to a total station. With increased productively time, officers will have the ability to investigate and process a collision scene with more effectively and efficiently while reducing potential overtime costs caused by prolonged investigations and road closure times. The Faro 3D scanner will effectively create cost savings and reduce community disruption. This request includes the necessary hardware, laptop and software required to 1001 operate the systems effectively. *Please see the attached Faro brochure for additional information. Product spotlight I, https://www.faro.com/en/Industries/Law-Enforcement.

Faro 3D Scanner and 3D Software. **$85,000** total equipment purchase to include hardware (3D scanner, tripod, independent laptop) and related 3D software.

New Police Department

Overview

Request Owner	Karen Hernandez, Administrative Assistant III
Department	Police Department
Type	Other
Project Number	24071

Description

The Police Department conducted a feasibility study and conceptual design for this project, and it was presented and approved by the City Council at the City Council Regular Meeting of August 20,2024. On September 23, 2024, the Police Department entered into contract with Griffin Structures, to manage and oversee the Request for Proposal for, and work associated with, the Architecture and Engineering phases. On November 8, 2024, a Request for Proposal for the Architecture & Engineering Services was released and due back on December 6, 2024. The City received six proposals that were reviewed by the committee and selected the top three firms to be interview on January 8, 2025. As a result of the interviews the committee selected LPA, Inc. The project scope has evolved from a feasibility study and conceptual design to the architecture and engineering design, and as a result the project name will be changed to New Manteca Police Department Headquarters.

PD Locker Room & Breakroom Renovations

Overview

Request Owner Karen Hernandez, Administrative Assistant III

Department Police Department

Type Capital Improvement

Project Number 25007

Description

Renovation of dilapidated Women's and Men's locker rooms as well as the common break room. These improvements aim to enhance officer wellness, morale, and comfort by addressing critical areas within the women's and men's locker rooms as well as the break room connected to the detective's building.

PD Vehicles

Overview

Request Owner	Paul Carmona, Police Captain
Department	Police Department
Type	Capital Equipment

Description

The police department is in need of new marked and unmarked police vehicles as well as PD Pool vehicles. We have several vehicles in the fleet that are old, have high mileage and are becoming unreliable for police use. The marked vehicles will need to be fully outfitted for patrol use. The vehicle equipment for marked vehicles will include emergency lights and sirens, prisoner transport equipment, center console for electronics, partition, computer and mount, radio, in-camera video system, and other miscellaneous equipment. These cars are needed for our Street Crime Unit (SCU), Detective units and Patrol.

Wrapped Animal Control Vehicle - ARPA

Overview

Request Owner Paul Carmona, Police Captain

Department Police Department

Type Capital Equipment

Project Number 25016

Description

We are in need of 1 new animal control vehicle that needs to be fully outfitted for animal control use. Of the three animal control vehicles, two have over 100K miles and are in dire need of replacing.
We currently have 3 full-time animal control officers and 3 part-time officers. There are more officers than trucks, which potentially increases emergency response as well as normal response times.
The vehicle equipment will include a light bar, animal transport equipment, a center console for electronics, computer and mount, radio and other miscellaneous equipment.

Quotes are pending but the amount shown is what the cost was in FY24.

Replacing Vehicle 65-8556.

(2) Part Washers (Light Duty & Heavy Duty)

Overview

Request Owner	Christine Villanueva, Administrative Assistant III
Department	Public Works
Type	Capital Equipment
Project Number	24030

Description

Fleet Division: Close project. Two parts washers. 1 heavy duty, 1 light duty. Environmentally friendly, uses water-soluble detergents, which is part of the new requirements. New equipment in which parts will be used to clean vehicle parts for use on repairs. This will replace a lease agreement and save the City money in the long term.

2 Replacement VFD's for 2 Wells - Water

Overview

Request Owner Erma Patrick, Management Analyst

Department Public Works

Type Capital Equipment

Project Number 22034

Description

Rollover CIP 22034 - 2 replacement VFD's for 2 wells. Because VFD's currently in service are obsolete, parts are no longer available for future repairs. This is a critical and costly component; the well facility cannot produce water without the VFD.

Advanced Water Meter Infrastructure

Overview

Request Owner	Erma Patrick, Management Analyst
Department	Public Works
Type	Capital Equipment
Project Number	24056

Description

Conversion of the City's existing water meter system to a cellular-based system. This would eliminate the need for staff to physically collect water meter reads from water customers in order to generate water consumption billing by the Finance Department. The conversion includes a new software program, integration with New World and cellular-based end points connected to City Water Meters. The software program has a City interface as well as a customer interface. Funding is needed for purchasing meter reading components, water meters and associated appurtenances. Project may involve labor by City staff and/or contracted vendor(s).

Asphalt Patch Truck

Overview

Request Owner	Christine Villanueva, Administrative Assistant III
Department	Public Works
Type	Capital Equipment
Project Number	24077

Description

The Asphalt Patch Truck makes quick pothole repairs by carrying hot asphalt and patching equipment. It’s crucial for keeping roads smooth and safe, especially after rain or cold weather damage.

Basketball Courts Resurfacing & Improvements

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	22021

Description

Project Scope of Work:

1. **Basketball Court Renovation**:
    - Resurface the existing basketball courts to restore the playing surface and provide a smoother, safer area for recreational use.
    - Restripe the courts where possible to standard basketball regulations, ensuring clear, visible markings for the playing area, including three-point lines, free-throw lines, and center court markings.
    - Renovate or replace backboards, ensuring durability and safety for all users.
2. **ADA Accessibility Improvements**:
    - Add walkways to parks lacking adequate pedestrian paths to improve accessibility for individuals with disabilities.
    - Ensure all walkways comply with ADA guidelines for proper width, slope, and surface texture, facilitating smooth and safe access to basketball courts and other park amenities.

Parks Anticipated to be involved:

- Colony Park
- Crestwood Park
- Doxey Park
- Greystone Park
- Hildebrand Park
- Mayors Park
- Quail Ridge Park
- Sequoia Park
- Southside Park
- Springtime Park
- St. Francis Park
- Union West Park
- William Martin Park
- Yosemite Park

To determine which parks should be addressed first in this project, staff will focus on factors such as the current condition of the basketball courts, existing ADA accessibility issues, and overall park usage. Typically, the "worst" parks would be those where basketball courts are in the most need of renovation (e.g., cracks, faded or unclear markings, broken backboards) and where ADA accessibility is either lacking or insufficient.

Project Objectives:

- Improve the quality and safety of the basketball courts for all users.
- Ensure ADA compliance by enhancing accessibility to key park amenities.
- Provide long-term durability through high-quality materials and renovation techniques.
- Enhance the overall aesthetic appeal and usability of the parks for community members.

This project will significantly improve the recreational experience for park visitors, fostering an inclusive environment where all individuals, regardless of ability, can enjoy outdoor activities.

CIP 21006 - Headworks Barscreen

Overview

Request Owner	Erma Patrick, Management Analyst
Department	Public Works
Type	Capital Equipment
Project Number	21006

Description

This project will involve the purchase and installation of a new barscreen at the Water Quality Control Facility (WQCF), increasing the total number of operational barscreens to three. The existing barscreens are experiencing frequent failures, often on a weekly basis. Replacement parts are no longer manufactured and must be sourced from third-party vendors, such as Ebay, which do not offer warranties. Installing a new barscreen will enhance system reliability, reduce maintenance costs, and ensure continued operational efficiency.

Evans Park Improvements

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	25008

Description

Project Overview:

The goal of this project is to enhance the recreational experience at Evans Park by adding a shade shelter and picnic tables to provide park visitors with comfortable, shaded areas for relaxation, dining, and social gatherings. This project aims to improve park amenities, encourage outdoor engagement, and create a welcoming environment for community members of all ages.

Objectives:

1. **Provide Comfortable Shaded Areas**: Install a durable shade shelter in a central location to offer protection from the sun, ensuring visitors can enjoy outdoor activities without exposure to harsh weather conditions.
2. **Increase Accessibility and Convenience**: Place multiple picnic tables beneath the shade shelter, creating a designated area for picnics, group gatherings, and outdoor events. The tables will be designed to accommodate individuals, families, and groups with ease.
3. **Enhance Park Aesthetics**: Design the shade shelter and picnic tables to complement the park's natural environment and overall aesthetic, ensuring that the structures blend seamlessly with the existing landscape.
4. **Encourage Community Engagement**: By providing a comfortable and functional space, this project will encourage more community gatherings, outdoor events, and family activities, contributing to the overall vitality and sense of community within the park.
5. **Increase Visitor Capacity**: The addition of these amenities will make the park more appealing for a variety of events, such as family reunions, picnics, and community celebrations, thereby increasing park usage and visitor satisfaction.

By meeting these objectives, the project will contribute to creating a vibrant, sustainable community space that serves as a hub for recreation and social connection.

Furniture & ADA Improvements to Sycamore Building

Overview

Request Owner	Christine Villanueva, Administrative Assistant III
Department	Public Works
Type	Capital Equipment
Project Number	23009

Description

The Human Resources and Risk Management Department will be relocating from 1001 W. Center Street to 124 Sycamore in the fall of 2022. As a result, we will need to furnish the new office with workstations, desks, chairs and lobby seating. The furniture in our current location must remain for the next department moving in. ADA improvements may also be necessary before opening to the public.

FY26 Golf Fee Rate Study

Overview

Request Owner Loretta Olmos, Senior Budget Analyst

Department Public Works

Type Other

Description

The City of Manteca is conducting a comprehensive Golf Study to evaluate the financial performance of its municipal golf operations. This study aims to assess current revenues and expenses, identify key cost drivers, and explore opportunities to enhance operational efficiency and long-term sustainability. The goal is to develop data-driven strategies that will improve the overall health of the Golf Fund, ensure continued community access to quality golf amenities, and support responsible fiscal management.

Golf Cart Path & Curb Installation

Overview

Request Owner	Eric Eguaras, Golf Course Supervisor
Department	Public Works
Type	Capital Improvement
Project Number	24034

Description

Golf Division

Phase 1 of 5

Project scope of work: Installation of Concrete Cart Paths and Curbs Around Greens and Tees. A few existing concrete paths have been developed. However, the majority of the golf course are dirt paths with no control of cart traffic, causing large areas of unsightly bare soil, potholes, and standing water.

1. **Cart Path installation**:
    - Install new concrete cart path in general locations of existing cart path, making minor adjustments where possible.
    - Minor adjustments in topography where needed or required to make the cart paths have a smooth experience.
    - Adjust and Renovate adjacent turf and irrigation where needed.
2. **Curb Placement** :
    - Strategically locate curbs to help protect the Greens and Tees.

Project Objectives:

- **Protection of Turf:** By controlling cart movement, the risk of turf damage around greens and tees will be significantly reduced, resulting in healthier and more visually appealing playing areas.
- **Improved Course Aesthetics:** The introduction of concrete paths and curbs will not only preserve the course's turf but also elevate the course's overall visual appeal, contributing to a more professional and cohesive design.
- **Enhanced Player Experience:** Golfers will benefit from a more organized and controlled path system, reducing interruptions and providing a smoother, more enjoyable playing experience.
- **Safety and Efficiency:** Ensure smooth, safe navigation for players and carts around greens and tees.

This project is designed to bring long-term improvements to the golf course.

Lighting at Woodward Park

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	24093

Description

Project Overview:

The objective of this project is to enhance the safety and security of the Woodward Community Park basketball courts by installing high-quality, energy-efficient security lighting around the facility. This initiative aims to provide improved visibility during evening hours, reduce the risk of criminal activity, and ensure a safer environment for players and visitors. The project will focus on strategically placing lighting fixtures to cover key areas of the courts, walkways, and surrounding spaces.

Project Objectives:

- Improve visibility and safety for users of the Woodward Basketball Courts during evening and night-time hours.
- Deter potential criminal activity and vandalism by enhancing the lighting around the courts and surrounding areas.
- Promote a positive and secure recreational environment for the community.
- Utilize energy-efficient solutions to minimize operational costs and environmental impact.

The completion of this project will result in enhanced security, greater community engagement, and an overall improvement in the quality of the recreational experience at the Woodward Community Park basketball courts.

Morenzone Park Restroom Replacement

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	25001
Estimated Start Date	03/1/2025
Estimated Completion Date	06/30/2026

Project Location

Description

Project Overview

The existing wood restroom building has been severely damaged due to repeated break-ins and vandalism, with non-functional doors and a repeatedly compromised electrical system. This project involves removing the damaged structure and installing a premanufactured restroom building, providing a durable, secure, and functional solution that minimizes future maintenance and vandalism risks.

Project Objectives

- Demolish and remove the damaged wood restroom building.
- Install a premanufactured restroom facility designed for durability and security.
- Ensure the new restroom includes tamper-resistant features, operational doors, and an intact electrical system.
- Implement security enhancements to deter future vandalism.
- Complete the installation in compliance with local building codes and accessibility standards.

Northgate Park Inclusive Playground and Improvements

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	24087

Description

Project Description:

The Inclusive Playground at Northgate Park aims to create an accessible, engaging, and safe play environment for children of all abilities. This new playground will incorporate universal design principles, ensuring that children with disabilities, as well as those without, can play together and enjoy the benefits of outdoor recreation. The playground will feature swings, sensory play areas, and interactive elements designed to stimulate physical, cognitive, and social development for children with varying needs.

In addition to being accessible, the design will prioritize inclusivity by offering various sensory experiences, from tactile surfaces to visual elements and sound features. The space will also include seating areas for families and caregivers, fostering a sense of community and connection among visitors.

This project represents a commitment to fostering diversity, equity, and inclusion within the Northgate community, ensuring that every child, regardless of ability, has the opportunity to experience the joy of play. By creating a welcoming and versatile environment, the Inclusive Playground will serve as a valuable resource for families, encourage social interactions, and enhance the overall park experience for everyone.

Key Features:

- ADA-compliant pathways, and surfacing
- Accessible swings and inclusive climbing structures
- Sensory gardens and interactive elements
- Customizable play zones to accommodate children with various abilities
- Seating areas for families and caregivers
- Integration of natural elements and green spaces
- Safety features including soft ground materials and clear sightlines for supervision

This playground will be an essential addition to Northgate Park, ensuring that all children, regardless of their physical, cognitive, or sensory needs, have a place to learn, explore, and thrive.

PW - Parks - 3/4-ton Truck Replacement

Overview

Request Owner Eric Dye, Parks/Golf Maintenance Supervisor

Department Public Works

Type Capital Equipment

Description

Parks Division: This truck was primarily used to haul the small mower from park to park Monday through Wednesday and was used on Thursdays by staff for park maintenance and repairs. With this truck taken out of service (No. 90-91111), parks staff are sharing other vehicles now, which is inefficient and reducing current service levels.

PW - Streets - Sidewalks/Crosswalks Safety

Overview

Request Owner Lana McBroom, Budget Manager

Department Public Works

Type Capital Improvement

Project Number 25012

Description

This capital project focuses on enhancing pedestrian safety through targeted improvements to sidewalks and crosswalks in key areas. The scope includes repairing damaged sidewalks, upgrading curb ramps to meet ADA standards, installing high-visibility crosswalks, and adding signage or pedestrian signals where needed. These improvements aim to promote walkability, reduce trip hazards, and ensure safer access for all community members.

PW- LMD/CFD Replacement GO 4 Interceptor Cart

Overview

Request Owner Nicolas Karastathas, Landscape Maintenance Supervisor

Department Public Works

Type Capital Equipment

Description

LMD/CFD Division: Vehicle 9093 was purchased in 2014 and experiencing ongoing engine problems and old age have made the unit unusable. The replacement unit will help with pre-and post-emergent herbicide application in existing and new districts. With all the added responsibilities, 2 units are needed to keep up with the workload of the division. Unit includes spray tank and pump.

PW- Parks & LMD/CFD Replacement Chipper Truck

Overview

Request Owner	Nicolas Karastathas, Landscape Maintenance Supervisor
Department	Public Works
Type	Capital Equipment

Description

LMD/CFD & Parks Divisions: The Parks and LMD divisions are asking for this shared truck to be replaced. Unit 90-9049 is 30 years old. It was retired in FY 25 due to excessive maintenance costs. Both divisions will utilize this vehicle for their tree maintenance programs. Staff will be able to mobilize and complete work in a more timely and effective manner.

Replace Fencing along Crom Street

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Equipment
Project Number	24037

Description

Golf Division: Replace the chain link fence that runs along Crom Street that stretches from the 6th green to the 3rd green. The chain-link fence that runs along Crom Street is 20+ years old and has been damaged many times over the years by falling trees, car accidents and wear and tear over the years.

Replace Netting near #1 Fairway

Overview

Request Owner	Eric Eguaras, Golf Course Supervisor
Department	Public Works
Type	Capital Equipment
Project Number	24035

Description

Replace netting to the left of the 1st fairway that protects the apartment complex from incoming golf balls. The netting to the left of the 1st fairway is weathered and is tearing in many locations. The netting is over 10 years old and has been damaged by the heavy winds that have occurred during the winter.

Project is complete, and will be closed at FY25 yearend.

Replacement of 3 Electrical Panels

Overview

Request Owner	Erma Patrick, Management Analyst
Department	Public Works
Type	Capital Equipment
Project Number	24055

Description

Sewer Operations and Maintenance - Replacement of 3 Electrical Panels

This project involves the replacement of three aging electrical panels to improve the reliability, safety, and efficiency of the facility's electrical distribution system at the WQCF. The existing panels have reached the end of their service life and pose increased risks of failure and maintenance issues. The new panels will meet current electrical codes and standards, provide enhanced load management, and support future system upgrades.

Replacement of Covered Walkway

Overview

Request Owner	Christine Villanueva, Administrative Assistant III
Department	Public Works
Type	Capital Improvement
Project Number	23028

Description

The metal and wood-covered walkway at city hall has deteriorated beyond repair. This covered walkway also supports electrical conduits to multiple buildings. The wood has dry rot and has become a safety hazard for the citizens and employees of the City of Manteca. One beam has already collapsed, and we are concerned that more failures are imminent.

Solera Park Exercise Equipment

Overview

Request Owner	Lana McBroom, Budget Manager
Department	Public Works
Type	Capital Improvement
Estimated Start Date	07/1/2025
Estimated Completion Date	06/30/2026

Description

This capital project involves the installation of outdoor exercise equipment at Solera Park to promote health and wellness within the community. The scope includes the procurement and installation of a range of durable, weather-resistant fitness equipment such as various fitness equipment machines, pull-up bars, and balance features. The project will enhance recreational options, support active lifestyles, and provide a free, accessible fitness area for park visitors.

Storm Drain Improvements - Mellon Avenue

Overview

Request Owner Erma Patrick, Management Analyst

Department Public Works

Type Capital Improvement

Description

Improvements to the Mellon Ave Storm Drain are needed to ensure proper drainage. This area experiences local flooding during storm events. Public Works has conducted cleaning and maintenance in the surrounding area. The next step to improve the drainage is to fund a study to conduct a comprehensive assessment of the current storm drainage system and the design necessary for drainage enhancements.

Details

Type of Project: Other improvement

Benefit to Community

Expected Benefits are:

- Reduction in flood risks and water damage
- Improved environmental quality through better stormwater management
- Increased resilience to extreme weather events

Switchgear PLC Upgrades

Overview

Request Owner Erma Patrick, Management Analyst

Department Public Works

Type Capital Equipment

Project Number 20043

Description

This project involves upgrading existing switchgear and power system PLCs to the latest supported models. The upgrade will be performed by the original switchgear system manufacturer to ensure full compatibility and to maintain system integrity. Utilizing the manufacturer for the upgrade ensures that the new equipment is covered under warranty and meets current industry standards for reliability, safety, and performance.

Tidewater Bike Trial Resurfacing

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	22020
Estimated Start Date	12/1/2024
Estimated Completion Date	06/1/2026

Description

Project Overview:

The Tidewater Bike Trail Resurfacing project aims to revitalize a key segment of the bike trail, stretching from Louise Avenue to Lathrop Road. This project will address surface deterioration, enhance user safety, and improve accessibility for all trail users. By replacing this section, the project will ensure a smoother, more durable trail, better serving cyclists, pedestrians, and other recreational users while extending the lifespan of this vital community resource.

Project Objectives:

- Resurface the section of the Tidewater Bike Trail between Louise Avenue and Lathrop Road, creating a smooth, even surface that enhances the overall trail experience.
- Improve safety by addressing areas with cracks, potholes, and surface irregularities that pose potential hazards.
- Utilize high-quality, sustainable materials to ensure durability and long-term performance of the trail.
- Meet ADA guidelines to ensure accessibility for individuals with disabilities, promoting inclusivity for all users.
- Enhance drainage systems to prevent water damage and erosion, ensuring the trail remains functional and safe throughout the year.

Project Phase II (Garfield to Spreckels) FY26-FY27

The Tidewater bike trail is overdue for a resealing of the bikeway and has been for several years. Over the past several years the northern portions have been resurfaced and/or reconstructed. Resealing should be done every 5-8 years and the last time this portion was done was back 2007. There are some sections that need some repair prior to resealing. The last reseal used aggregate and caused some concerns with inline skate/razor scooters. This reseal will not use aggregate in the slurry mix and should address those concerns.

- Resurfacing and minor areas of reconstruction of the Tidewater Bike Trail from Garfield to Spreckels. Length of remaining path is approximately 3/4 of a mile or 4000 linear feet.

Water - Two (2) 1 Ton Service Trucks with Utility Beds

Overview

Request Owner George Montross, Deputy Director of Water Resources

Department Public Works

Type Capital Equipment

Description

Water Division: Fleet recommends replacement of two (2) 1 Ton Service Trucks with Utility beds.

The cost of repairs on the following vehicles has exceeded the vehicles' worth. Recommend saving money by purchasing new vehicles with an extended seven-year warranty for each.

1. New 1 ton service truck with utility bed to **replace 30-3028,** which is recommenced for replacement by the Fleet Division due to age and high maintenance costs.
2. New 1 ton service truck with utility bed to **replace 30-3034,** which is recommended for replacement by the Fleet Division due to high miles and high maintenance costs.

Water Division New Emergency Response Work Truck

Overview

Request Owner	George Montross, Deputy Director of Water Resources
Department	Public Works
Type	Capital Equipment

Description

The Water Division responds to emergency water leaks frequently. During this process, staff report to the emergency, evaluate the issue and return to the Water Yard to collect the needs parts and equipment. The proposed emergency work truck will securely stock parts and equipment needed to make 95% of water emergencies. With the growth of the City's Water System, this vehicle will also increase the Division's efficiency and productivity on routine tasks by eliminating the need to drive back to the Water Yard.

Woodward Dumpster Enclosure

Overview

Request Owner	Nicole Brown, Administrative Assistant III
Department	Public Works
Type	Capital Improvement
Project Number	24046

Description

Pre-fabricated Dumpster and Enclosure, concrete padding and landscaping. The project request is for the purchase and installation of a pre-fabricated single dumpster enclosure, concrete padding, and landscaping at the east lot of Woodward Park. The new enclosure will provide ample storage space and be equipped with a lock and cover to protect against weather damage and unauthorized access. Additionally, concrete padding and landscaping will be added to enhance the overall appearance and safety of the park, making it a more enjoyable experience for visitors while reducing the negative impact on the environment.

Woodward Park Splash Pad

Overview

Request Owner	Michael Rosales, Parks Planning & Development Manager
Department	Public Works
Type	Capital Improvement
Project Number	24086

Description

Project Description:

This project involves the development of a splash pad designed to create an exciting water play experience for children and families. The splash pad will generate a unique, flowing water pattern that not only adds to the sensory enjoyment of visitors but also serves as a striking aesthetic centerpiece for the park. The splash pad will be the focal point of an upgraded park area that encourages outdoor interaction and community engagement.

In addition to the splash pad, the project includes several key park improvements aimed at enhancing the overall visitor experience. These improvements include the replacement of the existing restroom building with a modern, pre-manufactured restroom facility, a new pump equipment building to support the splash pad, as well as the construction of shade canopies adjacent to the splash pad, providing much-needed shelter and enhancing the comfort of visitors. Landscaping upgrades will beautify the surrounding area, while enhanced seating areas and improved walkways will provide more comfortable and accessible spaces for park-goers. The project also prioritizes accessibility, ensuring that all amenities are inclusive and welcoming for individuals of all abilities.

The combination of these features aims to create an inviting and vibrant outdoor environment, offering a diverse range of activities for families, children, and the broader community to enjoy.

Objectives:

1. **Enhance the Park Experience:** Create a vibrant, engaging, and family-friendly space that encourages outdoor play, interaction, and community participation through the development of a visually captivating splash pad and surrounding amenities.
2. **Improve Accessibility:** Ensure the park is welcoming to all visitors by incorporating accessible pathways, seating, restrooms, and water features, meeting ADA standards to accommodate individuals of all abilities.
3. **Upgrade Facilities:** Replace outdated infrastructure, such as the restroom building, and install modern amenities including a new pump equipment building and improved landscaping to enhance the functionality and aesthetic appeal of the park.
4. **Encourage Outdoor Activity and Well-being:** Provide a safe, interactive, and comfortable environment that promotes physical activity and social interaction for people of all ages, fostering a healthy, active lifestyle within the community.
5. **Support Sustainability:** Utilize environmentally sustainable materials and practices throughout the project, including water-efficient features for the splash pad and sustainable landscaping solutions.

By meeting these objectives, the project will contribute to creating a vibrant, sustainable community space that serves as a hub for recreation and social connection.

WQCF Alternative Energy Development

Overview

Request Owner	Erma Patrick, Management Analyst
Department	Public Works
Type	Capital Improvement
Project Number	12013

Description

WQCF Alternative Energy Development:

The WQCF Alternative Energy Development project is focused on advancing the use of renewable and sustainable energy sources to support the operations of the Water Quality Control Facility (WQCF). The project aims to reduce the facility's dependence on non-renewable energy by integrating alternative energy solutions such as solar, wind, and bioenergy. This initiative will improve energy efficiency, lower operational costs, and support environmental stewardship by minimizing the facility’s carbon footprint.

Manteca Transit Bus Facility

Overview

Request Owner	Juan Portillo, Public Works Transit Manager
Department	Transit
Type	Capital Improvement
Project Number	24115

Description

Transit Division to start infrastructure for our Bus Facility which allows buses to be parked at this location and other enhancement amenities, which include: charging stations, lighting, bus wash, maintenance building (bus bays, office space, etc.) and other amenities. Transit Division is in the process of acquiring or designating land for the Manteca Transit Bus Facility to park City-owned buses. This project includes three phases:

Phase I: Environmental/Right of way acquisition
Phase II: Design
Phase III: Construction of the facility

The Transit Division has selected a consultant to provide Site Selection Services pertaining to Phase I to identify a potential site that could be suitable for use as a transit yard within the City of Manteca limits.

Glossary

Abatement: A reduction or elimination of a real or personal property tax, motor vehicle excise, a fee, charge, or special assessment imposed by a governmental unit. Granted only on application of the person seeking the abatement and only by the committing governmental unit.

Accounting System: The total structure of records and procedures that identify record, classify, and report information on the financial position and operations of a governmental unit or any of its funds, account groups, and organizational components.

Accrued Interest: The amount of interest that has accumulated on the debt since the date of the last interest payment, and on the sale of a bond, the amount accrued up to but not including the date of delivery (settlement date). (See Interest)

ACFR: Annual Comprehensive Financial Report - A detailed report of an organization's financial activities and performance over the fiscal year.

Activity: A specific and distinguishable line of work performed by one or more organizational components of a government for the purpose of accomplishing a function for which the government is responsible (e.g., the Police Department is an activity within the public safety function).

Adopted Budget: The City Council-approved annual budget establishing the legal authority for the expenditure of funds as set forth in the budget resolution adopted by Council.

Allocation: The portion of an appropriation which is designated for expenditure by specific organization units and/or for specific purposes.

Amortization: The gradual repayment of an obligation over time and in accordance with a predetermined payment schedule.

Annual Operating Budget: The City's spending plan of current expenditures and the proposed means of financing them. The annual operating budget is the primary controlling document for most of the City's spending, financing, and/or acquisition activities.

Appropriation: The legal authorization granted by a legislative body (the City Council) to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in both amount and time.

Arbitrage: As applied to municipal debt, the investment of tax-exempt bonds or note proceeds in higher yielding, taxable securities. Section 103 of the Internal Revenue Service (IRS) Code restricts this practice and requires (beyond certain limits) that earnings be rebated (paid) to the IRS.

Assessed Valuation: The valuation set upon real estate and certain personal property by the County Assessor as a basis for levying property taxes.

Assessment District: Not a separate government entity, but rather a defined area of land that will benefit from the acquisition, construction, or maintenance of a public improvement.

Assets: Items owned by an organization that have economic value, such as cash, investments, property, and equipment.

Audit: A systematic collection of sufficient and competent evidential matter needed to attest to the fairness of management's assertions in the financial statements, or to evaluate whether management has efficiently and effectively carried out its responsibility.

Audit Report: Prepared by an independent auditor, an audit report includes: (a) a statement of the scope of the audit; (b) explanatory comments as to application of auditing procedures; (c) findings and opinions. It is almost always accompanied by a management letter which contains supplementary comments and recommendations.

Available Funds: Balances in the various fund types that represent non-recurring revenue sources. As a matter of sound practice, they are frequently appropriated to meet unforeseen expenses, for capital expenditures or other one-time costs.

Balance Sheet: A statement that discloses the assets, liabilities, reserves and equities of a fund or governmental unit at a specified date.

Betterments (Special Assessments): Whenever a specific area of a community receives benefit from a public improvement (e.g., water, sewer, sidewalk, etc.), special property taxes may be assessed to reimburse the governmental entity for all or part of the costs it incurred. Each parcel receiving benefit from the improvement is assessed for its proportionate share of the cost of such improvements. The proportionate share may be paid in full or the property owner may request that the assessors apportion the betterment over 20 years. Over the life of the betterment, one year's apportionment along with one year's committed interest computed from October 1 to October 1 is added to the tax bill until the betterment has been paid.

Bond: A written promise to pay a specified sum of money (the face value of principal amount) together with interest calculated at a specified interest rate on a specified date(s) in the future (the maturity date(s)).

Bond and Interest Record: (Bond Register) – The permanent and complete record maintained by a treasurer for each bond issue. It shows the amount of interest and principal coming due each date and all other pertinent information concerning the bond issue.

Bonds Authorized and Unissued: Balance of a bond authorization not yet sold. Upon completion or abandonment of a project, any remaining balance of authorized and unissued bonds may not be used for other purposes, but must be rescinded by the community's legislative body to be removed from community's books.

Bond Issue: Generally, the sale of a certain number of bonds at one time by a governmental unit.

Bond Rating (Municipal): A credit rating assigned to a municipality to help investors assess the future ability, legal obligation, and willingness of the municipality (bond issuer) to make timely debt service payments. Stated otherwise, a rating helps prospective investors determine the level of risk associated with a given fixed-income investment. Rating agencies, such as Moody's and Standard and Poors, use rating systems, which designate a letter or a combination of letters and numerals where AAA is the highest rating and C1 is a very low rating.

Budget: A plan for allocating resources to support particular services, purposes and functions over a specified period of time. (See Performance Budget, Program Budget)

Budget Document: The instrument used by the budget-making authority (the City Manager) to present a comprehensive financial program to the appropriating body (the City Council).

Budget Message: A written general discussion of the proposed budget usually prepared by the City Manager and addressed to the legislative body (the City Council). The budget message usually contains: (1) an explanation of the principal budget items, (2) an outline of the City's experience in the prior year and its financial status at the time the message is prepared, and (3) expectations regarding the City's activities in the upcoming year along with recommendations of financial policy to carry out those expectations.

Capital Assets: All real and tangible property used in the operation of government, which is not easily converted into cash, and has an initial useful live extending beyond a single financial reporting period. Capital assets include land and land improvements; infrastructure such as roads, bridges, water and sewer lines; easements; buildings and building improvements; vehicles, machinery and equipment. Communities typically define capital assets in terms of a minimum useful life and a minimum initial cost. The majority of the City's capital assets are obtained as a result of completing its capital improvement projects. (See Fixed Assets)

Capital Budget: An appropriation or spending plan that uses borrowing or direct outlay for capital or fixed asset improvements. Among other information, a capital budget should identify the method of financing each recommended expenditure, i.e., tax levy or rates, and identify those items that were not recommended. (See Capital Assets, Fixed Assets)

Capital Improvement Program: A plan for purchasing, leasing, and/or constructing the equipment or property needed to complete the City's long-term improvement projects. The plan details expenditures by year for each project. The plan also specifies the resources estimated to be available to pay for the project expenditures.

Capital Outlay: Expenditures which become an acquisition that is an addition to fixed assets.

Cash: Currency, coin, checks, postal and express money orders and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits.

Cash Basis of Accounting: A basis of accounting under which revenues are recognized when cash is received and expenditures incurred when cash is paid.

Cash Flow: The movement of money into or out of an organization, showing its liquidity and ability to meet financial obligations.

Cash Management: The process of monitoring the ebb and flow of money in an out of municipal accounts to ensure cash availability to pay bills and to facilitate decisions on the need for short- term borrowing and investment of idle cash.

Certificate of Deposit (CD): A bank deposit evidenced by a negotiable or non-negotiable instrument, which provides on its face that the amount of such deposit plus a specified interest payable to a bearer or to any specified person on a certain specified date, at the expiration of a certain specified time, or upon notice in writing.

Classification of Real Property: Assessors are required to classify all real property according to use into one of four classes: residential, open space, commercial, and industrial. Having classified its real properties, local officials are permitted to determine locally, within limitations established by statute and the Commissioner of Revenue, what percentage of the tax burden is to be borne by each class of real property and by personal property owners.

Collective Bargaining: The process of negotiating workers' wages, hours, benefits, working conditions, etc., between an employer and some or all of its employees, who are represented by a recognized labor union, regarding wages, hours and working conditions.

Compliance: Adherence to relevant laws, regulations, and internal policies governing financial reporting and operations.

Community Development Block Grant (CDBG): A federal grant that aims to develop viable urban communities by providing decent housing, a suitable living environment, and expanded opportunities for persons of low and moderate income. The City of Manteca receives an annual CDBG entitlement from the U.S. Department of Housing and Urban Development through San Joaquin County.

Consumer Price Index: The statistical measure of changes, if any, in the overall price level of consumer goods and services. The index is often called the "cost-of-living index."

Cost-Benefit Analysis: A decision-making tool that allows a comparison of options based on the level of benefit derived and the cost to achieve the benefit from different alternatives.

Debt Burden: The amount of debt carried by an issuer usually expressed as a measure of value (i.e., debt as a percentage of assessed value, debt per capita, etc.). Sometimes debt burden refers to debt service costs as a percentage of the total annual budget.

Debt Service: The repayment cost, usually stated in annual terms and based on an amortization schedule, of the principal and interest on any particular bond issue.

Debt Service Requirement: The amount of money required to pay the interest currently due on outstanding debit, and/or the principal portion due on debt maturing in the upcoming year. The City's debt service requirement may also include required annual contributions to sinking funds set up to accumulate monies for the retirement of term bonds.

Encumbrance: Commitments related to unperformed contracts for goods or services. Encumbrances represent the estimated amount of expenditures ultimately to result if the unperformed contracts are completed. Encumbrances are used for budgetary purposes only and are not expenditures under generally accepted accounting principles (GAAP).

Enterprise Funds: Also known as Proprietary Funds, this fund type is used to account for operations that are: (1) financed and operated in a manner similar to private sector enterprises and intent that the costs (including depreciation) for providing goods or services to the general public be financed or recovered primarily through user charges, or, (b) the City, or an outside grantor agency, has determined that a periodic determination of revenues earned, expenses, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The City's enterprise funds are golf, water, sewer, and solid waste.

Equalized Valuations (EQVs): The determination of the full and fair cash value of all property in the community that is subject to local taxation.

Equity: The residual interest in the assets of an organization after deducting liabilities, representing the owners' stake in the business.

Estimated Receipts: A term that typically refers to anticipated local revenues often based on the previous year's receipts and represent funding sources necessary to support a community's annual budget. (See Local Receipts)

Exemptions: A discharge, established by statute, from the obligation to pay all or a portion of a property tax. The exemption is available to particular categories of property or persons upon the timely submission and approval of an application to the assessors. Properties exempt from taxation include hospitals, schools, houses of worship, and cultural institutions. Persons who may qualify for exemptions include disabled veterans, blind individuals, surviving spouses, and seniors.

Expenditure: A decrease in the City's available financial resources due to the purchase of goods or services, the completion of a contract related to a prior encumbrance, or payments currently due on outstanding debt.

Fiduciary Funds: Used to report assets held in a trustee or agency capacity for others.

Financial Statements: Reports summarizing an organization's financial activities and position, including the balance sheet, income statement, and cash flow statement.

Fiscal Year: The twelve (12) month period to which the annual operating budget applies, and at the end of which the City determines its financial position and the results of its operations. The fiscal year for the City of Manteca is July 1 – June 30.

Fixed Assets: Long-lived, assets such as buildings, equipment and land obtained or controlled as a result of past transactions or circumstances.

Fixed Costs: Costs that are legally or contractually mandated such as retirement, FICA/Social Security, insurance, debt service costs or interest on loans.

Float: The difference between the bank balance for a local government's account and its book balance at the end of the day. The primary factor creating float is clearing time on checks and deposits. Delays in receiving deposit and withdrawal information also influence float.

Full Accrual Basis of Accounting: The method of accounting where revenues are recognized when earned, expenditures are recognized when incurred, and fixed assets are depreciated over their estimated useful life. All enterprise and internal service funds are accounted for using this method of accounting (See Modified Accrual Basis of Accounting).

Full Faith and Credit: A pledge of the general taxing powers for the payment of governmental obligations. Bonds carrying such pledges are usually referred to as general obligation or full faith and credit bonds.

Fund: A separate fiscal and accounting entity which is self-balancing and freestanding for the purpose of maintaining records for a series of financial resources which are segregated for a particular purpose. The set of accounts in a fund include cash and other financial resources, all related liabilities, and the residual equities, or balances, and changes therein.

Fund Accounting: Organizing financial records into multiple, segregated locations for money. A fund is a distinct entity within the municipal government in which financial resources and activity (assets, liabilities, fund balances, revenues, and expenditures) are accounted for independently in accordance with specific regulations, restrictions or limitations. Examples of funds include the general fund and enterprise funds. Communities whose accounting records are organized according to the Uniform Municipal Accounting System (UMAS) use multiple funds.

Fund Balance: For each separate fund, this is the excess of assets over liabilities. A negative fund balance is sometimes called a deficit. Working capital is the spendable fund balance.

GAAP: Generally Accepted Accounting Principles - Standard accounting principles, standards, and procedures that companies use to compile their financial statements.

GANN Appropriations Limit This term refers to Article XIIIB of the California State Constitution that places limits on the amount of proceeds from taxes that state and local governmental agencies can receive and spend each year.

Gas Tax: Administered by the State Board of Equalization (SBOE), this is a per gallon tax on fuel used to propel a motor vehicle or aircraft. Use of the revenue is for research, planning, construction, improvement, maintenance, and operation of public streets, highways, or public mass transit.

GASB 34: A major pronouncement of the Governmental Accounting Standards Board that establishes new criteria on the form and content of governmental financial statements. GASB 34 requires a report on overall financial health, not just on individual funds. It requires more complete information on the cost of delivering value estimates on public infrastructure assets, such as bridges, road, sewers, etc. It also requires the presentation of a narrative statement the government's financial performance, trends and prospects for the future.

GASB 45: This is another Governmental Accounting Standards Board major pronouncement that each public entity account for and report other postemployment benefits in its accounting statements. Through actuarial analysis, municipalities must identify the true costs of the OPEB earned by employees over their estimated years of actual service.

General Fund: The fund used to account for all financial resources traditionally associated with government which are not required to be accounted for separately.

General Obligation Bonds: Bonds backed by the full faith and credit of a governmental unit. These bonds usually contain a pledge of the general taxing authority for their repayment.

Generally Accepted Accounting Principles (GAAP): GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They govern the form and content of the basic financial statements of an entity by including not only broad guidelines of general applications, but also detailed practices and procedures. GAAP provides a standard by which to measure and compare financial presentations.

Governing Body: A board, committee, commission, or other executive or policymaking body of a municipality or school district.

Governmental Funds: Funds used to account for tax-supported activities.

Grant: Contribution, gift, cash, or other assets from another entity to be used or expended for a specific purpose, activity, or facility.

Indirect Cost: Costs of a service not reflected in the operating budget of the entity providing the service. An example of an indirect cost of providing water service would be the value of time spent by non-water department employees processing water bills. A determination of these costs is necessary to analyze the total cost of service delivery. The matter of indirect costs arises most often in the context of enterprise funds.

Inter-Fund Transfers: Monies moved from one fund to another. The money is transferred to finance the operations of another fund or to reimburse the fund for expenses.

Internal Controls: Policies and procedures implemented by an organization to ensure the reliability of financial reporting and compliance with laws and regulations, aiming to prevent fraud and errors.

Internal Service Fund: Funds established to account for the financing of goods or services that are provided by one City department to another. Cost allocations spread the costs incurred by the internal service fund to other funds.

Interest: Compensation paid or to be paid for the use of money, including amounts payable at periodic intervals or discounted at the time a loan is made. In the case of municipal bonds, interest payments accrue on a day-to-day basis, but are paid every six months.

Interest Rate: The interest payable, expressed as a percentage of the principal available for use during a specified period of time. It is always expressed in annual terms.

Investments: Securities and real estate held for the production of income in the form of interest, dividends, rentals or lease payments. The term does not include fixed assets used in governmental operations.

Liabilities: Debts or obligations owed by an organization, including loans, accounts payable, and accrued expenses.

Line Item Budget: A budget that separates spending into categories, or greater detail, such as supplies, equipment, maintenance, or salaries, as opposed to a program budget.

Local Aid: Revenue allocated by the state or counties to municipalities and school districts.

Maturity Date: The date that the principal of a bond becomes due and payable in full.

Modified Accrual Basis Of Accounting: The method of accounting where revenues are recognized when they become both “measurable” and “available” to finance expenditures for the current period. Measurable means the amount of the transaction can be determined and available means the amount is collectible within the current period or soon enough thereafter (generally sixty days) to be used to pay liabilities of the current period. All governmental funds are accounted for using this method of accounting (See Full Accrual Basis of Accounting).

Municipal(s): (As used in the bond trade) "Municipal" refers to any state or subordinate governmental unit. "Municipals" (i.e., municipal bonds) include not only the bonds of all political subdivisions, such as cities, towns, school districts, special districts, counties but also bonds of the state and agencies of the state.

Net Income: The difference between an organization's revenues and expenses, representing its profit or loss for a specific period.

Note: A short-term loan, typically with a maturity date of a year or less.

Objects of Expenditures: A classification of expenditures that is used for coding any department disbursement, such as “personal services,” “expenses,” or “capital outlay.”

Official Statement: A document prepared for potential investors that contains information about a prospective bond or note issue and the issuer. The official statement is typically published with the notice of sale. It is sometimes called an offering circular or prospectus.

Operating Budget: Annual appropriation of funds for ongoing program costs, including salaries and benefits, services and supplies, debt service, and capital outlay.

Operating Expenses: Expenditures for materials, supplies, and services which are ordinarily consumed within a fiscal year and which are not included in program inventories.

Operating Transfers: legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended. An example would be the transfer of funds from the general fund, or an enterprise fund, to an internal service fund to finance the services provided by the internal service fund (See the Fiscal Overview section of this document for further definitions of the types of funds).

Ordinance: A formal legislative enactment by the governing board of a municipality (the City Council). If it is not in conflict with any higher form of law, such as a State statute, Federal law, or constitutional provision, it has the full force and effect of law within the boundaries of municipality to which it applies. The difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status. Ordinarily, the City’s statues or charter will specify or imply those legislative actions which must be by ordinance and those which may be by resolution.

Overlapping Debt: A community's proportionate share of the debt incurred by an overlapping government entity, such as a regional school district, regional transit authority, etc.

Performance Budget: A budget that stresses output both in terms of economy and efficiency.

Performance Measures: Performance measures are an important component of decision making, and at a minimum, they should be based on program goals and objectives, measure program results or accomplishments, provide for comparisons over time, measure efficiency and effectiveness, and be reliable, verifiable, and understandable.

Preliminary Budget: The budget in its initial preparation stage prior to being reviewed and formulated by the budget-making authority (the City Manager). In the preliminary stage, a budget consists of various estimates forecasting current costs into the future and new or modified spending proposals for the future.

Principal: The face amount of a bond, exclusive of accrued interest.

Program: A combination of activities to accomplish an end.

Program Budget: A budget that relates expenditures to the programs they fund. The emphasis of a program budget is on output.

Property Tax: Property tax is imposed on real property (land and permanently attached improvements such as a building) and tangible personal property located within the City.

Proposed Budget: The budget as formulated and proposed by the budget-making authority (the City Manager). It is submitted to the legislative body (the City Council) for review and approval.

Proprietary Funds: Funds used to record the financial transactions of governmental entities when they engage in activities that are intended to recover the cost of providing goods or services to the general public on a user-fee basis.

Purchased Services: The cost of services that are provided by a vendor.

Refunding of Debt: Transaction where one bond issue is redeemed and replaced by a new bond issue under conditions generally more favorable to the issuer.

Reserve: An account used to earmark a portion of the fund balance. This may be done for various reasons. The most common is to indicate that this portion of the fund balance is not available for general expenditures, or the amount has been legally segregated for specific future use.

Reserve Fund: An amount set aside annually within the budget of a town to provide a funding source for extraordinary or unforeseen expenditures.

Resolution: A special or temporary order of a legislative body (the City Council). This action requires less legal formality than an ordinance (See Ordinance).

Revaluation: The assessors of each community are responsible for developing a reasonable and realistic program to achieve the fair cash valuation of property in accordance with constitutional and statutory requirements. The nature and extent of that program will depend on the assessors' analysis and consideration of many factors, including, but not limited to, the status of the existing valuation system, the results of an in-depth sales ratio study, and the accuracy of existing property record information.

Revenue: Amounts received or receivable from taxes, fees, permits, licenses, interest, and intergovernmental sources during the fiscal year.

Revenue Anticipation Note (RAN): A short-term loan issued to be paid off by revenues, such as tax collections and state aid. RANs are full faith and credit obligations.

Revenue Bond: A bond payable from and secured solely by specific revenues and thereby not a full faith and credit obligation.

Revolving Fund: Allows a community to raise revenues from a specific service and use those revenues without appropriation to support the service.

Sale of Real Estate Fund: A fund established to account for the proceeds of the sale of municipal real estate other than proceeds acquired through tax title foreclosure.

Sinking Fund: A group of accounts established to account for the accumulation of resources for, and the payment of, long-term bond principal and interest. Bonds issued in such a fund contain an agreement requiring the governmental unit to periodically set aside a sum which, when compounded with interest, will be sufficient to redeem the debt at the stated maturity date. Bonds of this type are commonly known as term bonds.

Special Revenue Fund: A fund used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Stabilization Fund: A fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose.

Supplemental Appropriation: An additional appropriation made by the legislative body (the City Council) after the budget year has begun.

Support Services: The expenditure class for charges paid by one City department or agency to another for services rendered or materials supplied.

Surplus Revenue: The amount by which cash, accounts receivable, and other assets exceed liabilities and reserves.

Taxes: Charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against persons or property for current or permanent benefits, such as special assessment districts. Neither does the term include charges for services rendered only to those paying such charges, such as sewer service charges.

Tax Rate: The amount of property tax stated in terms of a unit of the municipal tax base; for example, $14.80 per $1,000 of assessed valuation of taxable real and personal property.

Tax Title Foreclosure: The procedure initiated by a municipality to obtain legal title to real property already in tax title and on which property taxes are overdue.

Transient Occupancy Tax (TOT): A tax imposed on travelers who stay in temporary lodging facilities within the City. Also referred to as a Hotel/Motel Tax.

Trust Fund: In general, a fund for money donated or transferred to a municipality with specific instructions on its use. As custodian of trust funds, the treasurer invests and expends such funds as stipulated by trust agreements, as directed by the commissioners of trust funds or by the community's legislative body. Both principal and interest may be used if the trust is established as an expendable trust. For nonexpendable trust funds, only interest (not principal) may be expended as directed.

Uncollected Funds: Recently deposited checks included in an account’s balance but drawn on other banks and not yet credited by the Federal Reserve Bank or local clearinghouse to the bank cashing the checks. (These funds may not be loaned or used as part of the bank’s reserves and they are not available for disbursement.)

Undesignated Fund Balance: Monies in the various government funds as of the end of the fiscal year that are neither encumbered nor reserved, and are therefore available for expenditure once certified as part of free cash.

Unreserved Fund Balance (Surplus Revenue Account): The amount by which cash, accounts receivable, and other assets exceed liabilities and restricted reserves. It is akin to a "stockholders’ equity" account on a corporate balance sheet. It is not, however, available for appropriation in full because a portion of the assets listed as "accounts receivable" may be taxes receivable and uncollected. (See Free Cash)

User Charges: The payment of a fee for direct receipt of a public service by the party benefiting from the service (e.g., fees paid for periodic refuse pick-up).

Valuation (100 Percent): The legal requirement that a community's assessed value on property must reflect its market, or full and fair cash value.

Working Capital: Broadly defined as the excess of current assets over current liabilities. A practical definition for governmental units would be the excess of cash, investments, and accounts receivable over accounts payable. Amount of fund balance that is available to spend.

Resolutions

Note: Resolutions related to the Fiscal Year 2025-26 budget will be added to this section once they have been officially approved and are available.

GFOA Award

Note: The budget award is expected and will be uploaded to this section once it is received.
